Profile

Re:Vision was founded in 2002 to make a positive difference through the work of design and building professionals who wanted to unapologetically combine their passions for natural, built, and social environments. Today, Re:Vision is comprised of two studios in one LEED-certified building – an Architecture studio and a Sustainability Consulting studio.

Sustainability is part of Re:Vision's DNA and it shows in our portfolio of Zero Energy verified, Passive House certified, LEED Platinum, Living Building certified, and common sense green projects.

With care for the impact of our business, Re:Vision is a certified B-Corporation (for-benefit corporation) and has received a Just label to make transparent our social and environmental performance.
