INSIDE LOOK: ORANGEBURG COUNTY SCHOOL DISTRICT SHOWS PROGRESS ON MAJOR SCHOOL IMPROVEMENT PROJECTS

ORANGEBURG, S.C. – Orangeburg County School District (OCSD) invites the community to view an in-depth update on the ongoing school improvement projects funded by the "Funding School Improvements of Pride by 2025" bond referendum passed in 2022. The district remains committed to transparency and accountability in delivering on the promises made to our community.

In a new video release, Superintendent Dr. Shawn Foster takes viewers on a guided tour inside the three key projects alongside project contractors. This inside look is designed to show firsthand the advancements and the thorough attention to detail being upheld in each development:

1. **William J. Clark Middle School**: Viewers will see the construction progress of the new wing addition designed to support our growing student population and enhance educational facilities.
2. **East Lake Elementary School**: The tour will highlight the foundational stages of the entirely new building set to become a cornerstone for elementary education within the district.
3. **Lake Marion Middle School**: The construction of a new school is showcased, emphasizing modern educational facilities and a design that supports a dynamic learning environment.

"Transparency is key in maintaining trust and support within our community. By inviting you inside these projects, we demonstrate our commitment not only to fulfill the promises we've made but to keep our community informed and involved at every step. These are not just construction sites; they are the future of education in Orangeburg," stated Dr. Shawn Foster, OCSD Superintendent.

The video aims to provide the community with comprehensive insights into how bond funds are being utilized effectively to foster educational excellence and innovation in Orangeburg County. Each site visit in the video highlights the strategic planning and detailed work that goes into each project, ensuring they meet both current and future educational demands.

OCSD encourages the community to watch the video, available on the district website and social media platforms, to see the progress being made.
