Board of School Directors Penn-Delco School District 2821 Concord Road Aston, PA 19014

Dear School Directors:

Presented herein is the 2018-2019 fiscal year budget for the Penn-Delco School District. The Superintendent, Business Administrator, and the Assistant Business Manager assume responsibility for data accuracy and completeness. The following executive summary presents highlights of the budget document.

2018-2019 Budget Executive Summary

Mission Statement

The mission of the Penn-Delco School District is to enable all students to achieve, succeed, and excel.

Keys to Excellence

The Board of School Directors has established the following five keys to excellence in education to support the mission of the District:

- High Academic Achievement
- Safe and Supportive School Environment
- Innovation and Creativity
- Communication
- Continuous Improvement

Budget Development Process

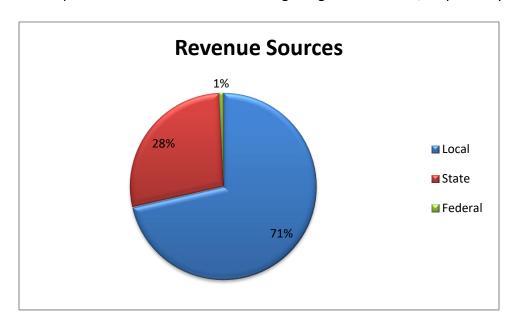

The administration and Board of School Directors are committed to fiscal responsibility and providing the necessary support to effectively meet the educational, technology, and facility goals of the district. These considerations are factored into the budget development process and balanced with the local, state, and federal resources available to the District.

State law requires that each Pennsylvania school district prepare an annual budget for the general fund. This budget serves as the foundation for the district's financial planning and control. Under requirements of Act 1 of 2006, a preliminary budget is required to be developed and available for public review in January, and adopted in February. In lieu of developing a preliminary budget, a district's Board of School Directors can adopt a resolution that it will not raise taxes above the Act 1 index. For the fiscal year 2017-2018, the District's applicable index is 2.9%, and the Board of School Directors adopted a resolution not to exceed this index.

A proposed final budget is presented, made available for public inspection, and adopted in May. The final budget is then adopted in June.

Revenues

General fund revenues of the District are classified as local, state, or federal sources. Revenues from local sources comprise \$43,947,569 or 71% of the 2018-2019 budgeted revenues. State sources and federal sources comprise 28% and 1% of the remaining budgeted revenues, respectively.

Local Sources

The most significant source of revenue for the District is current real estate taxes. With \$37,636,143 budgeted for the 2018-2019 school year, this comprises 86% of the local source revenues for the District. The general fund budget also incorporates anticipated transfer tax and earned income tax revenue of \$4,000,000, or 9% of local source revenues.

State Sources

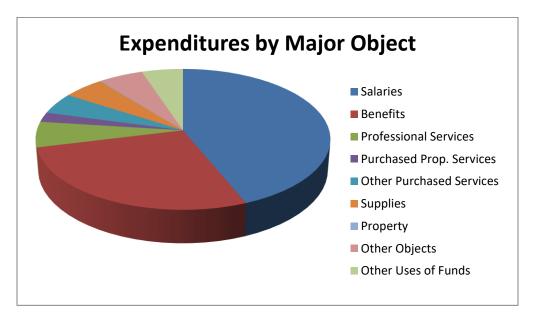

The 2018-2019 budget anticipates \$17,135,955 in revenue from state sources. The majority of state source revenue includes instructional and operational subsidies received from the Commonwealth of Pennsylvania primarily based on weighted average student attendance data and legislated distribution formulas. The District budgeted \$6,335,028 for the basic education subsidy and \$4,576,162 for the state retirement contribution subsidy. These two subsidies make up 37% and 27% of the budgeted state source revenues, respectively.

Federal Sources

The District receives funding through three federal programs; Title I, Title II, and the School-Based Access Program. These revenues have program specific reporting requirements and are passed through to the District from other governmental entities. The 2018-2019 budget includes \$264,608 for the Title I program accounting for 61% of total federal source revenues.

Expenditures

Budgeted expenditures in the General Fund for the 2018-2019 school year are \$63,428,323 which is an increase of \$2,218,506 (3.6%) from the prior year. As the graph below illustrates, the largest portion of general fund expenditures are for salaries (43.2%) and employee benefits (26.8%). The District is a service entity and, as such, is labor-intensive.

The following table shows the general fund expenditure changes by major object over the preceding fiscal year.

Change in General Fund Major Object Expenditures

			· · · · · · · · · · · · · · · · · · ·	·

Significant factors that impacted the general fund expenditure budget are as follows:

- Employment Agreements The increased allocation to salary expenditures is reflective of the various agreements with employee groups and is mainly attributable to contractual step movement and cost of living adjustments.
- Retirement system contributions Pennsylvania school districts are required to pay a
 defined contribution percentage of salaries to the Pennsylvania State Retirement
 System (PSERS). The employer contribution rate for the 2018-2019 school year is
 33.43%, which is a 2.6% increase, representing a \$422 thousand increase in budgeted
 benefit expenditures over the preceding year.
- Debt Service Principal and interest expenditures of \$6,540,640 are included in the 2018-2019 budget, representing an increase of \$527,610 over the preceding year. A portion of the prior year debt service expenditures were paid with capitalized interest funds, which were a component of the proceeds from the issuance of the 2016 series general obligation bonds.

Other Funds

Capital Reserve Fund

The capital reserve fund is comprised of surplus funds transferred from the general fund during prior fiscal years. Expenditures from this fund are subject to statutory limitations. The projected beginning fund balance for the 2018-2019 school year is \$3.5 million. Capital reserve funds are committed for the following improvement projects:

• Sun Valley High School Fields

Capital Projects Fund

General obligation bond proceeds and related construction projects are accounted for in the capital projects fund. The projected beginning fund balance for the 2018-2019 school year is \$9 million. Capital projects funds are committed for the following improvement projects:

Sun Valley High School Classroom wings and Library

Food Service Fund

All revenues and expenses related to cafeteria operations are accounted for in the food service fund. The costs of the fund are recovered by user charges in addition to state and federal lunch subsidies. The projected beginning fund balance for the 2018-2019 school year is negative \$40 thousand.

Summary of Significant Accounting Policies

Reporting Entity

Penn-Delco School District (School District) is governed by an elected nine member Board of Directors. As required by generally accepted accounting principles, financial statements present the School District (the primary government). Certain potential component units were assessed to determine if the financial relationship with the School District would require inclusion in the reporting entity.

Basis of Presentation

The accounting system of the School District is organized and operated on the basis of fund accounting with each fund or account group being a separate accounting entity with a set of self-balancing accounts which comprise its assets, liabilities, and fund balance/retained earnings, revenues and expenditures/expenses as appropriate. School District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped into six fund types within three broad fund categories, as follows:

(i) <u>Governmental Funds:</u>

<u>General Fund</u> is the general operating fund of the School District. It is utilized to account for all revenues and expenditures except those required to be accounted for in another fund.

<u>Capital Projects Fund</u> is utilized to account for the financial resources to be used for the acquisition or construction of major capital facilities.

<u>Special Revenue Fund</u> is utilized to account for the proceeds of specific revenue sources that are restricted for specified purposes.

(ii) <u>Proprietary Funds:</u>

<u>Enterprise Fund</u> (Food Service Fund) is authorized under Section 504 of the Public School Code of 1949 to account for all revenues and expenses pertaining to cafeteria operations. The Food Service fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises where the stated intent is that the costs (i.e., expenses, including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

(iii) Fiduciary Funds:

<u>Trust and Agency Funds</u> are utilized to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Activity funds are reflected as agency funds but are segregated from other agency funds because of legal requirements. They are utilized to account for monies authorized by Section 511 of the Public School Code of 1949 for school athletics, publications and organizations.

(iv) <u>Account Groups</u>--In addition to the funds listed above, the School District maintains two account groups General Fixed Assets and General Long-Term Debt. The account groups are not "funds", they are only concerned with the measurement of financial position, not the results of operation.

<u>General Fixed Assets</u>--All fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group rather than in governmental funds. Fixed assets related to food services are accounted for in that fund and are considered fund assets.

General Long-Term Debt--General long-term debt represents all long-term debt obligations and other long-team liabilities of the School District that are expected to be financed from governmental funds. General long-term debt is not limited to liabilities evidence by formal debt instruments (bonds, warrants, notes, etc.). It may also include, but is not necessarily limited to, long-term liabilities arising from judgments and claims, and accumulated unpaid vacation, sick pay and other employee benefit amounts. Any long-term liabilities of the proprietary fund are accounted for through that fund and are considered fund long-term liabilities.

Basis of Accounting

Basis of accounting refers to the timing of recognition of revenues and expenditures or expenses in the accounts and in the financial statements, regardless of the measurement focus.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The propriety fund is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of this fund are included on the balance sheet. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in fund equity (i.e., net total assets).

Modified Accrual Basis

The modified accrual basis of accounting is followed for all governmental type funds of the School District. Under the modified accrual basis of accounting, expenditures, other than interest, discount accretion and principal payments on long-term debt which are recorded on their payment dates and the liability for compensated absences which is included in the General fund to the extent that it will be liquidated with expendable available financial resources, are recorded when the fund liability is incurred Revenues are recognized when they become susceptible to accrual, i.e., measurable and available to finance the School Districts operations. Available means collectible within 60 days after fiscal year-end. The modified accrual basis of accounting is used for the General Fund, Debt Service Fund, Capital Projects Fund, Special Revenue fund, expendable Trust Fund and Agency Funds as follows:

(i) **Property Taxes:**

- <u>Current Revenue</u> -- These are taxes levied as of a specific date with a legal, enforceable claim
 against the taxpayer and/or property. These taxes are recognizable as current revenue when
 received by the school district during the fiscal year and also estimated to be received by the
 school district within 60 days after the close of the current fiscal year.
- <u>Deferred Revenue</u> -- Those currently levied property taxes, which are not estimated, to be received by within 60 days after the close of the current fiscal year are recorded as deferred revenue.

- <u>Doubtful</u> -- An allowance for doubtful accounts is record for property taxes levied for the
 current fiscal year and deemed to be a doubtful collection in the current and subsequent fiscal
 year.
- (ii) <u>Revenue from State Sources</u>: State subsidies due the School District as current fiscal year entitlements are recognized as revenue in the current fiscal year even though such funds will be received in a subsequent fiscal year.
- (iii) <u>Revenue from Federal Sources</u>: Federal program funds applicable to expenditures for the same program in the current fiscal year but expected to be received in the next fiscal year are accrued as current revenue at the end of the current fiscal year along with the recognition of the federal funds receivable.
- (iv) <u>Tuition Revenue</u>: Tuition is due from other school districts and non-residents utilizing the School District's instructional services. Revenue is recognized for services rendered to the extent they are considered collectible.

(v) <u>Expenditures</u>:

- <u>Textbooks Inventory</u>--Textbooks are recorded as instructional expenditures of the General Fund when consumed. An annual estimate of the year-end inventory cost value is made, approximately the first-in, first-out method of inventory valuation, which assumes a five-year average life and applies a value factor to purchases of textbooks over the last five years.
 - Other -- Expenditures for insurance and similar services extending over more than one
 accounting period are accounted for as expenditures during the period of usage. Interest and
 discount accretion on long-term debt are recognized as an expenditure on the due date of
 the payment.

Accrual Basis of Accounting

Under the accrual basis of accounting, revenues are recognized in the accounting period they are earned and become measurable; expenses are recognized in the period incurred. The accrual basis of accounting is used for proprietary funds.

Budgets

The School Board approves, prior to the beginning of each year, an annual budget on the modified accrual basis for the General Fund. This is the only fund for which a budget is required and for which taxes may be levied. The Public School Code allows the School Board to authorize budget transfer amendments beginning 90 days after the start of each fiscal year. The School District's management does not have the authority to approve the budget or any budget transfer amendments. The School District expenditures may not legally exceed the revised budget amounts by function and object. Function is defined as a program area such as instructional services, and object is defined as the nature of the expenditure such as salaries or supplies.

Unexpected appropriations lapse at the end of each fiscal year; however, the School District increases the subsequent year's appropriation by an amount equal to outstanding encumbrances and reserves a portion of the fund balance in a like amount.

Encumbrances

Encumbrances accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund.

Encumbrances outstanding at year-end are reported as reservations of governmental fund balances since they do not constitute expenditures or liabilities.

How much is the homestead exclusion?

The homestead exclusion for the 2018–2019 school year is approximately **§194.84** to each approved homestead. The amount may vary depending upon the assessment for each homestead.

How will I receive my homestead exclusion?

The exclusion will be provided in the form of an assessment reduction when your property tax bill is calculated. Each approved homestead will receive an assessment reduction of 6,742 unless their assessed value is less than 6,742. In that case, the property owner will receive a reduction of their total assessed value.

Example 1 \$100,000 assessment	Example 2 \$6,000 assessment
\$100,000 less homestead exclusion 6,742 = 93,258 assessment.	\$6,000 less homestead exclusion of 6,742 = \$0 assessment.
