

# Community Conversations

NCSD is hosting a series of community conversations, where parents and community members can contribute unique perspectives in a positive, productive setting. We want to know what's working, what isn't working, and what your dreams are for a more fair and equitable education today and in the future.

Each event features a discussion that is driven by the questions participants bring about a particular topic. Below, please find the questions and responses that were captured from the evening's discussion.
