

# AVON GROVE VIRTUAL

## 2024 Summer Classes for High School Students

### Credit Recovery and Original Credit

Now in its eighth year, Avon Grove Virtual is pleased to provide summer school classes for credit recovery, as well as original credit. Students will be able to make up a class which they were unable to complete successfully and in most cases, obtain the necessary credit recovery to stay on track for graduation. Students also have the option to advance their studies by taking original credit courses through AGVA. All credit recovery options are offered through the Brandywine Virtual Academy (BVA). All original credit options are taught by AGHS teachers and will be facilitated through Schoology. Any AGHS student who qualifies for free or reduced lunch is eligible for tuition assistance.
