## **SELF-CARE CORNER BY ELLIE FARRIBA**

The way we communicate impacts our wellness. As educators, we possess the incredible power to shape young minds and create a positive learning environment. However, it is essential to remember that taking care of ourselves is just as crucial as caring for others.

**SPEAK KINDLY TO YOURSELF:** Think about your inner dialogue. Are you compassionate and understanding to yourself? Remember, self-talk plays a significant role in shaping our mindset and overall wellbeing. Treat yourself with kindness, acknowledge your accomplishments, and give yourself some grace during challenging times.

**EMBRACE OPEN COMMUNICATION:** Effective communication is essential in every aspect of life, especially in the classroom. It is also important to communicate openly and honestly with our colleagues. Express needs and concerns when necessary. Sharing our thoughts can lead to a supportive network that understands and lifts us up, fostering a healthier work environment.

**SET BOUNDARIES:** As educators, we are passionate about the work we do, often going above and beyond for our students. While dedication is admirable, it is vital that we set boundaries to protect our well-being. We need to communicate our limits to our colleagues, students, and administrators. Establishing healthy boundaries allows us to carve out time for self-care, relaxation, and rejuvenation. Always remember that self-care is not selfish; it is necessary for long-term effectiveness and fulfillment.

**ACTIVE LISTENING FOR CONNECTION:** Whether in the classroom, or with friends, family, or loved ones, we need to practice active listening and be fully engaged in conversations. Deep connections and meaningful conversations promote emotional well-being and positively impact our overall wellness.

SEEK SUPPORT: We need to surround ourselves with a support system that understands the unique challenges that educators face and can significantly contribute to our overall wellness. Taking care of ourselves is essential to providing the best education for our students. By nurturing our well-being through effective communication, we not only become a better educator but also a happier and healthier individual.

### HABIT 3: PUT FIRST THINGS FIRST

Habit 3: Put First Things First is the exercise of independent will toward becoming principle-centered. Habit 3 is the practical fulfillment of Habits 1 and 2. Habit 1 says, "You are the creator. You are in charge." Habit 2 is the first mental creation, based on imagination, the ability to envision what you can become. Habit 3 is the second creation, the physical creation.

This habit is where Habits 1 and 2 come together. It happens day in and day out, moment-by-moment. It deals with many of the questions addressed around time management. But that's not all; habit 3 is about life management as well—your purpose, values, roles, and priorities. What are "first things?" First things are those things you find of most worth. If you put first things first, you

are organizing and managing time and events according to the personal priorities you established in Habit 2.

**Be SMART When Using the Internet**

*Stay* safe on the Internet by not sharing personal information or downloading files without permission.

*Manage* your digital footprint by not oversharing information, because once it is on the Internet you can't get it back.

*Act* responsibly by standing up to cyber bullies and reporting them to adults.

*Respect* other people's ideas, thoughts and personal beliefs.

*Take* regular breaks from technology and the Internet to spend time on other activities and interests.

For more information on Internet safety, go to <https://staysafe.org/teens/>

Teach students to conduct data mines (on themselves).

Students should do this every 3-6 months. While many will Google their names, we need to teach them to dig deeper. Here are some general guidelines to follow:

- Log out of internet browsers before searching (staying logged in can affect the results).
- Search (using quotation marks) full legal names, nicknames and usernames.
- Search Google Images with names/usernames.
- Use multiple browsers, such as Chrome, Bing, Yahoo, Safari and Firefox.
- Look beyond the first page of the results. Go at least five pages deep until the name/username no longer appears. Take note of what kind of results appear (presentations/social media/images/etc.).

### **Stress the importance of digital maintenance.**

This is the spelling list or cursive practice of the digital world. It's not glamorous to teach but essential for students to know:

- Remind students to backup Drive files, important emails, smartphone photos/apps/etc. at least once a month.
- Reiterate the importance of logging out of accounts, not simply closing the browser window.
