FRESHWATER

Education District 6004

ANNUAL NOTIFICATION

Indoor Air Quality

The Freshwater Education District has written an indoor air quality (IAQ) management plan that describes our on-going effort to monitor and improve the air quality in our buildings. IAQ coordinator Roger Rewitzer is responsible for seeing that the management plan is implemented to prevent as many IAQ problems as possible and to quickly respond to any IAQ problems that may arise. The plans available to the public during normal school ours.

Pesticide Notice

Pesticide application for Freshwater Education District will occur spring through fall. Long-term health effects on children from the application of such pesticides or the class of chemicals to which they belong may not be fully understood. The majority of the District's applied pesticides are completed by licensed commercial applicators. If you would like additional information or want to be notified prior to pesticide applications, please contact Eric at 218-631-3505 ext. 6001
