

# Total Student Development

WE EDUCATE ALL OF YOUR LEARNER WITH AN EMPHASIS IN LEADERSHIP & CAREER-READINESS.

Here at BLAST, we encourage your scholar to unleash their ingenuity with frequent off-campus experiences, internships, and project-based learning. We further offer competitive educational models through dual college enrollment, professional certifications, career-specific readiness, gaming, summer esports camps, and more. Fortunately, program cost is not an issue, either. Our BLAST Magnet Academies are funded through a \$14.9 million K12 federal magnet school assistance grant, over the span of 5 years. Even more, our stellar program design is the first K-12 Aerospace continuum in the nation. So, we invite you and your scholar to join the BLAST—where we re-engineer education and imagine what's possible.

**Enrollment begins 12/07/2023.**

**PROGRAM SITE: COLUMBIA HIGH SCHOOL**

**MODEL: SCHOOL WITHIN A SCHOOL**

**GRADES 9-12**

**SELECTION PROCESS: LOTTERY**

**TRANSPORTATION: 30 SEATS PER GRADE LEVEL**

**JOIN US.**

**803.731.8950**

## COBRA ATTACK HELICOPTER

The Celebrate Freedom Foundation (CFF) is one of our academy's strongest partners in Aerospace. Serving over 30,000 students throughout the nation, CFF gives hands-on learning experiences at our newly launched National Defense Magnet School Columbia Airport Campus. The above aircraft is simply one of which students enrolled in the Academy of Aerospace have direct access.

## MEDIA CREDITS

It is important that we clearly communicate our message to students, families, and community stakeholders. Hence, RSDI Communications is instrumental in our ability to gain exposure through media. Each of our 4 magnet academies have been featured on talk radio, WLTX, WIS, ABC, and in the Post and Courier.
