

***Listen up, everyone...
stay safe while you are a
pedestrian by following
the rules.***

- Always wear light color clothing.
- Always use a sidewalk if there is one.
- If there is no sidewalk, always walk on the left side of the road, facing traffic. If someone is with you, walk single file.
- NEVER walk in the road.
- Always move further to the left or stop when a vehicle approaches.
- Always stay alert and pay attention to your surroundings... texting or talking on your phone, listening to your music player, or playing a handheld video game are distractions that could lead to injury.
- Always stop at the curb to look and listen for vehicles before crossing the road.
- Always look left, right, and left again before crossing the road.
- NEVER assume that the driver of a vehicle sees you.
- Always communicate with drivers by making eye contact. It's okay to wave, too.
- Always be on time to the bus stop.
- NEVER run toward or around any vehicles.
- NEVER play in the road or on railroad tracks.
- NEVER stand, walk behind, or play behind any vehicle.
- NEVER stand in the road while waiting to be picked up.
- Always go straight home from the bus stop.
- NEVER walk too close to the roadway. Remember, the mirrors on large vehicles extend beyond the width of the vehicle (commercial vehicles such as buses, trucks, road maintenance vehicles, etc.).

SCDE October 2016

**Always remember...
at the bus stop and on your way to and from home...**

STEP BACK...BE SEEN...BE SAFE!
