### Program Description

The Evening High School is designed to serve Richland One students interested in obtaining a high school diploma, but due to life circumstances have dropped out of school or are unable to attend school during the day. This is a flexible learning environment to support the needs of students looking for an alternative pathway to graduation. The school's target population:

- Previous year dropouts
- Current year dropouts with preference given to 12th graders
- Students not eligible for enrollment in the Adult Education Program
- Referrals from the Hearing Office
- students who need one or two courses to meet graduation requirements
- Diploma track students receiving special education services
- Students who prefer a flexible learning environment

This program operates on an alternative time schedule, Monday - Thursday, from 4:00 pm – 8:30 pm on the district academic calendar. This schedule enables students to hold a job, meet family obligations and upon meeting the requirements, graduate from high school. Friday is an advisor/advisee day optional for students from 9:00 am – 2:30 pm. Students can make arrangements to meet with the Evening High School Program Staff to make up seat time, homework, classwork, and volunteer hours.

### Instructional Framework

**Direct Instruction:** Direct instruction is provided by state certified, highly qualified teachers. Many of our teachers work during the regular school day in the district or in surrounding districts. We offer English, Math, Science, Social Studies, Foreign Language and Business Education.

**Computer Based Instruction:** Computer Based instruction is provided by Edgenuity, a web-based instructional program that allows students to recover credits.

**Social Emotional Learning Work-place Skills:** Training is a progressive, school-coordinated experience that places students in real workplace environments so that they develop, and practice career-related knowledge and skills needed for a specific level job. This offers training in the five Cassel dimensions This includes work-based field studies and work-based internships an internship provides hands-on experience in a particular industry or occupation related to a student's career interests, abilities, and goals. A learning contract outlines the expectations and responsibilities of the high school and work site including a specified number of hours in the training agreement. The high school intern works regularly during or after school in exchange for the work site mentor's time in teaching and demonstrating.

**Database Reporting:** To document student enrollment, students will be listed as enrolled at their home school.

Once they complete all requirements for a high school diploma, they will be issued from the home high school. A weekly audit will be done on the progress of all students. Reports will be sent to the homeschool (Principal and Guidance Chair) on each student. Students will receive an interim grade and a quarter grade that will lead to a final grade at the end of each course. Attendance is checked daily. It's very important to know that students are under the 3,5,7 rule that could lead to the withdrawal of students from the Evening High School Program. On 3 consecutive unexcused absences parents will receive a phone call and a letter from the Evening High School Program Principal or his designee as a general warning. On 5 consecutive unexcused absences, a Multi-Tiered System of Support Team meeting will be held, and students will be placed on an attendance contract. At 7 consecutive unexcused absences, students will be placed on attendance probation. When a student has 10 consecutive unexcused absences, the student will be dropped from the Evening High Program and Richland One Public Schools.

**Testing:** Testing will be administered by the Evening High School Program staff. Students will be notified of the test times and dates.

**Student Support Services:** The school counselor and/or school social worker will assist with academic, career, personal, social, and emotional concerns. Special education services are offered to 9th and 12th grade students who have an Individual Education Plan (IEP) and are working towards earning a high school diploma.
