

Rounding Numbers

Sing to the tune of "If You're Happy and You Know it"

If you want to round a number, box it up.

If you want to round a number, box it up.

Draw an arrow to the right to see what it is like.

If you want to round a number, box it up.

If the arrow's less than five, box stays the same.

If the arrow's less than five, box stays the same.

Change the others all to zero, and you'll be a rounding hero,

If the arrow's less than five, box stays the same.

If the arrow's five or more, box goes up one.

If the arrow's five or more, box goes up one.

Change the others all to zero, and you'll be a rounding hero,

If the arrow's five or more box goes up one.
