

The Pasadena Unified School District, in partnership with artworxLA and Rose City High School, presents *No Boundaries 19*, featuring over 350 artworks from all twenty-four PUSD schools.

This year's exhibition centers the connection between creativity and identity with themes of *Hope and Joy, Healing and Resilience, Cultural Empowerment, and Dreams and Possibilities*. The exhibition was curated by students at Rose City High School who worked with professional curators, exhibition technicians, and museum educators to learn about exhibition development and career pathways in the arts. In addition to the individual artists, *No Boundaries 19* showcases how the students deeply considered the thematic and aesthetic connections between artworks.

The idea of No Boundaries remains a thread throughout the exhibition. There are no boundaries to the ways in which students can create and present work, just as there are no boundaries to the audience's perspective and connection to the work. This sensibility is core to how the exhibition was curated and produced.

This project was made possible with support from the City of Pasadena Arts & Culture Commission, the Los Angeles County Department of Arts & Culture, and the Pasadena Educational Foundation.
