

Somers Teachers' Action Research Team – START Update

March 19, 2019

Professional Learning Framework

Action Research Goals

- To provide opportunity for teachers to implement a standardized process of conducting ***data-driven research*** to ***improve student learning***.
- To develop a question for research study, perform a review of literature, carry out classroom research, and ***share findings with the larger learning community***.

Projects

- The Impact of Tiered Assessments on Student Engagement: Embedded Honors in the Humanities Classroom.
- The Impact of Tiered Assessments on Engagement in a co-taught Mathematics classroom”
- Formative Assessment for Learning and Engagement: A Classroom Look at the Impact of Formative Assessment on Learning Outcomes.
- Deepening Thinking about Text: Analysis of strategies to help students deepen their thinking about text?
- How does the use of discussion protocols impact listening and speaking proficiency?

Next Steps

- Stay Tuned to Tusker Talk!
- Board of Education Roundtable
- Sharing of work at the building level.
- Continued Research
