Thirty-one respondents gave additional information for consideration. A work session with the steering committee, facilitators, and note takers was held in early November 2022. The purpose of that session was to consolidate feedback and organize information in emerging themes/long-term goals.</p> <p>The second Town Hall is scheduled for November 29, 2022. Invitations have been widely distributed. The purpose of this session is to continue refining and narrowing areas of potential focus.</p> |

Professional Development Proposal Form

Professional development is one of the largest investments we make in our future. The goal is to provide relevant training and learning opportunities, aligned to our mission, vision, values, and strategic goals. In doing so, we will educate and change the behavior of our learning community to positively impact the student experience and results. The Kirkpatrick Model captures this notion and helps us to focus on results and embody the philosophy of continuous improvement. By each of us taking small steps to the right, we grow both as individuals and as an overall organization.

PD Effectiveness Measures

Below is a chart of the Act 48 professional development session ratings over time, with the prior three years' ratings as a comparison with trends over time. This data is kept for each in-service session and summarized into an annual average. In addition to soliciting qualitative feedback and comments, each of the formal in-service sessions is rated on a scale of 1-4, where the values expressed represent the following categories: (1) Strongly Disagree, (2) Disagree, (3) Agree, and (4) Strongly Agree, in response to the prompts:

- "Was (were) the facilitator(s) well organized and **prepared to deliver the session?** Consider handouts, resources, "parking lot" for questions to revisit, facility, etc."
- "Were the **learning goals presented and aligned with the learning activities?**"
- "Will you **implement at least one strategy as a result of this professional development experience?**"

Recommendation #7: Resources; Interest and Ownership; Relevance and Application

- Review K-12 texts to develop a text list that delineates the grade level at which each text will be used based on preset criteria (e.g., instructional value, time-periods, student interest, cultural relevance/diversity, etc.). **Clarify core and protected texts by grade-level and department.**
- Research and **select a range of novels that are current and diverse, providing opportunities for choices for students.** Include a variety of methods for accessing the book or novel (online, paperback) to expose students to different ways of interacting with text.

A **mirror** is a story that reflects your own culture and helps you build your identity.

A **window** is a resource that offers you a view into someone else's experience.

The core text evaluation process will result in replacement of **one (1)** of the current core text with **one (1)** of the new core text.

ELA Text Selection Process

Phase 1: Inventory Current Resources

Step 1: ELA teachers meet in grade level teams to list out the core texts that they teach.

****Core text:** a text that all grade level teachers have read consistently over the course of several year.

Step 2: Librarians/ ELA teachers conduct a core text diversity audit reviewing the following:

- Author information
- Character description
- Context (representation of characters and setting)
- Perspective (point of view)
- Genre

Step 3: ELA teachers then add the **instructional value** of each current core text to the report. ****Instructional value:** The standards and valuable learning activities taught with the text.

Product: Each grade level will produce a list of standards and text criteria needed to fill gaps in the current selection of texts.

Phase 2: Review Texts for Consideration

Step 1: The text selection committee will communicate the text criteria, skill focus, and topic/ thematic needs with librarians.

Step 2: Librarians conduct a search of age-appropriate literature that fits the criteria identified by the text selection committee.

Step 3: The text selection committee reviews the texts provided by the librarians for the following:

- Adherence to PRSD curriculum
- Appropriate text complexity
- Instructional value added to the curriculum

Product: Each grade level on the text selection committee will produce a list of 2-3 texts that should be considered for adoption into the curriculum.

Step 4: The text selection committee will share their narrowed down texts with the School Board and community.

Phase 3: Communicating Recommendations

Step 1: Hold a book club with the finalist texts and solicit feedback from the school board and community about each text.

Step 2: The text selection committee will review the community input and recommend one text to go before the school board for approval.

Product: Final text recommendations will be detailed in an executive summary to the board. The texts will be available for review for 30 days prior to the board voting meeting.

A note about resource updates:
In the process of selecting new texts, it is likely that current texts will be removed from the curriculum. Recommendations for resource updates:

- Lacks instructional value or overlaps with other texts
- Not challenging enough for the grade level in which it is taught
- Contains outdated research
- Lacks diversity of skill development, genres, character types, themes, perspectives, etc.
