A Message to Our Community

Welcome to the Somers Central School District. We are a community that strives to ignite a passion in all students and to instill a lifelong love of learning. It matters deeply to us that all children feel that they belong in our schools and we invest in their education and well-being in hopes of providing a better future for all. We focus on educating the whole child by equipping each with 21st century knowledge and skills, emphasizing social, emotional, and physical wellness, and modeling a spirit of global citizenship.

This past year we engaged in a community-wide effort to evaluate our mission, vision, and collective commitments, to ensure that we have consensus on how we are moving forward in excellence in Somers schools. You can read more about the results of the process in the following pages.

I am grateful for the tireless efforts of teachers, parents, students, staff, and community members who work to prepare our children for success in a global society.

In partnership,
Ray

About the Report

The annual Somers Central School District Forward in Excellence Report is a comprehensive overview of the accomplishments related to the mission of the Somers Central School District. The district uses the Elements of Excellence, clearly defined below, as the framework to guide decision-making to ensure the development of the Whole Child.

At different times during the year, the data and information about an individual Element will be presented to the community at Board of Education meetings. Some Elements were presented this year before the creation of this overall report. Links to those presentations are in the table of contents.

SCSD Demographics

Somers Central School District is an increasingly diverse district. In the year 2022-2023, at least seven languages were spoken in district homes.

In the last 11 years, the number of students in the district identifying as non-white increased from 8% to 23%. By 2030, that number is projected to increase to 25%.

Building Enrollment

The number of students enrolled in Somers public schools has been decreasing since 2012, due to declining birth rates. At the elementary and middle schools, enrollment has reached the lowest projected level of 175-200 students per grade, where it is expected to remain. As those smaller classes progress through the high school, total enrollment at the high school will level out at approximately 800 students. As enrollment decreases, SCSD is reducing staffing through attrition.

ELEMENTS OF EXCELLENCE

Professional Learning Communities

SCSD will cultivate a community of professional learners focused on advancing student success.

SCSD strategically engages adult learners in being active contributors to a professional learning community (PLC) by continuously engaging the following questions:

“What do we want our students to know, be able to do, and understand?”

“How do we know what our students know, are able to do, and can understand?”

“What do we do when students don’t know, aren’t able to do, or can’t understand?”

“What do we do when they already know, are able to do, and understand?”
Stakeholder Engagement

The Learning Office provides professional learning for faculty and staff, including teaching assistants and aides, clerical workers, monitors, bus drivers, and food service workers. We also ensure that families, community members, and students are engaged in learning throughout the year.
