

Resources for students at Prisma Health

Visit our websites: <https://hsc.ghs.org/education/student-affairs/> & <https://hsc.ghs.org/education/k12/>

Virtual Health Careers Club

For the 2021-2022 school year, high school students in the Upstate and Midlands can join the Prisma Health Virtual Health Careers Club. Students that sign up will receive links to virtual meetings, interviews, and invitations to in-person events, when available. If you are a high school student or if you know any high school students that are interested, please complete the [2021-22 Virtual Health Careers Club Registration Form](#).

Career Fairs/Speaking Engagements

If a class, school or organization is looking for an in-class speaker or career fair participant, please complete our [K-12 Request Form](#) with all event details. Based on the form information provided, we will reach out to various contacts and work to fulfill your request. For more information, contact [Susan Orr](#).

Internships

For internship opportunities, visit [Prisma Health Internships](#).

Shadowing

We are currently only accepting shadowing requests from team members that want a student to shadow them. For information about shadowing, including the shadowing policy, visit: [Shadowing at Prisma Health](#).

Medical Experience (MedEx) Academy

MedEx Academy is a full immersive summer experience designed for students interested in the health sciences. MedEx provides students with various enriching opportunities from simulation to debates and interview preparation to hospital observation. Outside of the summer, students can be involved in the Building the Difference conference, workshops, mentoring program, and the HMX online learning experience. Applications for Summer 2022 will open in October 2021.

For more information, visit hsc.ghs.org/medex/. For questions about MedEx or inquiries regarding mentorship or HMX, please contact macademy@prismahealth.org.

Pre-Therapy Experience

Students interested in pursuing a therapy degree program are welcome to apply to a [Pre-Therapy Experience](#). Prisma Health's Pre-Therapy Experiences will immerse students in a variety of clinical rehabilitation settings where they will obtain valuable insight from skilled professionals, acquire an understanding of the therapist's role and explore evaluations, treatments and modalities within rehabilitation therapy. Spots are VERY limited.

Please note: *While the application says that the preferred degree program is "students currently enrolled in a bachelor's degree program," high school students can still apply.*

Volunteering

Volunteering at Prisma Health has been paused. For volunteering updates and for the online application, visit: <https://prismahealth.org/volunteers>. If you have any questions, contact [Susan Grier](#), Director of Visitor and Volunteer Services.
