

of A TRADITION EXCELLENCE

Piper Educational Foundation

The mission of the Piper Educational Foundation is to promote educational excellence in the Piper Schools by seeking and distributing private funds to our public schools for the enhancement of educational opportunities.

PEF has numerous opportunities to engage over the next several months, including the upcoming Celebration Breakfast, an All Piper High School Class Reunion Weekend, and the Inaugural Golf Classic.

Along with these fundraising events, Piper Educational Foundation is on a mission to raise funds and/or acquire equipment for the Academy Labs at the new state-of-the-art high school, which is opening this upcoming August 2024. Watch for details on events and activities as it pertains to these fundraising efforts and the Grand Opening Celebration this summer.

Whether you are a business/organization or an individual community member, we appreciate your participation and generosity. Your contributions are vital to providing quality educational experiences and opportunities for our students.
