

# PRSD Stakeholder Survey Results Introduction

- For many years, PRSD has locally-developed and administered an optional stakeholder survey for students, parents and staff. The results of this annual process and further analysis are organized in four sections:
  - Combined Results (Slides 4 - 31)
  - Combined Results with Elementary vs. Secondary Comparison (Slides 35 - 61)
  - Combined Results with Male vs. Female Comparison (Slides 65 - 70)
  - Combined Results with White vs. Students/Staff of Color (Slides 74 - 89)
- Given the demographic questions in each survey, disaggregated results do not exist for each area and/or stakeholder group.
- Participants also had the option to leave gender and/or race blank. In these data sets, the “all” percentage reflects total respondents. The subgroup percentage is also calculated against the total respondents.
- For the student and staff results that compare race, we have very low numbers for students of color and staff of color.
- Where possible we provided four-years of results to ensure a 2018 - 2019 pre-COVID baseline.

## PRSD Stakeholder Survey Results Introduction

- For many years, PRSD has locally-developed and administered an optional stakeholder survey for students, parents and staff. The results of this annual process and further analysis are organized in four sections:
  - Combined Results (Slides 4 - 31)
  - Combined Results with Elementary vs. Secondary Comparison (Slides 35 - 61)
  - Combined Results with Male vs. Female Comparison (Slides 65 - 70)
  - Combined Results with White vs. Students/Staff of Color (Slides 74 - 89)
- Given the demographic questions in each survey, disaggregated results do not exist for each area and/or stakeholder group.
- Participants also had the option to leave gender and/or race blank. In these data sets, the “all” percentage reflects total respondents. The subgroup percentage is also calculated against the total respondents.
- For the student and staff results that compare race, we have very low numbers for students of color and staff of color.
- Where possible we provided four-years of results to ensure a 2018 - 2019 pre-COVID baseline.

# Stakeholder Survey Results

A comprehensive parent survey was implemented for the eighth time to evaluate **parent** satisfaction / engagement for the school years.

## PRSD Stakeholder Survey Results Introduction

- For many years, PRSD has locally-developed and administered an optional stakeholder survey for students, parents and staff. The results of this annual process and further analysis are organized in four sections:
  - Combined Results (Slides 4 - 31)
  - Combined Results with Elementary vs. Secondary Comparison (Slides 35 - 61)
  - Combined Results with Male vs. Female Comparison (Slides 65 - 70)
  - Combined Results with White vs. Students/Staff of Color (Slides 74 - 89)
- Given the demographic questions in each survey, disaggregated results do not exist for each area and/or stakeholder group.
- Participants also had the option to leave gender and/or race blank. In these data sets, the “all” percentage reflects total respondents. The subgroup percentage is also calculated against the total respondents.
- For the student and staff results that compare race, we have very low numbers for students of color and staff of color.
- Where possible we provided four-years of results to ensure a 2018 - 2019 pre-COVID baseline.

# Stakeholder Survey Results

A comprehensive parent survey was implemented for the eighth time to evaluate **parent** satisfaction / engagement for the school years.

2014 - 15	2015 - 16	2016 - 17	2017 - 18	2018 - 19	2019 - 20	2020 - 21	2021 - 22

For the 2021-2022 school year we implemented for the sixth time a **student** satisfaction and engagement survey. Students in the oldest grade of their current building were surveyed (grades 3, 6, 8, and 12).

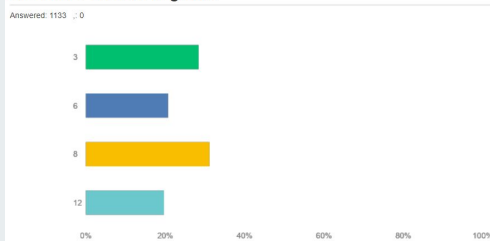

2016 - 17	2017 - 18	2018 - 19	2019 - 20	2020 - 21	2021 - 22

The 2021-2022 school year was the sixth year for the **staff** satisfaction survey. From a demographic perspective, we had representation from all employment groups (Act 93, Admin Support, PREA, PRESPA).

# PRSD Stakeholder Survey Results Introduction

- For many years, PRSD has locally-developed and administered an optional stakeholder survey for students, parents and staff. The results of this annual process and further analysis are organized in four sections:
  - Combined Results (Slides 4 - 31)
  - Combined Results with Elementary vs. Secondary Comparison (Slides 35 - 61)
  - Combined Results with Male vs. Female Comparison (Slides 65 - 70)
  - Combined Results with White vs. Students/Staff of Color (Slides 74 - 89)
- Given the demographic questions in each survey, disaggregated results do not exist for each area and/or stakeholder group.
- Participants also had the option to leave gender and/or race blank. In these data sets, the “all” percentage reflects total respondents. The subgroup percentage is also calculated against the total respondents.
- For the student and staff results that compare race, we have very low numbers for students of color and staff of color.
- Where possible we provided four-years of results to ensure a 2018 - 2019 pre-COVID baseline.

## Stakeholder Survey Results

A comprehensive parent survey was implemented for the eighth time to evaluate **parent** satisfaction / engagement for the school years.

For the 2021-2022 school year we implemented for the sixth time a **student** satisfaction and engagement survey. Students in the oldest grade of their current building were surveyed (grades 3, 6, 8, and 12).
