ENROLLMENT PROJECTIONS

The Superintendent of Schools is responsible for evaluating district population and housing trends and making enrollment projections for the district. Enrollment projections will be prepared on a minimum of a five-year basis and will be reviewed and brought up to date by the end of the first attendance period each school year. Should a dramatic change in school population be predicted, a master plan shall be established concerning the construction of new educational facilities.

The projections will take into consideration:

1. data from the latest school census;
2. school registration figures;
3. proposed or forthcoming changes in community planning and zoning; and
4. current and planned community land development and housing projects; and
5. curriculum changes that will impact utilization of space.

Whenever construction of new school facilities or the closing of any school buildings is being contemplated, the Board of Education may authorize outside studies made of population trends and school enrollment.
