

# COLLEGE READINESS AT A GLANCE

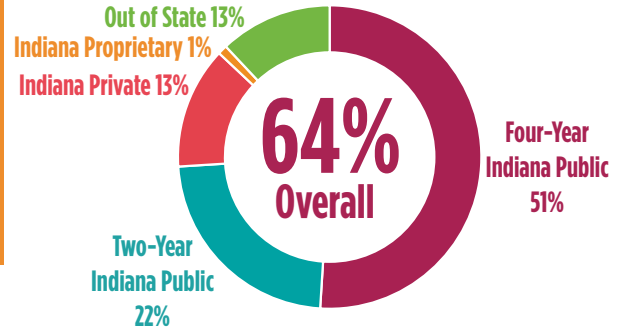

## ACCESS How many are going to college?

### HIGH SCHOOL GRADUATES by Diploma Type 2016

The percentage of Indiana high school graduates who go directly to college continues to hold steady at about 64%, but students with an Honors diploma are far more likely to enroll.

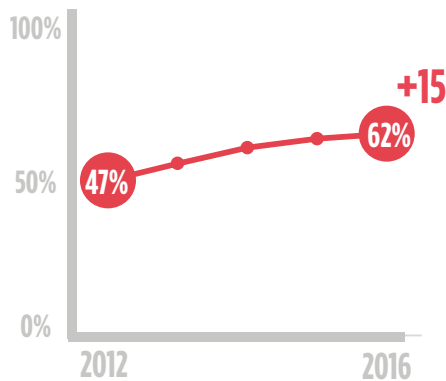

### COLLEGE ENROLLMENT by CAMPUS TYPE 2016

## READINESS Are they prepared for college-level coursework?

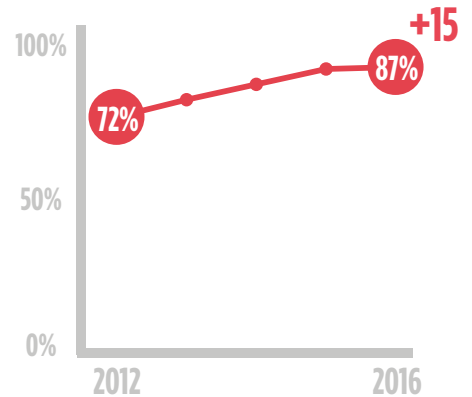

### % OF HIGH SCHOOL GRADUATES EARNING AP or DUAL CREDIT

More Hoosiers than ever are earning college credit while in high school.

Remediation needs continue to decline, thanks in part to changes in how students are identified for direct placement into regular college courses.

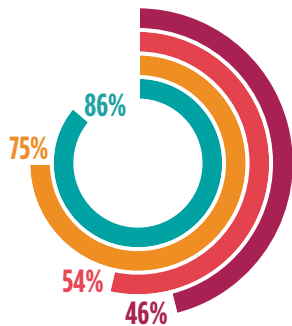

### % NOT NEEDING REMEDIATION students enrolling in IN public colleges

## SUCCESS How many succeed?

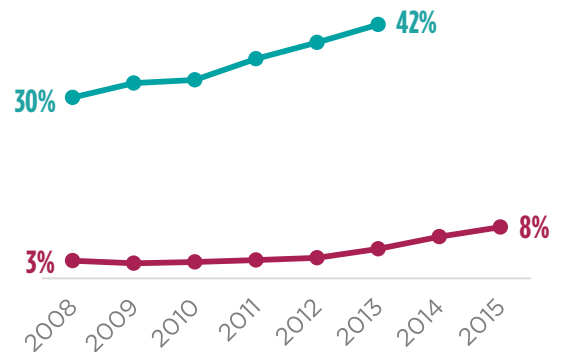

### EARLY COLLEGE SUCCESS

2015 high school graduates enrolling in Indiana public colleges

On-time completion rates are improving at both Indiana two-year and four-year public campuses, and more students are staying on track to graduate on time during their first two years of college.

### % COMPLETING ON-TIME\* same campus and degree level

- No Remedial Classes Required
- Persisted to Second Year
- Completed all Coursework Attempted
- Met All Three Early Success Criteria

- Four-Year Public
- Two-Year Public

\* includes first-time full-time students enrolling in Indiana public colleges initially pursuing a bachelor's (four-years) or an associate or longer-term certificate (two-years)
