

ADMINISTRATIVE INTERNSHIPS

The Grandview School District supports both informal and formal activities that contribute to the development of potential school administrators and enhance school operations.

Informal activities may be arranged with the permission of the employee's principal.

Formal internships require that the candidate meet the criteria for eligibility and make formal application for the program.

All applicants for the formal internship program must be recommended for the program by their sponsoring university or certifying organization.

Formal internships shall be determined by term and number at the recommendation of the Superintendent and as approved by the Board.
