## 16 Year-Old Sparks Climate Protests

By Ashton Legaspi, Janet Figueroa, and Karla Hueramo

With all the current events happening around us, from the Amazon Rainforest burning, to climate change and our own president claiming that global warming isn't real, no one is doing anything except a Swedish 16-year-old named Greta Thunberg. Greta Thunberg has inspired youth protests for climate change worldwide with around 100 cities participating. She has even spoken against the U.N. International Climate Change negotiators telling them, "You are not mature enough to tell it like is. Even that burden you leave to us children." To show that she cares about the planet, has changed into a vegan diet and no longer travels on aircrafts, causing her parents to follow her steps.

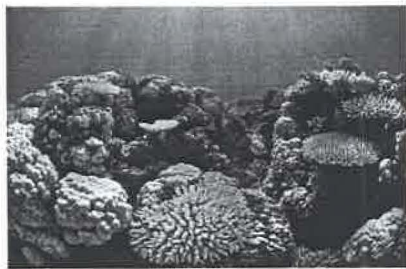

"I don't want you to listen to me, I want you to listen to the scientists, and I want you to unite behind science. And then, I want you to take real action." Greta said. She seems very strong to stand up to the government twice, the first time lead to about 100 protest that were very similar to Greta's. About 1.4 million kids across the countries joined her in the streets to peacefully protest. This shows that anyone can help no matter how old.

## Sunscreen Sucks The Life Out Of Coral

By Carolynn Nguyen

Coral, a necessity to life, our oxygen provider, the colorful and tropical forest of the ocean, and the home to many species. Coral is slowly dying due to toxins in the water, being destroyed by water pollution, the victim to ocean acidification and global warming. Even though there are many reasons to why our corals are dying, there is one thing that you put on your skin that contributes to the downfall of coral. That thing is called sunscreen.

Sunscreen contains a chemical called oxybenzone, a chemical known for being toxic to corals, algae, sea urchins, fish and mammals.

Sadly, there are about 14,000 tons of sunscreen being dumped in the ocean per year, which is equivalent to 32 million bottles of sunscreen. That's why in Hawaii, there's a ban on sunscreen to help save our coral reefs.

But, how can we save the coral reefs without putting on sunscreen to protect our skin from the sun? There are many solutions to this problem. You could wear long sleeves, hats, and pants to protect yourself from the harsh sun. Also, you can buy reef-safe mineral sunscreen that doesn't contain oxybenzone. Together, we can help each other to ensure we have a better future with our coral reefs.

## More About Mrs. Madrid

By Ricardo Martinez

Mrs. Madrid is an exciting teacher to interview. One of her major fears are rats. I found out that one thing she did outside of school was jumping out of a helicopter for her mom's birthday. She thinks that jumping out of a plane would be a different experience. "From my perspective, jumping out of a helicopter was exciting and scary at the same time." Then I asked if she had three words to describe herself. She responded with "kind, willing and trustworthy."

## **Fremont 2019-2020 Yearbook Pre-Purchase NOW!!!**

Price	Date
\$25	August 21-October 31

## Spiderman Sequel To Sony Deal

By Hunter Chow

WARNING: SPOILERS AHEAD! Spider-Man, Far From Home, is not too long after Avengers Endgame, where the "Blip" happened, or in other words, when the people who were lost by the "Snap" came back. The movie is during Peter's summer trip to France where he just wants to be a normal kid and find love. When Peter gets "Edith", a powerful robot that can send missiles after people and more, from Iron Man (who perished in End Game) he is unsure whether he has to be the next Iron Man or not.

During the trip, Peter meets Nick Fury who wants Peter's help to fight a new, powerful threat. Another person called Mysterio, who claims to be from a different universe, says that he would help Peter fight the powerful, never seen before monsters that randomly started popping up. Mysterio almost dies trying to fight the new monsters and Peter gives Mysterio glasses named "Edith", and he was sure that Iron Man wanted him to pass it on to somewhere more strong. When he finds a projector that projected the monster that he was fighting before, Peter starts to think Mysterio is not the person he thinks he is.

## Bad Tik-Tok Trends

By HeavenLee Reyna and Kayla Young

One of the worst Tik-Tok trends, in my opinion, is the trend of glueing your top lip with lash glue and glueing their top lip to their cupid's bow. But there is worse. If you can't handle dark humor, then that is another bad trend. Other derpy trends are e-boys, e-girls, VSCO girls, beach boys, and many more. Bad dance moves like "the Lean" is a thing an e-boy would do. Eye rolling is both e-girls and e-boys. Oh, and who can forget aNd I oOp? Or the "SkSkSk," which is under the VSCO category. So for now, that concludes the bad trends of tik-tok... for now.

## Mario Kart is Going Mobile

By Angel Reyes & Vianney Cabanillas

Throughout the years, Mario Kart has evolved greatly. Ever since they released the first version called Super Mario Kart on August 27, 1992, it was a huge sensation around the world. It creates stronger bonds and makes laughter go all around. The joy people get from bonding over this game is magical. Nintendo is releasing a new Mario Kart Tour game on September 25, 2019. It will be available on both platforms IOS and Android. If you're an iPhone or iPad user, you can pre-order the game on the App Store. It will be free to download and play, and of course there will be in-app purchases. Mario Kart Tour happens to be the tenth game in the Mario Kart franchise. You'll be able to play as Princess Peach, Yoshi, Bowser, and Mario himself.

## Club Fair

By Naomi Martinez, Katherine Bautista, and Sophia Sanchez

It was a wonderful day for the club fair this past September 5th. If you love clubs, there are many to choose from-- Art Club, Drama Club and so much more! If you don't know what the club fair was or missed it. It was where you could join clubs or even make your own club after school. All of the clubs start at 3:00pm and end at 4:00pm. "Well," Ms. Pompey said, "I thought [starting the club fair] would be a good way to let students know about clubs on campus." As for continuing the club fair in the future, she said, "that's definitely a goal and we love it and soon it will get bigger and better and more clubs will be represented and absolutely we would do it every year."

Her expectations for this year's club fair was that she "just wanted it to be a place for people who felt they could come and get that information if they didn't have it, especially for sixth graders since they're new to the campus, and I'm not really sure if there elementary schools have clubs, so I thought it would be great for them to see what was available to them to start a club if they wanted to."

Here's a list of the clubs available to students right now:

1. **AVID Club** is one of our most popular clubs and it is where all students can be successful, organized student that will mostly focus on college, tutoring, studying and more. Avid will be held in room 907 with Ms. Castro after school on Wednesdays.
2. **Math Quest** will be in room 902 with Mr. Vedernikova on Mondays. Math Quest is where students can use their mathematical talents for competitions for middle and elementary schools.
3. **CJSF** (California Junior Scholarship Federation) is to foster high standards for scholarship, service, and citizenship on the part of students. Cjsf will meet in room 701 with Ms. Shultz and Ms. Pompey on Wednesdays once a month.
4. **Art Club** is one of the most popular clubs! Art club will be meeting in room 705 with Ms. Sweet on Wednesdays.
5. **Drama Club** will give students an opportunity to perform and learn from theatre, acting, designing costumes, and other fun things of Drama Club. This club will meet in room 806 with Ms. Moore on Mondays.
6. **Kindness Club** is a club where all students can show their creativity, leadership and passion for helping communities and people around us. Kindness club will be with Mrs. Pompey on Thursdays.
7. **Tennis Club** meets on Thursdays at the Tennis court and is sponsored by Mr. Mendez.

## Have fun! Join a Club!

# SPORTS SECTION

## Terrific Volleyball A1 Team

By Mariah Lopez and Abigail London

Lillian Huynh is on the 7/8th grade team A1 for volleyball. She has played volleyball since she was in 6th grade. Lilli has been practicing her overhand serve, but she prefers underhand serving. When it comes to setting or bumping, she would rather do a set. She likes volleyball because, "It's a team sport." For this season, she hopes that her team will be undefeated. Lilli thinks that out of a range of 1-10, that her skill level is an 8.5. She thinks that as a whole team, they need to work on their serves. For this season, even though they aren't in her team's division, she'd like to face off against Juan Soria's volleyball team.

## Team A2's Incredible Insight

By Mariah Lopez and Abigail London

Isabella Wedemeyer or Bella, is on the 7/8th grade team A2 for volleyball. This is her first year playing volleyball. Currently, Bella is practicing both underhand and overhand serves. When it comes to a choice, she prefers bumping over serving. Bella is not quite sure why she enjoys volleyball. For this season, she expects that her team will do well. Bella thinks that her skill level is okay. She told us that for this season, her team will have to work on communication.

## Boxing Game

By Andrea Muñoz

Fight Night is back, and it has the best fights that you can find. In Las Vegas, Tyson Fury survived two bad wounds over his right eye after a fatal blow in the face by Otto Wallin. It was a heavy rank game on ESPN. Wallin lost the game but gave one great fight. Fury then stated, "It was a good performance. I got a good 12 rounds in, it was

a great fight. I got cut (in the third round) on the eyelid and changed the fight completely. I couldn't see out of the eye, and there was a lot of (head)

clashes. I am the 'Gypsy Warrior,' and this is Mexican Independence Day! Viva Mexico!" Wallin later said, "I did everything I could. I tried my best, and Tyson is a great champion." The fight started off great, two amazing boxers in the same ring. It wasn't until the 3rd round that Fury got a tremendous cut on his eyelid. It stopped him from being able to see the incoming punches. He still won the fight, but now sustains injuries that might cause some severe eye problems. "I tried to hit it even more," he said. "I know it was a punch that did it. I was happy that he was cut, but I wish I could have put more pressure on it." Wallin said, wishing he had won the game in the memory of his father who recently passed away.

## Fremont Boys' Football Team

By Miguel Resendiz, Jaden Vega, and Jaqueline Chavira

A 7th grade football player named Nolan Salinas decided to answer some interview questions today. The first question we asked was what he thinks the season will be like, and he said, "Maybe we'll win a few games, maybe we'll lose one." Well you go Falcons! Now give me an F, give me an A, give me an L, give me a C, give me an O, give me an N, give me an S! What does that spell? Falcons! The next question we asked was how well everyone on the team knows each other., To which he replied with, "Yeah, we're all close friends, even with the coach."

Finally, we asked him what other grades he plays with and what academic grades he needs to get in order to play football. He said, "You need to have a C or higher and the grades we play with are 7th and 8th graders, but for some reason there's no 6th grade team."

Our next interview was with an eighth grade football player, Jaime Gonzalez. He said that he thinks the season is going to go pretty well. "I know the eighth graders. I don't know the seventh graders that well though."

## Carolina Panthers Wide-Receiver Retires

By Ashton Legaspi

After eight NFL seasons, two Super Bowl titles, and

around 5k yards, Torrey Smith of the Carolina Panthers retires at 30. Torrey Smith who has played with the Baltimore Ravens, San Francisco 49ers, Philadelphia

Eagles, and obviously the Carolina Panthers, announces his retirement in a twitter post 12 days after the Panthers cut him.

Torrey was considered one of the best deep-threats over the last several years and was ranked third this season for per yards in a catch according to ESPN. His best seasons though were when he was in the Baltimore Ravens when he won a Super Bowl title in 2012 and he had a career-high 11 touchdown receptions the season before he left the Ravens. Additionally, in his retirement post, he had said he couldn't wait for the next phase of his life and would go back where his heart never left, Baltimore.

## Tennis Club Teaches Tennis

By Jacqueline Ullrich, Josiah Melgoza, and Gelina Valdez

Tennis Club is a Club on Thursdays from 3pm to 4:30pm where we learn how to play Tennis properly. This club meets at the Tennis courts every week to stretch, run and of course play Tennis. The leaders of this club are 8th grade students named, Carolynn Nguyen, Gelina Valdez, Jacqueline Ullrich, and Josiah Melgoza. The advisor is Mr. Mendez. In Tennis club, you learn how to hit forehands and backhands. On rainy and windy days, we usually cancel. Also, if we reschedule, it will usually be on Friday. We teach proper technique and hope you have fun! All are welcome!

## MEET the PRESS

### The Amazing HeavenLee

By Jesus Lupian

Have you heard about HeavenLee Reyna? If not, I will fix that. We first asked her to tell us about herself when she is not in school, and she said, "I get home and eat my fridge, dance and go on my phone." She said her favorite thing about Journalism was when she did the dress code section in one of the newscasts.

Her experience in Journalism has changed her in many ways. She now goes to therapy, she now has more confidence, and she's shrunk. HeavenLee wants to go to Pepperdine and she also wants an art related job. Her big sister inspires her the most. She is used to interviewing people on campus.

### Interview with Kalyani Batista

By Chris Joanne

Kalyani Batista, a future nurse, enjoys her little naps during the day and practicing songs on her piano. Kalyani is in the 8th grade and she states, "Since 6th grade, nothing has changed but her grades." She enjoys most genres of music but enjoys listening to k-pop. One group from k-pop she gets inspiration from is BTS she says, "BTS work very hard for their fans and their music is inspirational." What she likes about her Journalism class is taking pictures, but doesn't want to interview people while showing her face because she is camera shy. If Kalyani earns a ton of money, she would want to give half of her cash to cancer kids because she doesn't want children to have so much stress at such a young age.

## Serena Williams Destroys Drone

By Andrew Huynh

According to Randall Munroe, drones are pretty fragile. He also says that tennis players have a lower accuracy compared to athletes who threw projectiles. Randall's guess was that a professional tennis player would take 5-7 tries to hit a drone from 40 feet. Then, he reached out to Serena Williams to see how many tries it would take her to hit the drone. Her husband, Alexis offered to sacrifice a drone.

Her first serve was too low. The second serve went past the drone. Finally, the third serve managed to hit on one of the propellers. The drone spun, and it seemed like it might stay in the air. Unfortunately, it flipped over and smashed into the court.

Serena started laughing as her husband, Alexis, walked over to investigate the crash site, where the drone lay on the court near several propeller fragments. Randall had expected that a tennis pro would be able to hit the drone in five to seven tries, but she got it in three. Even though it's just a machine, the drone lying on the ground seemed tragic. "I felt really bad hurting him," Serena said, after the pieces had been collected. "Poor little guy."

### Interview With Miguel

By Sofia Rojas

When Miguel's not at school, he likes to hangout with his dog. Something Miguel likes about Journalism is taking pictures of random people. He says that this year hasn't changed him in any way yet. "I still have the same friends, but I've become closer to other distant friends." I asked Miguel what does he envision for his future career or does he have any plans after high school, and he said "possibly go to college, or probably get another dog. I'm not really sure what yet. Maybe become a teacher. I don't know yet".

The person that inspires Miguel is his dad. He says, "My dad taught me how to invest in money, and other things like that". He also enjoys watching soccer with his dad. If Miguel had a ton of money, he said he would "donate half of the money to local animal shelters and then keep the rest for starting a business". Miguel said that he would dance to "la Chona" when no one's looking. He feels excited, and nervous (nervicited) when interviewing people.

### Amazing Andrew

By Jacqueline Ullrich

Andrew is a very interesting person who likes ramen and chicken. He likes to play games, cook, and read in his free time. Andrews says, "My favorite part of journalism is editing because it's fun". His favorite color is yellow and he always wears sweaters. Andrew likes to hang out with friends and have fun. Andrew was a very amazing person to interview.

**if we succeed**  
 by Jesus and Andrea

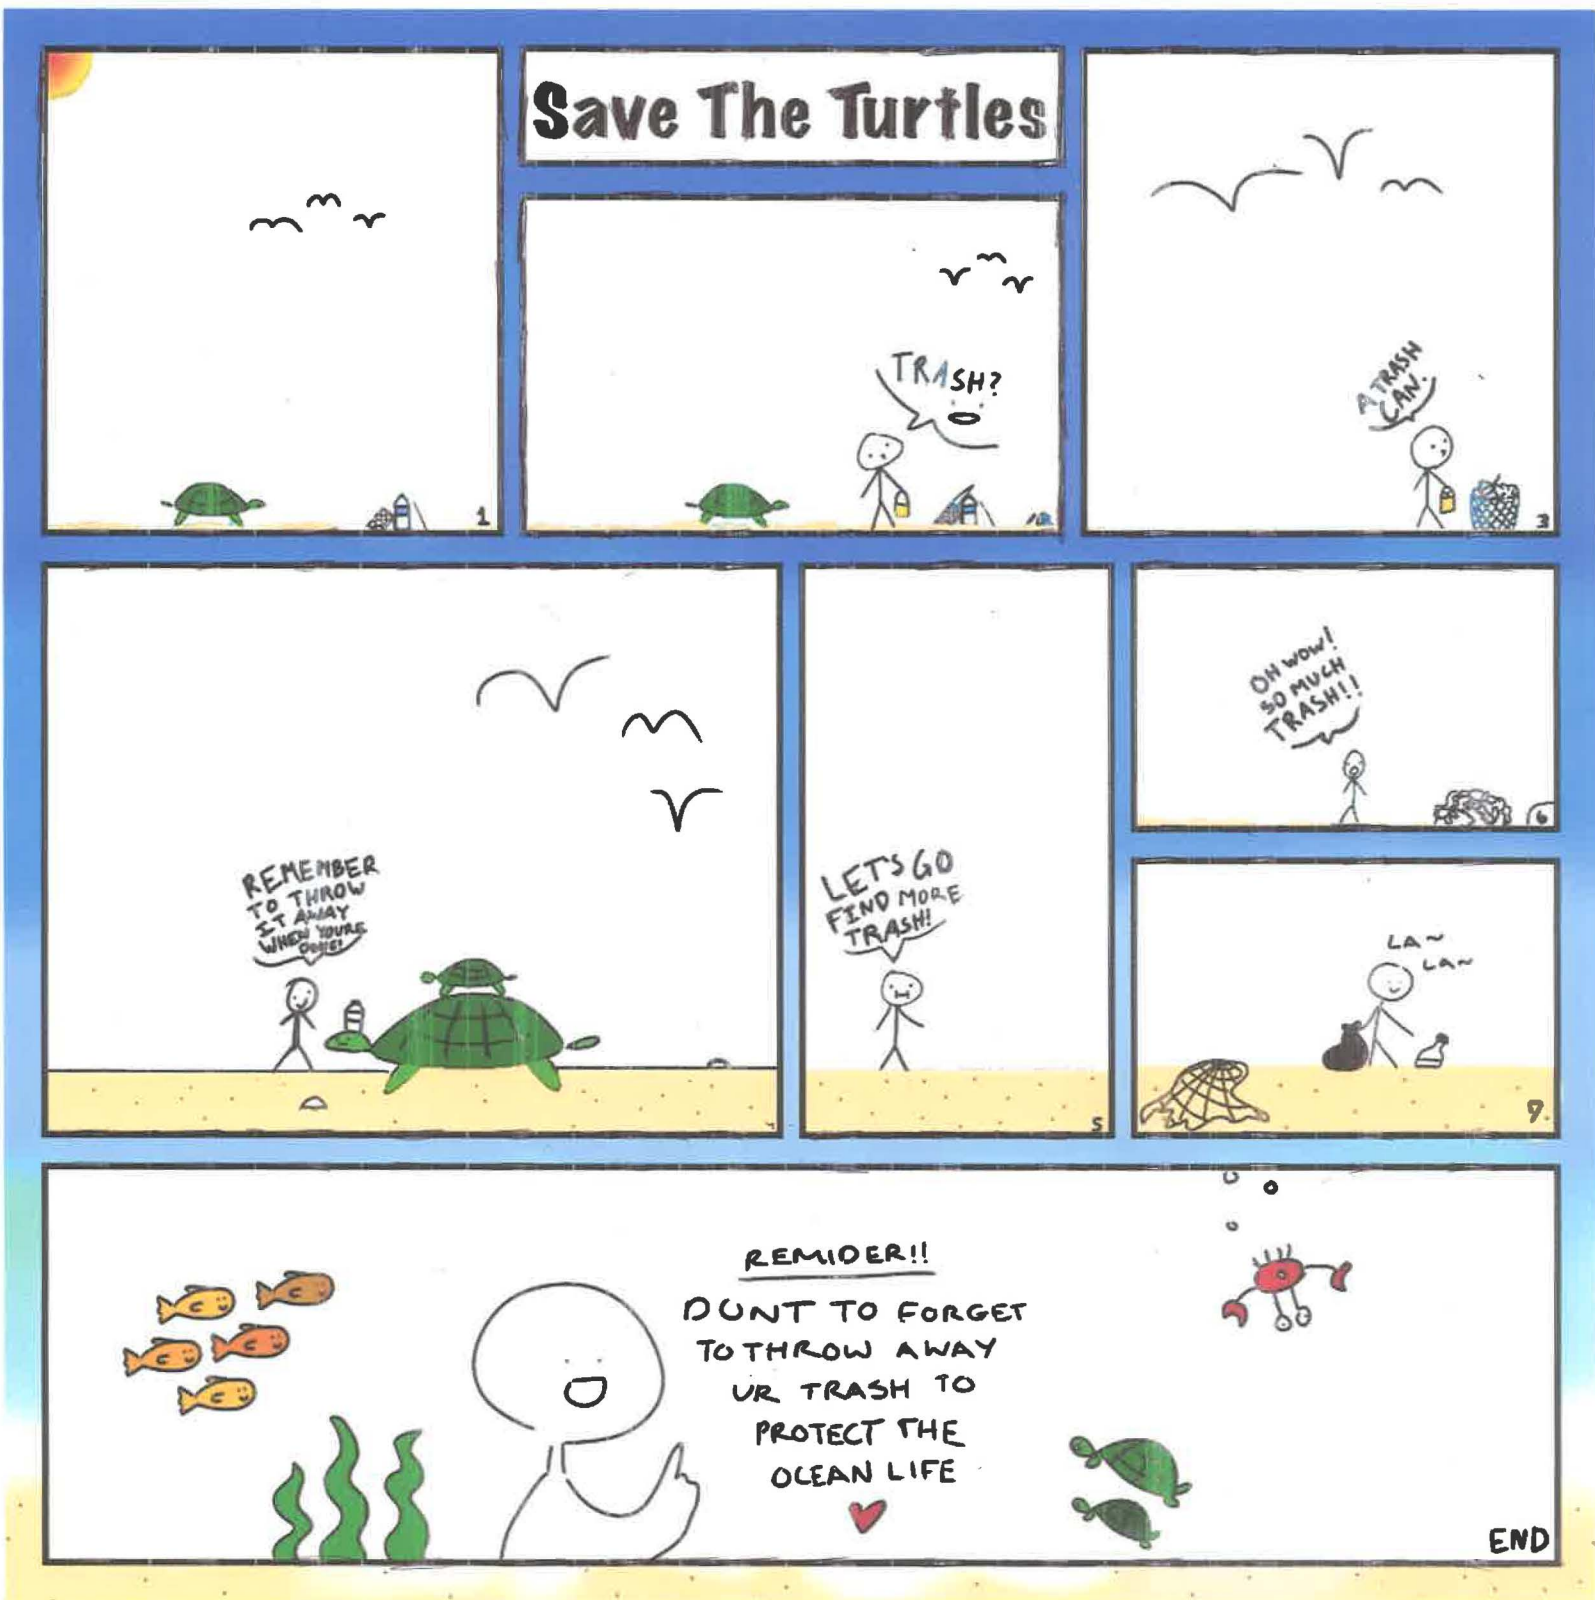

if we succeed in the raid  
 we would all have hoverboards  
 ones that actually float  
 that means that global warming is over  
 we would have new friends  
 named jim and tom  
 we'd take them to dinner  
 and to your mom  
 area 51 is shook  
 everything is gone  
 all the new cooks  
 and even the krabby patty formulas  
 all your teenaged brothers' incognito search history  
 to get our aliens  
 to have more fun  
 we lost someone special,  
 only one, her name is karen  
 she was really fun  
 clean air is what we stole  
 no more pollution  
 we'd find the deleted musical.ly app  
 and the melting glaciers  
 save the turtles  
 revive the corals  
 save the planet  
 "so let's raid, gamers"  
 is what we'd shout  
 shout out to karen  
 she let us have a sleepover  
 thank you, and goodnight gamers  
 period.

**Plastic Pollution**

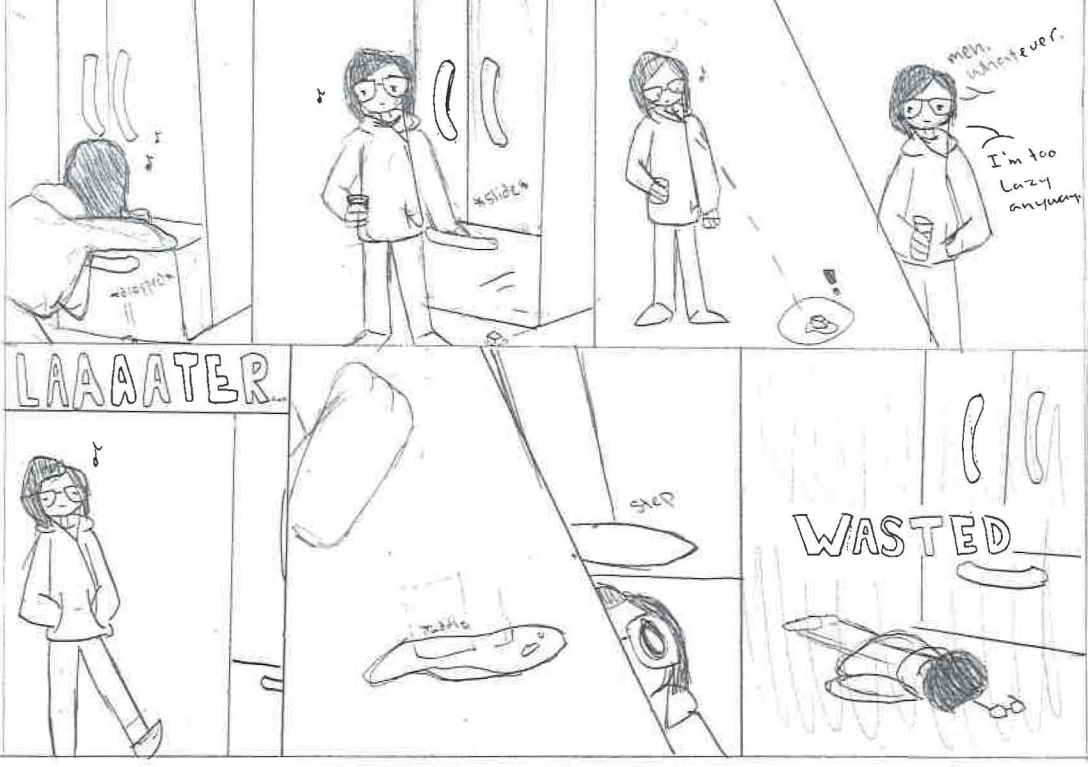

- Across  
 1. items that we use for our drinks.  
 5. what we use for our groceries shopping.
- Down  
 2. what we use for our cars  
 3. what we use to keep our trash in one place.  
 4. holder for our water.  
 5. what we use for parties to hold our drinks  
 6. Wrappers things that keep our candies safe on the outside.
