

SUMMER LEARNING FOLLOW-UP PARENT SURVEY

Was your child invited to participate in the FCS Summer Learning Program for 2022?

We want to hear from ALL parents/guardians of invited students, whether or not your child attended summer school.

FCS has opened a follow up survey for you to share your perspectives on and experiences with the FCS 2022 Summer Learning. We want to know about your experiences with Summer Learning, why you may or may not have chosen to have your child attend Summer Learning, and your overall satisfaction with the Summer Learning process. This survey should take approximately 10 minutes to complete.

The Parent Summer Learning Follow-Up Survey will be available from August 22nd - September 9th. You can access the survey with the QR code here or on the FCS website.

Please note that you do not need to take this survey if you already completed a survey about your Summer Learning experiences during July or if your child was not invited to attend FCS Summer Learning in 2022.

FCS has contracted with Gibson Consulting Group (Gibson) to evaluate Summer Learning this summer. Gibson will be analyzing the data from the survey.

FCS will use the results to guide decision making about future implementation of Summer Learning programs.
