Note 1: In the change columns, green indicates an increase, red indicates a decrease, yellow indicates no change, and white /gray indicates not applicable (NA).

Note 2: District and school level total enrollment contains unique students per school where a student is counted multiple times if enrolled at multiple schools.

Note 3: The mobility rate formula used is given below and was obtained from the High Schools That Work initiative.

$$\text{Mobility Rate} = \frac{100 * (Entries\ After\ First\ Day + Reentries + Withdrawals)}{(First\ Day\ Enrollment + Entries\ After\ First\ Day)}$$

Note 4: In 2016-2017, Hall* became an alternative program instead of a separate school. For 2016-2017 and later data in this report, Hall* students are separated out rather than included in with the home schools because these students are highly transient which would affect the mobility rates for the home schools.

Note 5: * The COVID-19 pandemic and related school closures in 2019-2020 likely affected the mobility rate.
