## Parent and Family Engagement

Parent engagement is essential to student success. Research shows students are more likely to do better in school, stay in school longer, and enjoy school more when schools, families, and communities work together.

Each cluster is assigned a team of Parent and Family Engagement Specialists to support you. Our work is guided by Joyce Epstein's Framework of Six Types of Involvement:

- |               |                                  |
|---------------|----------------------------------|
| Parenting     | Learning at Home                 |
| Communicating | Decision Making                  |
| Volunteering  | Collaborating with the Community |

### FAMILY SUPPORT

As Parent and Family Engagement Specialists, we are committed to supporting families to ensure all students receive a high-quality education. We know that families are unique, and it is our goal to tailor our support to meet your individual needs. We support parents and families through:

- |                    |                                 |
|--------------------|---------------------------------|
| Parent Workshops   | Community Resource Referrals    |
| Family Events      | Parent Leadership Opportunities |
| Home Visits        | Tools for Learning at Home      |
| Frequent Check-ins | and more!                       |

### CLUSTER MODEL

Guided by our partnership with Johns Hopkins University's National Network of Partnership Schools, Richland One has implemented a Cluster Support Model for parent and family engagement. The model is designed to ensure that school, parent, and community partnerships are integrated and aligned with each school's mission.
