AGENDA

What is Gifted?

What is the process for GT nomination and assessment?

How are GT students served in ILTexas?

WHAT IS GIFTED AND TALENTED (G/T)?

According to the Texas Education Code 29.121, gifted and talented refers to a child who performs or shows the potential of performing at a remarkably high level of accomplishment when compared to others of the same age, experience, or environment. The child also exhibits an unusual capacity for leadership or high-performance capability in an intellectual, creative, or artistic area.

WHAT IS THE TEXAS STATE GOAL FOR G/T SERVICES?

The state's goal for G/T students is to ensure that those students who participate in G/T services demonstrate skills in self-directed learning, thinking, research, and communication. G/T students develop innovative products and sophisticated performances that reflect individuality and creativity and are targeted to an audience outside the classroom.

WHAT IS ILTEXAS'S GOAL FOR G/T SERVICES?

International Leadership of Texas defines Gifted and Talented as any child or youth in grades K-12 who performs at, or shows the potential for performing at a remarkably high level of accomplishment when compared to others of the same age, experience, or environment, and who:

1. Exhibits high performance capability in general intellectual ability; or
2. Excels in one or more specific academic fields: math, science, language arts, and/or social studies

WHAT ARE SOME CHARACTERISTICS OF A GIFTED CHILD?

- It is important to note that there are not one or two characteristics that an educator can point to in order to say that a student is gifted – it is a combination of characteristics inclusive but not limited to: highly curious, initiates projects, discusses things in detail, draws inferences and grasps underlying principles, highly creative, and extraordinary memory as compared to peers.

HOW ARE STUDENTS IDENTIFIED AS G/T?

- Identification as G/T begins with a parent/guardian, teacher, counselor, administrator, or other interested persons referring a student for G/T testing. All referred students are screened for G/T services using data from several quantitative and qualitative assessments to identify students who exhibit potential and/or perform at levels significantly beyond the norm in areas of superior cognitive ability and/or specific academic achievement.

I AM NEW TO
ILTEXAS, AND MY
CHILD WAS
IDENTIFIED AS

DISTRICT. IS HE/SHE

G/T PROGRAM?

- Placement in the ILTexas G/T program is not automatic for students identified as gifted outside of ILTexas. Appropriate documentation of previous placement from the previous district must accompany the incoming student. Without the appropriate documentation, the student's placement may be reviewed by the G/T Committee and further testing may be required. ILTexas reserves the right to use its own standard procedures and measurements if there is any question regarding appropriate placement.
