A MESSAGE FROM THE SUPERINTENDENT

Dear Parents and Guardians,

We are nearing the end of the 2022-2023 school year and soon it will be time for the summer break ... but learning never stops in Richland One!

Summer SOAR 2023 will begin Monday, June 5 and continue through Thursday, July 21. This year's theme is "Soaring to Higher Heights Together." Sessions will be offered at elementary school, middle school and high school sites throughout the district.

Our Summer SOAR programs and camps are designed to help prevent summer learning loss (also known as "summer slide") and ensure that our students continue learning. We offer structured activities for students that not only help them build and polish their academic skills, but also keep them engaged by appealing to their interests.

Summer SOAR will assist students in preparing for the new academic year by exposing them to a wide array of exciting enrichment opportunities and learning experiences. Whether students take advantage of a one-week program or spend the entire six weeks with us, they are bound to find adventure, inspiration and discovery. To ensure that the programs meet your scheduling needs and your children's diverse interests, you are welcome to combine as many programs as you would like and take advantage of our early-bird and extended-day child care options.

In this brochure, you will find a complete listing of our program offerings, along with criteria, features and registration information. We encourage you to register your children for Summer SOAR as soon as possible.

If you have any questions or need additional information, go to www.richlandone.org/SOAR or call our Summer SOAR Hotline at (803) 400-1692.

Sincerely,

A handwritten signature in black ink that reads "Craig Witherspoon".

Craig Witherspoon, Ed.D.

SUMMER BY THE NUMBERS

THE ACHIEVEMENT GAP

WHAT HAPPENS TO CHILDREN DURING THE SUMMER?

THE "SUMMER SLIDE" is what often happens to children during the summer months. They tread water at best or even fall behind, while higher-income children build their skills steadily over the summer months.

Elementary school students with high levels of attendance (at least five weeks) in voluntary **SUMMER LEARNING PROGRAMS** experience benefits in math and reading.¹

High-quality summer programs improve **MATH AND READING SKILLS**, and build critical social and emotional skills of students. These are skills that will help them not only in school but also in their careers and life.

THE ACHIEVEMENT GAP between children from high- and low-income families is roughly 30 - 40 percent larger among children born in 2001 than among those born twenty-five years earlier.²

Research shows that **HIGH-QUALITY SUMMER PROGRAMS** can make a difference in stemming learning loss and closing the country's educational and opportunity gaps.³

9 IN 10 TEACHERS spend at least three weeks re-teaching lessons at the start of the school year.⁴

School-based Telehealth Services

Prisma Health provides telehealth opportunities in several Richland County schools. Students with health needs can be instantly connected to a Prisma Health nurse practitioner or physician for non-emergency needs and have prescriptions sent to the pharmacy of choice following the visit.

The telehealth clinical program is aimed toward:

- Helping students feel better, quicker
- Reducing missed time from school
- Reducing parents' missed work days
- Eliminating transportation barriers

This service does not replace existing primary care. The parent or guardian will be contacted before any telehealth visit occurs with participating students. All participating students require parent/guardian consent forms on file.

The telehealth clinical program is currently available at: Carver Lyon Elementary School, E.E. Taylor Elementary School, Gadsden Elementary School, Hopkins Middle School and Webber Elementary School.

For questions or additional information, please contact your school nurse. You can also reach out to Prisma Health at **803-296-3764** or email CommServs@PrismaHealth.org.

Secure firearm storage protects your family

Gun violence is the leading cause of death for kids in the US. The best way to be sure your kids can't access firearms is to store them securely.

Here's how to Be SMART and protect your family:

S

Secure all guns in your home and vehicles

M

Model responsible behavior around guns

A

Ask about unsecured guns in other homes and vehicles

R

Recognize the role of guns in suicide

T

Tell your friends and neighbors to be SMART

Keeping your firearms secure saves lives.

Summer SOAR Frequently Asked Questions

Question	Answer
What is Summer SOAR?	Summer SOAR is a full-scale, cross-developmental level, and multi-faceted summer academic and enrichment “umbrella” of programs spanning the entire summer break period. Summer SOAR is not one program; rather, it is an array of summer programs and summer camp options offered by Richland One.
How do I register for camp sessions?	To register for Summer SOAR camp sessions or programs, please review the program offerings included in the Summer SOAR brochure (pages 7-17). Additionally, Summer SOAR camp and program information is posted on the district’s website at www.richlandone.org/SOAR . (Note: Hyperlinks to specific camps and programs will be provided to assist you in navigating through the registration process).
How do I know if my child qualifies for the Summer Learning Academy?	Students who qualify for the Summer Learning Academy will receive invitations to the program from their schools. A registration form will be included with the invitation and must be returned to the school by the date specified on the form.
Do Summer SOAR Programs operate on Fridays?	No. Summer SOAR follows the established Richland One summer work schedule, which is Monday through Thursday. On Fridays, all Richland One schools and district offices will be closed. Select programs (to include, but not limited to, the Summer Learning Academy Programs) will offer off-site Friday field excursions and field exploratory options, while some child care vendors and program vendors will provide Friday off-site options. For specific details, please contact the respective camp or program point-of-contact listed in the Summer SOAR brochure (pages 14-17).
Is there a fee for the Summer SOAR programs?	The Summer SOAR umbrella of summer camps and programs includes fee-for-service programs and no-cost programs. Please refer to the Summer SOAR brochure (pages 7-17) for information pertaining to camp or program costs.
Are scholarships available for Fee-for-Service programs?	No. Scholarship opportunities are not available for fee-for-service programs, unless students qualify under a McKinney-Vento designation.
Will Summer SOAR programs operate the week of Fourth of July?	No. During the Summer SOAR intercession week (July 3, 2023 – July 6, 2023), summer programs and camps will not operate. All Richland One district offices also will be closed during this period.
Are Summer SOAR programs open to students and adults?	The Summer SOAR “umbrella” of summer camps and programs includes options that span from pre-kindergarten to adult learners. Please refer to the camp offerings (pages 7-17) which details the target audience for each camp or program.
Will transportation be provided?	Yes, transportation will be provided for select programs. Please contact the program point of contact to learn if the specific camp or programs of interest offer home-to-school or school-to-home transportation.
Are extended-day or early-bird options available?	Yes, but extended-day and early-bird options are available at the elementary level only. Contracted child care vendors will be hosted at each of the elementary cluster sites. These child care vendors welcome early-bird or extended-day program participants. Child care vendors will collaborate transitions with other site-based Summer SOAR Programs to ensure students’ smooth transition from early bird to regular day or from regular day to extended day care. Early-bird and extended-day program offerings will be provided at a pro-rated fee set by the child care vendor. Early-bird sessions begin at 7 a.m. and extended-day sessions conclude at 6 p.m.

Question	Answer
Can I combine programs (for example, to have a full-day Summer SOAR experience for my child)?	Certain restrictions apply but, where allowable, students can participate in various programs at the designated cluster site. Please consult with the specific Summer SOAR program point-of-contact to discuss these options.
What is a “cluster site”? Why is the Summer SOAR program of interest not hosted at my child’s home school?	In an effort to leverage resources, only designated schools will be open to host the array of Summer SOAR offerings at the chosen site. The selected cluster “hub” site will host the array of schools within the “horizontal” cluster. There will be ten, horizontal elementary cluster sites. All secondary (middle and high) schools will operate at their respective campuses. Please refer to the Summer SOAR brochure (page 3) for cluster site information.
What does my child need to bring to any Summer SOAR program session camp/or program?	For specific camp or program required materials, supplies, etc., please contact the respective camp or program point-of-contact listed in the Summer SOAR brochure.
Will my child have access to his/her electronic device during the selected Summer SOAR program?	Access will vary based on the Summer SOAR program or camp. For academic programs, electronic devices will be distributed to the students through a transfer from their home school site. The respective curriculum/activities of the Summer SOAR program will dictate whether devices will be utilized. If the devices are not provided, students who need access to technology will receive these resources through other means, such as through existing labs, virtual simulations, etc.
Will meal service be provided?	Meal service and/or snacks will be provided for all Summer SOAR programs and camps. The meals and/snacks provided are federally-funded and provided through the U.S. Department of Agriculture’s (USDA) Summer Meals Program. Either breakfast/snack or lunch/snack options will be provided to camps and programs. The Summer SOAR meal/snack program is federally funded through the S.C. Department of Education which allows the district to serve meals to students during the afterschool and extended-year program. Additionally, as an amenity to ensure healthy living and eating, Summer SOAR host sites will sponsor summer meal programs where meals are provided for members of the community ages 18 and below.
Does my child have a virtual option to participate in Summer SOAR?	Most of this year’s Summer SOAR Programs are face-to-face and will be based at the cluster sites or specified school sites. Please contact the respective program point-of-contact directly to obtain information about eLearning/virtual options.
What special provisions will be provided in response to COVID-19 Protocol?	Rest assured, the face-to-face Summer SOAR Programs hosted at the cluster sites or specified school sites will follow all district COVID-19 safety protocols currently in place during the regular day program.
Who should I call if I have questions?	To ensure that parents/guardians and program participants receive optimal customer service, a Summer SOAR Hotline will open from 8 a.m. – 6 p.m. Monday, April 17th through Thursday, August 3rd. The Summer SOAR Hotline is a resource to obtain information about how to navigate through the Summer SOAR menu of program options, and pose questions pertaining to the menu of programs or logistics. The Summer SOAR Hotline will be staffed with a customer service representative to assist you. The Summer SOAR Hotline number is (803) 400-1692.

NCASE Summer Learning Brief

Why Summers Matter

Summer is a time of great inequity for young people. Over the summer many young people and their families lose access to critical supports that keep them safe, healthy, and engaged in learning.

The summer “opportunity gap” contributes to gaps in achievement that persist and widen over time, particularly for low-income students. This brief is intended to surface the critical issues related to summer for the school-age care community and suggest some promising practices for success and innovation. Throughout this brief, the story of the Esperanza Elementary Summer Youth Program is spotlighted as evidence of the importance of summer learning.

Summer learning is a key solution to closing academic and opportunity gaps that plague many communities across the country. Recent research from the RAND Corporation funded by The Wallace Foundation shows that high-quality summer learning programs can not only curb summer learning loss, they can even help boost student achievement. When children continue to learn during the summer, they are healthier, safer, and smarter, and their schools and communities are more successful.

Did You Know?

- ★ Research suggests that three to four consecutive summers of high-quality learning beginning in pre-kindergarten can get kids reading on grade level by third grade, making them four times more likely to graduate from high school.
- ★ Summer learning loss in the elementary school years alone accounts for at least half of the ninth-grade reading achievement gap.
- ★ High-quality summer learning programs have been shown to also improve school attachment, motivation, and relationships with adults and peers.
- ★ Only one in eight children who qualify for free or reduced-price meals access them in the summer months.
