Fashion Design

ActiveKids provides high-quality, fun, and educational programs for children aged 3 to 18 in Hong Kong since 2004. With over 60 schools and clubs, our programs offer exceptional value to children's development.

Mission Runway

Mission Runway is a dynamic program that combines textiles, design, and presentation all in one. Not only will students gain knowledge of how to conceptualize their creativity, but they will also learn textile basics to construct a garment and accessories to be presented in a fashion show at the end of the week.

Students apply their creativity by transforming a simple t-shirt/hat into something fantastical. All materials are provided for children to draw, deconstruct, and reconstruct their wearables – from outfits to accessories. This program will help children apply their creativity and develop their presentation skills - while having tons of FUN!

Fibre Art

**Loveless
Knots**

Loveless Knots believes fibre art can nourish creativity, imagination and our mind! We are passionate about fibre crafts. We run various workshops and provide quality DIY supplies. Inspired by traditional techniques and bohemian culture, our goal is to go beyond techniques and materials. Let's craft a beautiful life together!

Creative Fibre Art

Weaving, knotting, macramé, or combining all of them? Let's have a FUN and CREATIVE HANDMADE summer! Fibre art is a challenging but rewarding form of artistic expression that demands focus, problem-solving skills, and a keen eye for detail. Students who engage in this process are encouraged to harness their creativity and apply the techniques they have learned to bring their unique visions to life. As a result, they will produce stunning pieces of artwork that truly showcase their individuality and style.

Summer Theatre

Faust International Youth Theatre's sought-after Summer Theatre Programs are back at DSC International School! Workshops are designed for ages 4 through to 12 (with groups divided according to age) to bring confidence, focus and fun to all who join!

Summer Theatre

Under the careful guidance of our experienced and enthusiastic leaders, children will explore different aspects of the performing world by learning and practicing drama skills using different themed stories as inspiration. Workshops are tailored to the needs and age of the children. All activities are engaging and challenging, and focus on providing children with a sense of achievement and a boost of creativity and confidence. Most importantly, these workshops are designed to be fun and enjoyable for all! Photographs and a mid-week report will be emailed to parents. The week ends with an Open Session where the children share their work with an audience!

Wool Felting, Botanical & Cyanotype Printing

At **A Studio**, you have the power to create unique graphics and patterns on a wide range of items, including clothes, bags, shoes, hats, and scarves. With our cutting-edge cyanotype printing techniques, you can print your favorite images on a T-shirt, or craft a beautiful wool scarf for your loved one. We are confident that our creative workshops will inspire you to unlock your full artistic potential.

[Please click here to enrol](#) or for more information email astudio406@gmail.com

Wool Felting Workshop

Have you ever thought of using felt technology to design your own unique scarf or clothes? In this course, students can not only learn the process of making wool felt but also freely choose different colors of wool to design a natural and unique pencil bag.

Dates: Week 2 (July 8-12)

Ages: 12+

Time: 13:00 - 15:30

Fee: \$3045

Botanical Print Workshop

Botanical Printing, also known as Eco-printing, is a common printing technique around Europe, America, and Australia. It is a technique that uses high temperature and pressure to release the natural colouring in plants. The way of arranging the plants on the fabric before steaming, will create different results every time and create beautiful pictures. We will provide plants that we have tested to gives vivid colour after steaming for students to create their products.

Dates: Week 4 (July 22-26)

Ages: 8 - 12

Time: 13:00 - 15:30

Fee: \$3045

Cyanotype Print Workshop

The technique of Cyanotype Print was invented in 1842 by the astronomer John Herschel. He used chemicals to photocopy the negative lms in to a blue and white picture. A studio is incorporating this technique and textile art to create products such as fans, photos and tote bags.

Dates: Week 6 (Aug 5-9)

Ages: 12+

Time: 13:00 - 15:30

Fee: \$2520

BSD High School Internship Program (Application Deadline - April 30)

Calling all year 10+ students! Dive into the real world of work with our 3-week High School Internship Program. Engage in individual project-based internships, dedicating 15-25 hours to projects assigned by prestigious host companies. Connect with professionals, gain essential skills, and expand your network. Students may choose from Business Writing, Marketing, Information Technology and Profile Building.

Taking place between July and August, it's the perfect opportunity to build professional networks during your summer break. With 10 hours of online prep courses and dedicated support from our BSD team, you'll be ready to excel. Don't miss this chance to gain experience, connect with professionals, and set yourself up for success. The experience can virtual or hybrid mode.

How the program works:

1 Discover

Students choose a career group and apply. Companies select pre-calibrated work projects that are genuinely valuable for them.

2 Learn

Students complete 10 hours of online preparatory learning courses before the internship begins and reference these resources during the internship project.

3 Match

Students and companies from around the world are matched by us based on the career group selected by the student and the projects being offered by the companies.

4 Experience

Internships begin with a kick off meeting, project work follows with check ins arranged by the intern. The final presentations and reflections from both sides are recorded and become the beginning of a student's professional experience portfolio.

[Please click here to enrol](#) or for more information email info@bsd.education

Dates: July 2 - Aug 16

Ages: 15 - 18

Time: 15 - 25 Hours

Fee: \$4725

Ivy Camp USA is in a league of its own! Classes are taught by instructors from Top 10 US Universities such as Harvard, Princeton and Yale. Ivy Kids offers a pioneering curriculum and engaging activities designed by specialists with over 40 years of experience in education.

Ivy Camp USA: Teamwork- Building a Carnival

In this camp, students will learn the basics of teamwork and how to operate a business. Students will build their business skills and learn about problem-solving, teamwork, communication, organization, budgets, timelines, and more. They will learn all of this through working as a team to put on a camp carnival!

Dates: Week 1 (July 2 - 5)	Ages: 6 - 8	Time: 9:00 - 11:00	Fee: \$2350
Dates: Week 5 (July 29 - Aug 2)	Ages: 9 - 12	Time: 9:00 - 11:00	Fee: \$2940

Ivy Camp USA: Becoming a Leader

In this camp, students will learn the basics of leadership and what it means to show up as a leader in different settings. Students will plan and execute a camp-wide event, such as a talent show, learning about leadership skills such as communication, organization, and event planning.

Dates: Week 2 (July 8 - 12)	Ages: 9 - 12	Time: 9:00 - 11:00	Fee: \$2940
Dates: Week 6 (Aug 5 - 9)	Ages: 6 - 8	Time: 9:00 - 11:00	Fee: \$2940

Ivy Camp USA: Harry Potter - Beyond the Books

Using the Harry Potter world as the framework and guide, students will explore science concepts behind some of the fantastical elements in the series and write their own fictional story that includes a cohesive magical world. *Please note that the level of story will depend on the age and level of students enrolled in this camp

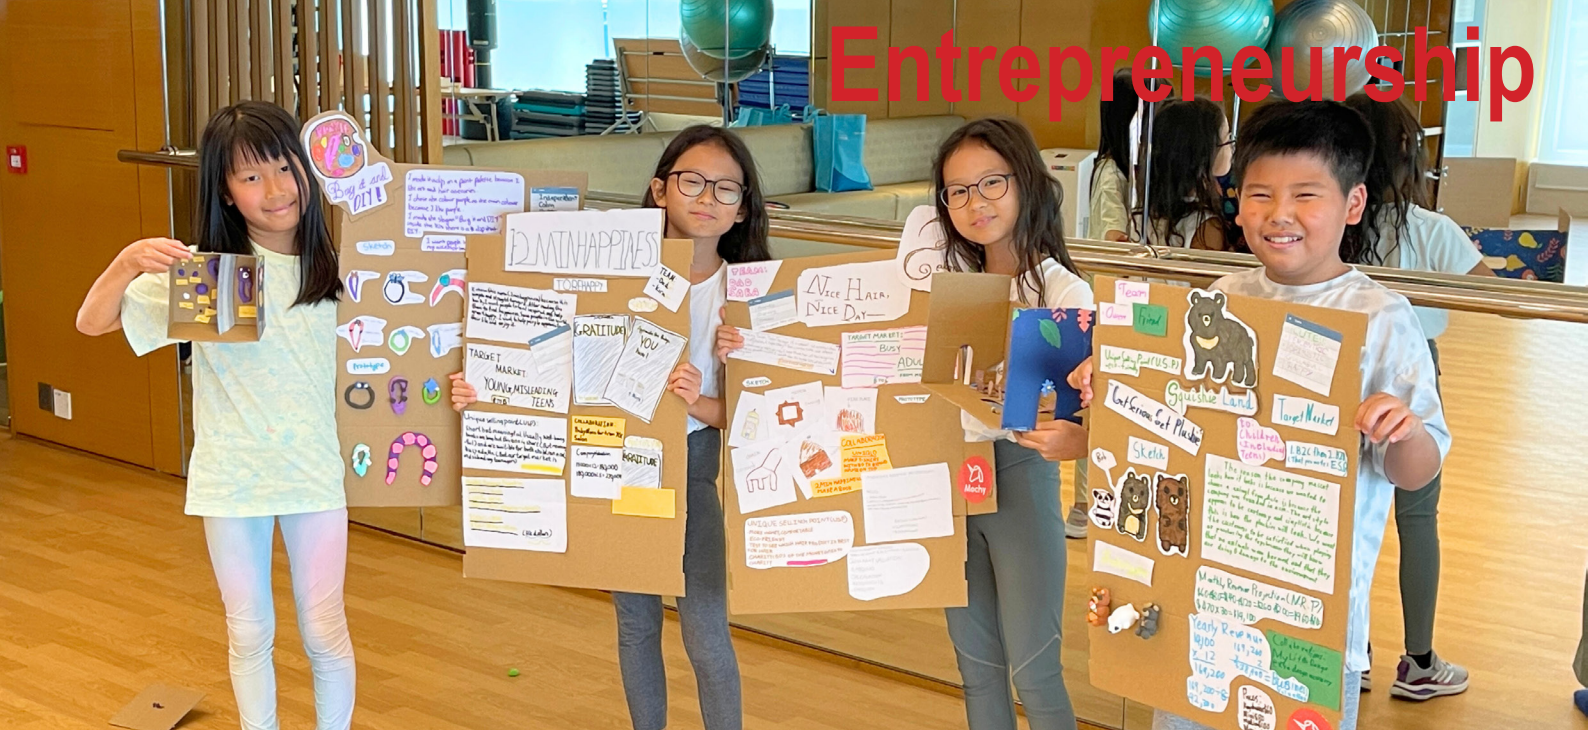

Dates: Week 3 (July 15 - 19)	Ages: 6 - 8	Time: 9:00 - 11:00	Fee: \$2940
Dates: Week 7 (Aug 12 - 16)	Ages: 9 - 12	Time: 9:00 - 11:00	Fee: \$2940

Ivy Camp USA: Foundations of Effective Public Speaking

In this camp, students will learn about the foundational skills to build their confidence to speak in public. On the last day of camp, students are scheduled to deliver multiple public speaking presentations.

Dates: Week 4 (July 22 - 26)	Ages: 9 - 12	Time: 9:00 - 11:00	Fee: \$2940

Entrepreneurship

Mochy's vision is to inspire the next generation of innovators, with a mission to bridge the gap between life skill building and exam-based education. Mochy started as the pioneer focusing on STEM & STEAM (Science, Technology, Engineering, Arts & Math) education in Hong Kong since 2013. By promoting project-based learning with real life applications, Mochy cultivates STEAM agility in students. Our curriculum and lesson plans uphold the learning standards of the United States' Next Generation Science Standards (NGSS) and/or Hong Kong Education Bureau (EBD) Key Learning Area Curriculum Guides (P1-S6). Team Mochy is cultured, passionate and versatile. The happiness and growth of our students are the guiding principles behind our every action.

Gymnastics

Asia Adventure Sport's Gymnastics program is an exciting program that introduces children to basic gymnastic exercises, routines and apparatus. The program aims at developing the children's gymnastic skills, making them competent, confident gymnasts. The program emphasizes exercises that require strength, flexibility, agility, coordination, and balance. Our gymnastics classes are executed with the usual Asia Adventure Sport Environment of fun, passion and encouragement, coupled with great attention to technique and performance quality.

Chess

ActiveKids provides high-quality, fun, and educational programs for children aged 3 to 18 in Hong Kong since 2004. With over 60 schools and clubs, our programs offer exceptional value to children's development.

The **Chess Academy** is the #1 Chess Program in HK! Led by our TWO Grand Masters together with a team of Expert FIDE coaches, children will learn from the BEST at The Chess Academy. The program was founded with the goals of teaching international chess to children and most importantly building children's character through chess. Chess requires a good understanding of rules, fair competition, learning from mistakes and challenging oneself. Through this process, children will undoubtedly acquire invaluable skills sets such as developing stronger spatial reasoning, focus and attention span, sportsmanship and confidence.

The program strives to teach:

- Nurturing sportsmanship and planning
- Training patience and good decision making
- Guiding students in a positive manner
- Encouraging students to learn from mistakes

Web Development

Dates: Week 1 (July 2 - 5)

Ages: 9 - 12

Time: 10:00 - 12:00

Fee: \$2350

The Web Development course for primary students is an engaging and hands-on program designed to introduce young learners to the world of web development. They will learn about HTML, CSS, and basic programming concepts, empowering them to create their own web pages and interactive elements. By the end of the course, students will have developed foundational skills in web development, fostering their creativity, problem-solving abilities, and digital literacy.

AI Fundamentals

Dates: Week 5 (July 29 - Aug 2)

Ages: 9 - 12

Time: 13:00 - 15:00

Fee: \$2940

The AI Fundamentals course for primary students is an engaging and accessible program designed to introduce young learners to the exciting field of artificial intelligence. Through interactive activities, hands-on experiments, and age-appropriate learning materials, students will explore the fundamentals of AI and its real-world applications. The course will cover topics such as pattern recognition, data analysis, and problem-solving using AI techniques. By the end of the course, students will have a solid understanding of AI principles, its ethical implications, and its potential impact on society.

VR Escape Room Design - CoSpaces Edu

Dates: Week 7 (Aug 12 - 16)

Ages: 8 - 12

Time: 13:00 - 15:00

Fee: \$2940

Unleash your child's coding potential through an immersive CoSpaces Edu VR Escape Room adventure! In this action-packed course, kids will dive into the world of coding as they design their own escape rooms using CoSpaces Edu's intuitive platform. Guided by expert instructors, they'll learn coding fundamentals, problem-solving skills, and computational thinking while creating interactive experiences and navigating through thrilling challenges.

Creative Computing

For nearly two decades, **TLC Kids** has been revolutionizing the educational landscape of Hong Kong by providing innovative solutions to schools. We take pride in our ability to constantly adapt to the ever-changing demands of the extra-curricular education industry, delivering nothing but the highest quality services to our clients.

Creative A.I.: Design a Superhero Character

Dates: Week 3 (July 15 - 19) **Ages:** 8 - 11 **Time:** 10:00 - 12:30 **Fee:** \$3655

AI is an increasingly important part of our lives, but children rarely get to explore its creative use, which means they will not understand how technology can benefit, instead of replace, their human creativity. In this class, students will experience the exciting world of creative AI by designing an original character.

Creative A.I.: Make a Business Pitch Video

Dates: Week 3 (July 15 - 19) **Ages:** 12 - 15 **Time:** 13:30 - 15:30 **Fee:** \$4180

AI is an increasingly important part of our lives, but students rarely get to explore its use in creative ways, which means they will not understand how technology can benefit, instead of replace, their human creativity. In this camp, students will experience the creative possibilities of creative AI by creating a video pitch of a Summer-themed business idea with AI.

Video Maker: Make a Gaming Video

Dates: Week 4 (July 22 - 26) **Ages:** 8 - 11 **Time:** 10:00 - 12:30 **Fee:** \$3655

Video making is one of the most creative ways to use technology, but children rarely know how to make them, which means they miss out on a fun way to explore their interests. In this camp, students will be introduced to the exciting world of video making by creating a Roblox-themed project.

Vlogging: Make a Summer Vlog

Dates: Week 5 (July 29 - Aug 2) **Ages:** 12 - 15 **Time:** 13:30 - 15:30 **Fee:** \$4180

Vlogging is one of the most popular ways to share your experiences with others, but students rarely know how to vlog effectively, which means they miss out on the fun of video creation. In this camp, students will explore the creative possibilities of vlogging by making vlog about their summer holiday.

ActiveKids provides high-quality, fun, and educational programs for children aged 3 to 18 in Hong Kong since 2004. With over 60 schools and clubs, our programs offer exceptional value to children's development.

At **Science Adventures**, we're all about inspiring kids to learn science in a fun and interactive way! Our curriculum is a American nationally accredited program. We believe in the philosophy of "learning-by-doing" and our innovative approach has inspired thousands of children over the years. Best of all, your child will get to build and take home a new project every day!* **all materials included!**

STEAM

Mochy's vision is to inspire the next generation of innovators, with a mission to bridge the gap between life skill building and exam-based education. Mochy started as the pioneer focusing on STEM & STEAM (Science, Technology, Engineering, Arts & Math) education in Hong Kong since 2013. By promoting project-based learning with real life applications, Mochy cultivates STEAM agility in students. Our curriculum and lesson plans uphold the learning standards of the United States' Next Generation Science Standards (NGSS) and/or Hong Kong Education Bureau (EBD) Key Learning Area Curriculum Guides (P1-S6). Team Mochy is cultured, passionate and versatile. The happiness and growth of our students are the guiding principles behind our every action.

Storytelling Meets STEAM

For kindergarteners aged 4-6, this course is about the power of going beyond stories to extend and deepen children's learning through science and art. In each unit, a short storytelling session is followed by various science and art activities that are designed specifically for that storyline. Students will learn about eggs through squishy and fizzy egg experiments, egg suncatcher crafts, and read the book 'The Good Egg' (#1 New York Times bestseller & Amazon Best Books of the Year 2019). They will also study the butterfly life cycle and creating 3D caterpillars from 'The Very Hungry Caterpillar' book.

Dates: Week 3 (July 15 - 19)	Ages: 4 - 6	Time: 13:00 - 15:00	Fee: \$5800
Dates: Week 5 (July 29 - Aug 2)	Ages: 4 - 6	Time: 13:00 - 15:00	Fee: \$5800
Dates: Week 7 (Aug 12 - 16)	Ages: 4 - 6	Time: 13:00 - 15:00	Fee: \$5800

Founded in 2019, **Big Bang Academy** is an award-winning STEAM education company with a focus in hands-on science education. Through series of professionally guided science-related workshops and classes, we aim to provide a collaborative environment for children to experiment the unknown and empower them to be confident to learn through failure.

Astrid's Astronaut Training Course! (Space x Engineering)

With Earth becoming over-populated, we need to explore moving to other planets. Astrid is recruiting young astronauts to join her training course, where we will create space gear, learn about rockets, the solar system and prepare meeting outside life.

Dates: Week 1 (July 2 - 5)	Ages: 4 - 5	Time: 10:15 – 11:45	Fee: \$2770
Dates: Week 6 (Aug 5 - 9)	Ages: 4 - 5	Time: 10:15 – 11:45	Fee: \$3465

Astrid's First Week on Mars (Space x Engineering)

Astrid has just moved onto Mars, but she is having trouble settling in. Why don't you come help her settle in by growing plants, setting up a radio connection with Earth and helping Aliens arrive on Mars!

Dates: Week 1 (July 2 - 5)	Ages: 6 - 8	Time: 10:00 – 12:00	Fee: \$3696
Dates: Week 6 (Aug 5 - 9)	Ages: 6 - 8	Time: 10:00 – 12:00	Fee: \$4620

Poppy's Summer Games! (Physics x Sports)

After her time at the Newton Olympics, Poppy has decided to host her very own sport games! By learning about the fundamental forces of physics, such as magnetism and gravity, we can have a lot of science fun in our very own Summer Games!

Dates: Week 2 (July 8 - 12)	Ages: 4 - 5	Time: 10:15 – 11:45	Fee: \$3465
------------------------------------	--------------------	----------------------------	--------------------

Eddy's Competitive Sport Workshop (Physics x Sports)

After hearing about Poppy's Summer Games, Eddy thinks that he can make a sports-theme workshop for engineers as well! Recreate your favorite competitive sports such as archery, basketball and tennis in this engineer-based sports workshop.

Dates: Week 2 (July 8 - 12)	Ages: 6 - 8	Time: 10:00 – 12:00	Fee: \$4620
------------------------------------	--------------------	----------------------------	--------------------

DREAM!

SUCCEED!

CELEBRATE!
