Total Cumulative Obligations	$6,337.26
Total Cumulative Expenditures	$6,337.26
Current Period Obligations	$900.16
Current Period Expenditures	$900.16
Project Description	The Covid-19 pandemic has highlighted inequities and disparities for marginalized populations such as BIPOC, persons identifying having a disability, persons of the same sex, and gender orientation. Through education and awareness, the goal is to create an equitable, acceptable, respectful and dignified approach and interactions. The DEI Operations and Program Management project will improve the Office of Diversity and Equity and Inclusion to identity struggling communities exacerbated by the pandemic and provide education and awareness of DEI issues and topics.
Does this project include a capital expenditure?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The program will provide support to marginalized communities, raise awareness, and provide education on underrepresented populations within the Medford community in response to impacts of COVID-19.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The demographics that this project will serve and benefit are BIPOC, low income, queer and other marginalized populations in Medford that were disproportionately impacted by COVID-19.

Project Name: Public Health Food Establishment Inspections

Project Identification Number	11405
Project Expenditure Category	1-Public Health
Project Expenditure Subcategory	1.14-Other Public Health Services
Status To Completion	Completed 50% or more
Adopted Budget	$9,900.00
Total Cumulative Obligations	$6,315.00
Total Cumulative Expenditures	$6,315.00
Current Period Obligations	$0.00
Current Period Expenditures	$0.00
Project Description	The project requested will allow the public health department to meet the state mandated food establishment inspections overall and ensure food safety objectives for the community. During COVID-19, compliance focused on the pandemic needs, while the regulatory inspections were not completed. As establishments reopen, these inspections are required by a third-party consultant. Priority would be placed on the risk level 3 establishments so our inspectional staff can complete mandated inspections of our level 1, 2, and 4 establishments. These will ensure compliance with mandated inspections for prevention of foodborne illness outbreaks.
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	1 Imp General Public

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The City uses the risk-based food establishment inspection schedule as outline by FDA for the protection of public health against foodborne illness. Risk levels are 1 through 4. Level's 4 are our highest risk establishments, i.e schools, nursing homes, etc. This request is to assist with Public Health Food Safety inspections of our risk level 3 establishments which require 3 inspections per year while inspectors focus on categories 1,2, and 4.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	During the pandemic many food establishments were closed or changed their practices. Inspections were not conducted as health department employees' responsibilities were diverted to Covid compliance. As establishments reopened and or changed ownership in the wake of COVID-19 it has become apparent that much attention is required for our level 3 establishment food safety practices to come back into compliance.

Total Cumulative Expenditures	$55,000.00
Current Period Obligations	$27,500.00
Current Period Expenditures	$27,500.00

Project Description	The City of Medford will work with MAPC to enhance the City's current emergency management program and increase response capabilities during an emergency such as COVID-19. The contract will last 10 months and will provide staff with the emergency recovery planning and training that has been identified as an area of need throughout the pandemic in Medford.
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	1 Imp General Public
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The program will provide emergency preparedness and recovery from the pandemic impacts, develop a Local Emergency Planning Committee, update the Comprehensive Emergency Management Plan, and provide required ICS training.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Over the course of the past two and a half years COVID-19 has brought emergency management to the forefront of multiple departments within the city. The City is in need of a revised emergency recovery program to properly fulfill the needs of a successful COVID-19 recovery.

Project Name: EP#60 – Spring Street @ Central Avenue – Intersection Improvements

Project Identification Number	61007
Project Expenditure Category	6-Revenue Replacement
Project Expenditure Subcategory	6.1-Provision of Government Services
Status To Completion	Completed less than 50%
Adopted Budget	$450,000.00
Total Cumulative Obligations	$73,099.43
Total Cumulative Expenditures	$73,099.43
Current Period Obligations	$22,506.20
Current Period Expenditures	$22,506.20
Project Description	Spring Street @ Central Avenue currently has only one traffic signal and does not meet traffic/roadway standards. This project will install new traffic signal heads (2) and mast arm to improve sight distance issues, upgrade non-compliant sidewalks, curbing and pedestrian ramps. Funds are being used for design and construction. The intersection of Spring Street @ Central Avenue is in an environmental justice zone. There are several restaurants, a park, and it is a heavily trafficked neighborhood for residents. The intersection improvements would increase safety as well as economic impact on the area. Due to Covid-19, businesses in this area have seen a negative economic impact. By improving the intersection geometry and the sight distance for approaching vehicles, pedestrians will be protected from possible risks. As a result of the intersection being more accessible, economic impact will follow.

Total Cumulative Obligations	$8,955.00
Total Cumulative Expenditures	$8,955.00

Current Period Obligations	
Current Period Expenditures	
Project Description	The funds were used to purchase remote voting drop boxes to mitigate the spread of COVID-19 within the voting process in Medford.
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	1 Imp General Public
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Polling places are high traffic areas located in older buildings with poor to no ventilation with large numbers of people ranging in age from infant to elderly. For these reasons and social distancing guidelines Medford has moved to absentee and remote voting. The purchase and installation of these polling collection drop boxes and delivery services will reduce the levels of contact during voting.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	This will allow Medford to continue to follow COVID-19 distancing recommendations for high traffic, low ventilation areas and occupied by people at increased risk for severe illness. The drop boxes allow for the safe access to secure voting with decreased risk of Covid-19 transmission.

Project Name: Citywide Water System Model

Project Identification Number	51102
Project Expenditure Category	5-Infrastructure
Project Expenditure Subcategory	5.11-Drinking water: Transmission & distribution
Status To Completion	Completed 50% or more
Adopted Budget	$67,200.00
Total Cumulative Obligations	$56,550.00
Total Cumulative Expenditures	$56,550.00
Current Period Obligations	$21,025.00
Current Period Expenditures	$21,025.00
Project Description	Water system modeling is necessary to determine possible failing points within the overall system that impact both water quality and quantity that could affect the quality of life for residents, fire-fighting capabilities, and possible future development. Models should be updated every 10 years however the last city-wide model was performed 17 years ago. Delivering high quality water is essential for public health and the results of the modeling program will identify areas of concern and help the city to develop improvements in those areas. Replacing the aging infrastructure will ensure delivery of the best quality water to the businesses and residents of the city.

Total Cumulative Expenditures	$212,654.21
Current Period Obligations	$52,054.00
Current Period Expenditures	$52,054.00
Project Description	The city has actively been evaluating and rehabilitating its wastewater collection system over the last decade and completed an infiltration and inflow (I/I) Control Plan in 2019 to meet MS4 permit requirements. The project is currently ready to continue in the neighborhoods of South Medford. The project includes investigating sources of infiltration and inflow for the sewer pipe infrastructure within the city. Reliance on the public sewer system is critical to public health. The I/I control program will decrease the risk for negative economic impact as more infrastructure is repaired, the chances of failure significantly drop. Sewer flow and use has increased in the city during Covid-19 due to more residents working from home. As such, demand has increased, and the risk of failure has as well. It is critical that these projects be executed with proper design, management and construction oversight.
