SECTION I – GENERAL CONSIDERATIONS AND PLANNING GUIDELINES

PURPOSE
Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed school emergency plans required at the building level. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Somers Central School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

Changes to procedures are made as needed. The district-wide safety team should evaluate communications and transportation systems during emergencies.

Each Building-level Emergency Response Team and representatives of the District administration engage in tabletop exercises facilitated by the district’s emergency management consultant. Emergency response agencies are encouraged to participate in these exercises. All general staff will receive training on District-wide procedures as well as specific procedures contained within their respective building-level emergency response plan. This training shall occur prior to September 15th of each school year or within 30 days of joining the district. This training will be conducted at a staff development day in August, online or a combination of both.37

The District will provide advanced training for each Emergency Response Team (ERT) and District-wide Safety Team annually. The training will include practices and procedures to educate, evaluate, update and review all Emergency management protocols and procedures the teams perform including, but not limited to Lockdown, Lockout, Evacuation, Shelter-In-Place, Early Dismissal and Fire. The District may involve local emergency responders as well to participate in this training.

Additional training may include but is not limited to:

- De-escalation training
- Warning signals for violence and mental health concerns
- Non-violent conflict resolution
- Student School Emergency Response Procedures Training

PROACTIVE BUILDING SECURITY MEASURES

1. The District buildings use a limited points of entry system. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote “buzzer” entry during normal school hours.

2. All schools have monitors or office staff members just inside the entrance to each school in the District. These monitors ensure visitor sign-in procedures and help supervise building traffic flow. The monitors are under the supervision of the building principals.

3. Staff members are required to wear visible identification badges.

4. Visitors are required to sign in and wear visitor identification.

5. Visitor access is limited to specific areas of the school building.

6. A School Resource Officer, from the Westchester County Department of Public Safety, is assigned to each school building.

7. Security cameras are in place in the interior, as well as exterior, of each school building.

8. Security Guards are in place at the main entries of each school building during after school hours.

37 155.17(c)(1)(xiii) policies and procedures for annual multi-hazard school safety training for staff and students, provided that the district must certify to the commissioner that all staff have undergone annual training by September 15, 2016 and each subsequent September 15th thereafter on the building-level emergency response plan which must include components on violence prevention and mental health, provided further that new employees hired after the start of the school year shall receive such training within 30 days of hire or as part of the district’s existing new hire training program, whichever is sooner;
VITAL EDUCATIONAL INFORMATION

Information on each building’s student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR

This section contains the District’s policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A summary of the District’s Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for bullying, violence, and harassment.

2. A “plain language” summary of the Code of Conduct is mailed or disseminated electronically to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.

3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.

4. Efforts are made on the building level in each of the District’s schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Child Study Teams or their equivalents meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, parents/guardians and students are involved in this process.

5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.

6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual’s behavior, and on responsible decision-making.

7. Each of the District’s school psychologists/social workers facilitates counseling groups for identified students around issues related to poor social skills development, anger management, and good decision-making.

38 155.17(h)(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

39 155.17(c)(1)(xii) Policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, parents and other persons in parental relation to students of the school district or board, students and other persons deemed appropriate to receive such information;
8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.

9. The District works in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

The role of school discipline is delegated to school administration.

District Memorandum(s) of Understanding related to this section are maintained in the District office.

ALLOCATIONS

A. At the elementary and middle school level, there is a single point of entry for visitors at each building and visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a safety greeter. Staff in the building all wear district-produced identification badges which must be worn at all times.

B. At the high school level, there is a single point of entry for visitors, which is staffed during normal school hours by one of several staff members or safety personnel assigned to the High School. Visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a safety greeter. Staff in the building all wear district-produced identification badges, which must be worn at all times. In addition, safety personnel are assigned to areas throughout the building.

HIRING

The interviewing and hiring of safety personnel follows the district’s practices for hiring of new staff. All new staff employed by the District must be fingerprinted and complete reference checks in order to be employed.

SECTION III – RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

EXTERNAL

Anyone with knowledge of an incident is encouraged to immediately call 911 in an emergency.

The District’s mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, Google groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of staff, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District’s website: https://www.somersschools.org/

During an emergency, all contact with the media will be handled either by the Superintendent or his/her designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or his/her designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

INTERNAL

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent’s office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.
SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building’s administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or his/her designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.  

RESPONSE PROTOCOLS

Written information on emergency response procedures is disseminated to parents, age-appropriate students and staff via email by October 1st annually. This non-sensitive information may also be found on the district website.

RESPONSES TO IMPLIED OR DIRECT THREATS OF VIOLENCE

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.

2. Staff members are required to immediately inform the Principal or his / her designee of any direct or implied threat of violence or actual act of violence by students, teachers, other school personnel including bus drivers and monitors and visitors to the school, including threats by students against themselves, which shall include suicide. The Principal or her/his designee decides whether to utilize the building’s trained clinician(s) in an effort to de-escalate or defuse the situation.

3. The district disseminates educational material, including but not limited to emails and formal brochures, encouraging parents and visitors to tell school staff about any direct or implied threat of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.

4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or her/his designee will determine whether to immediately contact the Superintendent of Schools or the Assistant Superintendent to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.

5. Each building has the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.

6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District’s Code of Conduct. Chronic offenders may require a behavior intervention plan, close monitoring, and/or police involvement.

RESPONSES TO ACTS OF VIOLENCE

1. The Principal or her/his designee will determine whether to contact law enforcement personnel. Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so). Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.

2. The Principal, and/or her/his designee then determine the appropriateness of directing the Emergency Response Team to be activated.

3. The Emergency Response Team (ERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter – In – Place, Fire or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.

4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all ERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.

5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are detailed in each building-level emergency plan. The use of the District’s mass communication system is typically utilized.

6. Aggressively dangerous and violent students, staff or visitors shall be managed as outlined by the procedures detailed in the district code of conduct.

7. The building administrator will investigate reported threats and reported acts of violence and will make the determination of disciplinary measure(s) consistent with the District’s Code of Conduct.

8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.

9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.

10. The district has a zero-tolerance policy for weapons, in accordance with federal and state law and the District Code of Conduct, and utilizes our Restorative Practices model and philosophy to respond to other acts of school violence.

PROTOCOLS FOR A STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the District’s response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared state disaster emergency involving a communicable disease. The new legislation will constitute New York State Labor Law Section 27-c, and serve as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to 2801-a of the Education Law that required additions to the District Emergency Response Plan. The following information will be used as a guideline for any new state disaster emergency involving a communicable disease that emerges. The District understands that each state disaster emergency involving a communicable disease will likely vary in contagion level, veracity and duration. In all likelihood, an updated Reentry Plan, with updated protocols and guidelines will be developed, specifically to address the new pandemic.

The following procedures provide a general overview of the District’s response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

Faculty and staff will be provided with the necessary electronic devices and the required software technology to provide non-essential employees access to any essential school required technology programs, which includes, but is not limited to school email, payroll, accounts payable, student information systems, as necessary to execute all school responsibilities. Somers Central School District Staff will be guided on this as per the Building Level Emergency Plans and the SCSD Reentry Plan.

3. To the extent possible the District will stagger work shifts of essential employees in order to reduce overcrowding on public transportation systems and at worksites. Staff and students typically drive or are driven, via personal vehicle to campus. In an effort to reduce overcrowding on public transportation systems and at worksites:
a. Class schedules, if scheduled to be on site, buildings will practice social distancing and mask wearing. Classrooms and spaces will spread out students to reduce the number of people in spaces. Students will be attending school using a combination of full time in, as well as a hybrid model which will stagger students by cohort, using last name and alternating days of the week for attendance. This will limit the number of persons in school and who might need to access public transportation.

b. Staff will arrive on campus prior to students at staggered times/work shift or/and staggered assigned days of work.

c. If no students are in school, staff will continue to have their work shift or assigned days of work staggered.

d. Visitors will not be permitted on campus, unless scheduled prior or deemed necessary by the Building Administrator.

4. Personal protective equipment (PPE) will be procured and stored:
   a. The Facilities Department will maintain a quantity sufficient to provide each type of PPE for each essential employee. Storage of personal protective equipment will be on campus and comply with the manufacturer’s storage recommendations for each item.
   b. PPE equipment will be readily available, if needed.

5. In the event an employee, or student is exposed to a known case of a communicable disease that is subject to a state disaster emergency involving a communicable disease, exhibits symptoms of such disease, or tests positive for such disease, the District will respond as per the District’s Reentry Plan, which will be developed to provide clear guidelines to direct the SCSD Community response to the event.

Management of Sick Persons

- Staff will be provided training through Global Compliance Network on how to identify signs of illness in students and staff.
- Staff who identify a student with a state disaster emergency involving communicable disease symptoms will contact their school’s nurse via phone.
- The school nurse or other designated personnel in each building will determine if the child should be sent to the nurse’s office or to the isolation room.
- The person will be assessed by a registered nurse at the school to determine if the child should be sent home or remain in school.
- Parents will be contacted and advised to transport the student home or to a healthcare facility.
- Areas used by a sick person will be closed off and not used before cleaning and disinfection.
- When possible, custodial staff will clean and disinfect the area in accordance with Westchester County Department of Health and NYSDOH guidelines.

In the event a person is diagnosed with communicable disease that is subject to state disaster emergency while at school, the following procedure will be followed:

- The school physician and department of health will be contacted to advise of the confirmed diagnosis and confirm which students and staff will be advised to stay home.
● Persons who had close contact with a person diagnosed with the communicable disease will be advised to stay home and self-monitor for symptoms and to follow NYSDOH guidance if symptoms develop. If a person does not have symptoms, they will be instructed to follow appropriate NYSDOH guidance for home isolation.
● Close contact will be defined in accordance with the Westchester County Department of Health.
● Sick staff members and children will be advised not to return until they have met NYSDOH criteria to discontinue home isolation.
● SCSD will consult with the Westchester health department regarding the current local hospital capacity when making decisions on school closures.
● Staff and families will be notified of a positive case while maintaining confidentiality consistent with the Americans with Disabilities Act (ADA) and other applicable federal and state privacy laws.

State Disaster Emergency Involving A Communicable Disease Screener

In the event that the school is notified via a state disaster emergency involving a communicable disease screener, that an employee or student has been exposed to said public health disease and are quarantined, or if a family member has been diagnosed with or presumed to have said disease and/or is being isolated, the following procedure will be followed:

● Personnel and students with known exposure to someone diagnosed or presumed to be diagnosed with the state disaster emergency involving a communicable disease will be instructed to follow quarantine guidelines issued by the NYSDOH.
● The custodial staff will be informed so that all desks, lockers, and workspaces of the person are thoroughly disinfected. Custodial staff will follow all current NYSDOH guidelines on cleaning and disinfecting school buildings.

State Disaster Emergency Involving a Communicable Disease Testing

Somers School District is not equipped to conduct testing in the event of a large-scale outbreak. We have a standing relationship with the Westchester County Department of Health and in the event that testing is required, we will defer to the WCDOH for any required or relevant information. This information will be disseminated through our communications platform.

Students, faculty and staff can also call the NYSDOH helpline at 1-866-881-2809 for assistance locating a testing site.

Contact Tracing

Contact Tracing Assessing and informing those with potential exposure is a fundamental control strategy for minimizing spread within a group or camp population. NYSDOH defines a close contact as it relates to the current state disaster emergency involving a communicable disease. Somers Central School district will notify the state and local health department immediately upon being informed of any positive state disaster emergency involving a communicable disease diagnostic test result by an individual within school facilities or on school grounds, including students, faculty, staff, and visitors of the Somers Central School District.
To assist the local health department with tracing the transmission of a state disaster emergency involving a communicable disease, Somers Central School District has developed and maintained a plan to trace all contacts of exposed individuals in accordance with protocols, training, and tools provided through the New York State Contact Tracing Program.

Districts may assist with contact tracing by:
- Keeping accurate attendance records of students and staff members.
- Ensuring student schedules are up to date.
- Keeping a visitor log that includes date and time address and phone number, and where in the school they visited.
- Assisting the local health departments in tracing all contacts of the individual in accordance with the protocol, training, and tools provided through the NYS Contact Tracing Program.
- Informing the local health department of staff members testing positive regardless of county of residence.
- For all contact tracing, the WCDOH will require the name, address, and phone number as well as the name and phone number of the guardian of a student.
- If/When state disaster emergency involving a communicable disease cases are discovered, in consultation with the Westchester County Department of Health, Somers Central School District will follow WCDOH guidelines as they pertain to closing or quarantining locations of potential exposure, cleaning and disinfecting locations and providing WCDOH with information as required.
- Ill students and staff will be assessed by the school nurse or medical director in their absence. They will be sent home for follow-up with a health care provider. A doctor’s note will be required to return.
- Modified school operations may be considered prior to instituting school-wide closures to help mitigate a rise in cases.
- Confidentiality must be maintained as required by federal and state laws and regulations.
- Staff should not try to determine who is to be excluded without guidance and direction from the local health department.

Returning to School

The following procedure will be followed for allowing persons to return to school following illness or diagnosis of a confirmed case of a state disaster emergency involving a communicable disease or following quarantine.

Once a student or employee is excluded from the school environment, they may return if they satisfy the recommendations of the NYSDOH and their return is coordinated with the Westchester Department of Health following those guidelines created specifically for the current state disaster emergency involving a communicable disease as they pertain to people in the following categories; untested persons, tested persons and tested persons with no symptoms.

6. All essential employees will have their hours and work locations documented, including off-site visits, by:
   a. All entrances will be locked with guard staff posted.
   b. All employees will use their access cards for entrance which documents their arrival on premises.
   c. Payroll, attendance, and time cards will further document an employee’s presence on campus.
   d. Any other essential workers will sign in with guards, and their presence registered in the visitor log book.
   e. No other visitors will be allowed on site.
Such protocol shall be designed only to aid in tracking of the disease and to identify the population of exposed employees and contractors in order to facilitate the provision of any benefits which may be available to certain employees and contractors on that basis.

7. If emergency housing is needed the District will lodge essential employees on district property. Essential employees requiring lodging will be housed at the Somers High School or Somers Middle School. This will provide access to showers and bathroom facilities. Meals will be provided as necessary.

8. Other
   a. Any other requirements determined by the Department of Health such as contract tracing or testing, physical distancing, hygiene, and disinfectant, or mask-wearing.

**Coordination and School District Resources and Manpower During Emergencies**

The District will, as appropriate, utilize all available manpower during an emergency. Within each building, schools may use the Staff All Call response protocol that quickly summons all available staff members to a staging area for assignments. Coordination of available employees is typically performed by the Principal or designee. Specific job duties will be assigned based on the type of emergency and in

**PARTICIPATING IN UNIFIED COMMAND UNDER ICS PRINCIPLES**

**ASSIGNMENT OF RESPONSIBILITIES**

A chain of command consistent with the National Interagency Incident Management System (NIMS)/Incident Command System (ICS) will be used in response to an emergency. Members of the School, Emergency Response Team, will be part of this system. In the event of an emergency, the response team will adopt NIMS/ICS principles based on the size, scope, and character of the emergency.

1. It is recommended that all administrators and Emergency Response Team members complete the incident command training level one.

2. It is recommended that all District Emergency Response Team members complete incident command training level one and level two.

EMERGENCY REMOTE INSTRUCTION

OVERVIEW

The District may offer eLearning days to students in the event-of-an-emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease outbreak. When making decisions about remote instruction, the District will consult with students, parents, teachers, administrators, community members, and other stakeholders as appropriate. When implementing remote instruction, the District will ensure that it is complying with applicable teaching and learning requirements.

DEFINITIONS

A. "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.
B. "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.
C. "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
   1. Remote instruction will encompass synchronous instruction provided through digital video-based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.
   2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.
D. "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.

FORMATS AND METHODS OF REMOTE INSTRUCTION

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of students involved, the subject matter, the students' grade levels, and technological resources of both the District and students. Consideration will also be given to whether accommodations need to be made for students with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan (COIP) section.
INSTRUCTIONAL OPTIONS

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning. Print materials and other non-digital forms of student instruction and check-in will be created. These plans will be communicated between the school and students’ caregivers and print materials will be delivered or made available by pick-up.

COMPUTER AND CONNECTIVITY ACCESS FOR STUDENTS

The District will ensure that students have the necessary equipment at home to participate in eLearning.47 No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner.48 The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school’s Building-level Emergency Response Plan.

MINIMUM INSTRUCTIONAL HOURS

Remote instruction provided on days when the District would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of state aid. The Superintendent will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the District was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the District’s emergency remote instruction plan. The typical remote instruction day is 6 hours in length.

REMOTE INSTRUCTION SUPPORT

As necessary, the District will provide instruction on using remote instruction technology and IT support for students, teachers, and families. The District will also work to ensure that teachers and administrators are provided with professional development opportunities related to designing an effective remote instruction experience.

In the event that an emergency situation arises and communication to the community is necessary during the time the District has transitioned to synchronous and/or asynchronous learning, the following platform may be used to broadcast a communication through the form of a phone call, email and mobile text messaging using the Parent Square tool. In the event the Parent Square tool is not available, the District will use Office 365 email as an alternative communication tool. The District also has the ability to add a static communication onto the District website to immediately display upon visit.

47 155.17(xxi)(a) ensure computing devices will be made available to students
48 155.17(f)(2) Beginning in the 2022-2023 school year, each chief executive officer shall report to the Commissioner, no later than June 30 of each school year, on a form and format prescribed by the Commissioner, the results of the survey on student access to computing devices and access to internet connectivity
COMPLIANCE WITH DISTRICT POLICIES, PROCEDURES, AND THE CODE OF CONDUCT

Teachers and students are required to comply with any and all applicable District policies, procedures, and other related documents as they normally would for in-person instruction. Examples include, but are not limited to, the District’s policies and procedures on non-discrimination and anti-harassment, acceptable use, and copyright. Students will also be required to abide by the rules contained within the Code of Conduct at all times while engaged in remote instruction. Violations of the Code of Conduct, Acceptable Use Policy, and Personal Learning Device Agreement, and/or engaging in prohibited conduct may result in disciplinary action as warranted.

PRIVACY AND SECURITY OF STUDENT AND TEACHER DATA

The District will take measures to protect the personally identifiable information of students and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and District policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.

SECTION IV – COMMUNICATION WITH OTHERS

Obtaining assistance during emergencies from emergency service organizations and local government agencies

1. The district continues to work closely with local police, fire, EMS, and governmental agencies to obtain assistance during emergencies. **Contacting Parents, Guardians or Persons in Parental Relation to the Students of the District in the Event of a Violent Incident or an Early Dismissal**

In the event of violent incidents or crises, or an early dismissal of students, every effort will be made to notify parents. As soon as practical, the Superintendent or his/her designee shall activate the emergency notification system that will provide relevant information. Parental notification procedures for a student involved in disciplinary situations shall be consistent with the Code of Conduct and New York State law, and shall be presented clearly and concisely to staff and students each year. When a student is involved in any violent situation, or an implied or direct threat of violence by such student against themselves, including suicide, parent or guardian shall be contacted as soon as practicable. Administration shall utilize school mental health resources when necessary. It is the responsibility of all parents and guardians to ensure that emergency contact information for students is always up-to-date and complete.

Specific continuity plans are contained within each Building-level Emergency Response Plan.

**CONTINUITY OF INSTRUCTION**

The District offers a suite of online instructional tools that can be used to support remote instruction and communication. General instructional tools for communicating with students may include, but is not limited to, the following online services:

**DISTRICT SUPPORT FOR BUILDINGS**

When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the District Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The District Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building’s administrators and Emergency Response Team (BERT), other school buildings may be called to support the Emergency Response Team in that building.

Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a “debriefing”, or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team’s response to the incident, and post-traumatic incident debriefing.
District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District Public Information Officer in composing letters to parents following any emergency. The District’s Public Information Officer will assist in sending mass communication messages to affected groups. The District’s Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.

**Disaster Mental Health Services**
