### *Celebrating Student Art*

The value of showing sincere appreciation for children's artwork is immeasurable. Parents/Guardians can show children how much they value their art by selecting one or two favorites to display. In continued partnership with your efforts at home, every school displays artwork throughout the year. As a district, we culminate each school year with a K through 12 Festival of the Arts Show. This is a curated event showcasing a sampling of student work completed in the classroom. The exhibition represents a variety of media, skill, and perspectives. By displaying student artwork at home, in our schools, and district wide, we celebrate all students' achievements in the arts. Most of all, we hope that students will find satisfaction in the process of creating.
