

Delay for Recommended Courses

Dear Rising 7th and 8th Grade Students and Families,

Due to a glitch with the Sapphire Community Portal, course recommendations for the 2024-2025 school year **will not be available in Sapphire** on Friday as originally planned.

We are working with the support team at Sapphire to resolve this issue and will notify all families as soon as we have a new date. The course request deadline will be adjusted as appropriate and communicated to all families as well.

In the meantime, please continue to review our [2024-2025 Program of Studies](#). Within the document, you will find essential information detailing curricular offerings, key contacts, course selection, and scheduling.

We have included information on Career Education and Work Standards. This is an area of focus for the district as we work to help all students identify their plans after high school. We encourage you to use this as a guide throughout the scheduling process.

Thank you for your patience as we work to resolve things in the Sapphire Community Portal as quickly as possible.

Sincerely,

David Kristofic, Ed. D.
PRMS Principal

Ms. Nicole Berezo
PRMS Assistant Principal

Program of Studies
