MAKEUP OPPORTUNITIES

Students will be permitted a reasonable amount of time by each teacher after returning to school to make up work missed during a legal absence.

In grades 9, 10 and 11 if a student fails English, Social Studies or Physical Education, and does not successfully complete a makeup in a duly authorized summer school, the student must retake the same course again the following year. Students will not be permitted to double up in English or Social Studies until the senior year in order to makeup failed courses. A student in grade 11 who fails Physical Education for the fall semester may double up during the spring semester.
