INDEPENDENT AUDITORS' REPORT

Governing Board
Ocean View School District
Huntington Beach, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Ocean View School District (the District) as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2011-2012,* issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Ocean View School District, as of June 30, 2012, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in the Notes to the basic financial statements, the State of California continues to suffer the effects of a recessionary economy, which directly impacts the funding requirements of the State of California to the K-12 educational community.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2012, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 14 and budgetary comparison and other postemployment information on pages 56 and 57 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements. The supplementary information listed in the table of contents, such as the Schedule of Expenditures of Federal Awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Circular A-133) is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information listed in the table of contents such as the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the financial statements as a whole.

This section of Ocean View School District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2012. Please read it in conjunction with the District's financial statements, which immediately follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts - management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *District-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.

- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in more detail than the District-wide statements.

    - The *governmental funds* statements tell how *basic* services like regular and special education were financed in the *short term*, as well as what remains for future spending.

    - *Proprietary funds* statements offer *short* and *long-term* financial information about the activities the District operates like business, such as child care.

    - *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee* or *agent* for the benefit of others (Associated Student Body).

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the financial statements with a comparison of the District's budget for the year.

District-Wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities with the exception of other post employment benefits. All of the current year's revenues and expenses are accounted for in the *Statement of Activities* regardless of when cash is received or paid. District-wide statements were not required of this District prior to the 2002-2003 fiscal year.

The District-wide statements report the District's net assets and how they have changed. Net assets - the difference between the District's assets and liabilities - are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively. To assess the overall health of the District, you need to consider additional non-financial factors such as changes in the condition of District school buildings and other facilities. In the District-wide financial statements, the District's activities are divided into two categories:

Governmental Activities

Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and State aid finance most of these activities.

Business-Type Activities

The District charges fees to cover the costs of certain services it provides. The District's child care program is included here.

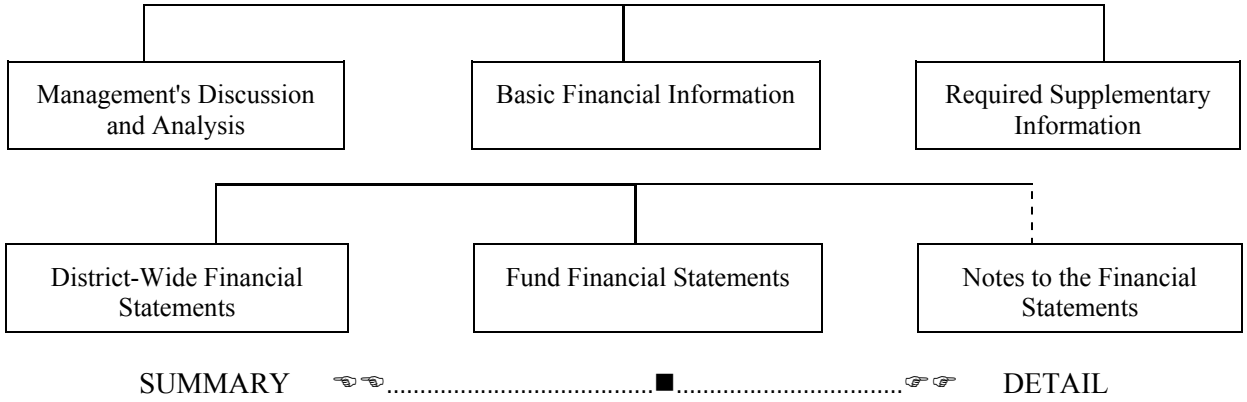

Figure 1-A shows how the various parts of this annual report are arranged and related to one another.

Figure 1-B. Organization of Ocean View School District's Annual Financial Report

The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

FINANCIAL HIGHLIGHTS

The District's financial status remains positive. The ending balance of the General Fund decreased $2,626,041 between July 1, 2011 and June 30, 2012. The General Fund has consistently maintained a reserve for emergencies above the State mandated three percent reserve and ended the fiscal year of June 30, 2012, with an emergency reserve of 8.3 percent.

The Board of Trustees authorized the District to offset lost State revenue due to the State budget crisis with lease monies collected from tenants at closed school sites (short-term lease) and to fund other capital projects as well as debt service on the 2002 COP and 2010 Refunding COP with long-term lease revenue from the shopping centers built at the closed Crest View and Rancho View sites.

The District increased its outstanding long-term obligations by $782,783 or 5.8 percent. This increase is due to Government Accounting Standard Board (GASB) Statement No. 45 which requires Other Postemployment Benefits (OPEB) to be included with long-term obligations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Assets

The District's combined net assets were $62,357,959 for the fiscal year ended June 30, 2012. Of this amount, $10,318,855 was unrestricted. Restricted net assets are reported separately to show legal constraints from debt covenants and legislation that limit the Board of Trustees' ability to use those net assets for day-to-day operations. The analysis below focuses on the net assets (Table 1) and change in the net assets (Table 2) for the District's governmental and business-type activities.

The $10,318,855 in unrestricted net assets of governmental and business-type activities represents the accumulated results of all past years' operations.

Change in Net Assets

The District's total revenues were $84,158,126 and total expenses were $86,413,612. Table 2 presents total revenues and total expenses for governmental activities and business-type activities by category.

Property taxes and State formula aid accounted for 43 percent of the revenue from governmental activities. Another 46 percent came from operating grants and contributions and other State revenues, and the remainder from fees charged for services and miscellaneous sources.

The District's expenses from governmental activities are predominately related to educating and caring for students (82 percent). The purely administrative activities of the District accounted for five percent of total costs. Total expenses surpassed revenues, decreasing net assets by $2,255,486 from last year.

Governmental Activities

Table 3 presents the costs of five major District activities: instruction-related, student support services, administration, plant services, and other services. The table also shows each activity's *net cost* (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

The cost of all governmental activities this year was $83,984,344.

- Some of the cost was financed by the users of the District's programs ($1,090,858).
- The Federal and State governments subsidized certain programs with grants and contributions ($16,707,574).
- Most of the District's costs, however, were financed by District taxpayers and the taxpayers of our State ($56,059,357).
- This portion of governmental activities was financed with property taxes, unrestricted State aid based on the State-wide education aid formula, other State funding, investment earnings and miscellaneous revenues.

Business-Type Activities

Revenues of the District's business-type activities were $2,531,679, and expenses were $2,429,268.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by State law and by bond covenants. The District established other funds to control and manage money for particular purposes (like capital facilities) or to show that it is properly using certain revenues (like cafeteria revenues).

The District has three kinds of funds:

Governmental funds **-** Most of the District's basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, we provide additional information with the governmental funds statement that explains the relationship (or differences) between them.

Fiduciary funds - The District is trustee, or *fiduciary*, for assets that belong to others, such as the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. We exclude these activities from the District-wide financial statements because the District cannot use these assets to finance its operations.

Proprietary funds - Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide statements.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The strong financial performance of the District as a whole is reflected in its governmental funds. The main day-to-day operating fund of the District is the General Fund. The monies deposited into the General Fund represent the Federal, State and local revenues available for the ongoing costs related to instruction, school and District administration, student transportation and regular maintenance and operations. During 2011-2012, the General Fund had revenues of $72,916,830, and expenses of $75,964,871. After factoring in transfers and other uses, the General Fund balance decreased by $2,626,041 or 3.5 percent of expenses. The General Fund has maintained additional reserves above the State required 3 percent reserves for many years, reflecting that the District achieves a financial balance between revenues and expenditures for its ongoing day-to-day operations.

As the District completed the year, its governmental funds reported combined fund balances of $23,929,903.

Total	**$ 23,681,319**	**$ 82,029,963**	**$ 81,781,379**	**$ 23,929,903**

Proprietary Funds

The Child Care Fund had an increase in net assets of $102,411 to equal a balance of $1,593,407 during the 2011-2012 year. The ending balance is a combination of funds from the State funded preschool program and the District sponsored before and after school child care program. The ending balances are available to enhance the respective programs and provide a reserve for increased costs.

Fiduciary Funds

The Associated Student Body funds ended the year with assets of $255,519, consisting of $204,330 in bank deposits and $51,189 in stores inventories, with liabilities of $255,519 due to student groups.

General Fund Budgetary Highlights

Over the course of the year, the Board approves three versions of the operating budget. These budget revisions are: Adopted Budget, First Interim and Second Interim, with the Unaudited Actuals brought forward after the year-end closing is completed.

As in the prior year, between the time the District's budget was adopted in June 2011 and when it closed its books in June 2012, there were significant changes due to actions in both the State and Federal governments. As revenue at the State level decreased, California responded by again increasing the deficit to district revenue limits. At the Federal level, the American Recovery and Reinvestment Act (ARRA) was in its final year and Ocean View School District used $1,286,625 of ARRA funds in 2011-2012 including State Fiscal Stabilization, Education Jobs Funds and Special Education ARRA funds. These one-time funds would help to mitigate the impact of further budget cuts in 2011-2012.

The District's estimated budget includes all monies available, whereas the actual budget reflects final expenditures, which are often lower, and result in carryovers to be rolled into the following year. An example would be restricted Federal and State programs and school site carryover.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

In 2011-2012, the District completed work in the third and final year to replace the HVAC Energy Management system at 13 sites for the amount of $161,687. Two school sites, Marine View and Sun View, received new roofs in the amount of $226,687. The restroom projects at Circle View and Oak View were completed in the amount of $76,903. Two old modernization projects were closed out with the final invoices paid in the amount of $83,292. Several servers and related technology equipment were purchased in the amount of $33,839. The Food Services Department purchased two freezers in the amount of $22,925. Other equipment purchased by the District included upgrades on fire alarms systems. A duplicator, a sound system, and a vision screener, as well as a marquee were purchased with donated funds.

Long-Term Obligations

At year-end, the District had $13,442,301 in long-term obligations outstanding as shown in Table 5. The District continues to report its Other Postemployment Benefits (OPEB) obligation as required by GASB Statement No. 45 which began in 2008-2009. Table 5 also shows a premium on Certificates of Participation (COP) as a result of the refunding of the 2002 COP during the 2009-2010 fiscal year.

- The District did not issue any new long-term debt in 2011-2012.

FACTORS BEARING ON THE DISTRICT'S FUTURE

Ocean View School District's enrollment saw a modest decrease in 2011-2012 like many other districts in California. Fluctuation in enrollment impacts the District's revenue. The District continues to make expenditure adjustments to assist in compensating for the loss in revenue and will continue to maintain a reserve level above the minimum level required.

During the past years, the global, national, and State economies have continued to face major reductions. In particular, tax receipts that fund many public school activities have been affected. School districts have faced mid-year reductions and budget changes as the government agencies try to find new ways of covering their shortfalls. The District expects these uncertainties to continue in 2012-2013 and will be revising its budget during the fiscal year adjustment reports (1st and 2nd Interims) to incorporate any major mid-year changes.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET ASSETS
JUNE 30, 2012

Total Fund Balance - Governmental Funds		**$ 23,929,903**
Amounts Reported for Governmental Activities in the Statement of Net Assets are Different Because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.		
The cost of capital assets is:	$ 98,561,428	
Accumulated depreciation is:	(48,534,703)	
Net Capital Assets		50,026,725
Expenditures relating to issuance and refunding of debt were recognized on the modified accrual basis. Under the accrual basis, these expenditures are capitalized and will be amortized as an adjustment to interest expense.		234,254
In governmental funds, unmatured interest on long-term obligations is recognized in the period when it is due. On the government-wide financial statements, unmatured interest on long-term obligations is recognized when it is incurred.		(82,029)
Long-term obligations at year-end consist of:		
Certificates of participation	(6,120,000)	
Premium on certificates of participation	(247,637)

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2012

Total Net Change in Fund Balances - Governmental Funds		**$ 248,584**
Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures, however, for governmental activities, those costs are shown in the Statement of Net Assets and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.		
This is the amount by which depreciation exceeds capital outlay in the period.		
Depreciation expense	$ (2,236,419)	
Capital outlays	445,654	
Net Expense Adjustment		(1,790,765)
Contributions for postemployment benefits are recorded as an expense in the governmental funds when paid. However, the difference between the annual required contribution and the actual contribution made, if less, is recorded in the government-wide financial statements as an expense. The actual amount of the contribution was less than the annual required contribution.		(1,354,829)
In the Statement of Activities, certain operating expenses - compensated absences (vacations) and special termination benefits (early retirement) - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year, there are no special termination benefits. Vacation earned was more than the amounts used by $31,609.		(31,609)
Repayment of debt principal is an expenditure in the governmental funds, but it reduces long-term obligations in the Statement of Net Assets and does not affect the Statement of Activities:		
Certificates of participation		530,000
Capital lease obligations		34,037

The accompanying notes are an integral part of these financial statements.

OCEAN VIEW SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES (Continued)
FOR THE YEAR ENDED JUNE 30, 2012

Under the modified basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. This adjustment combines the net changes of the following balances:		
Amortization of debt premium	$ 25,618	
Amortization of deferred costs on issuance	(24,233)	
Combined Adjustment		$ 1,385
Interest on long-term obligations in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. Accrued interest on the certificates of participation decreased by $5,300.		5,300
Change in Net Assets of Governmental Activities		**$ (2,357,897)**

The accompanying notes are an integral part of these financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Ocean View School District (the District) was organized in 1874 under the laws of the State of California. The District operates under a locally-elected five-member Board form of government and provides educational services to grades kindergarten through eight as mandated by the State and Federal agencies. The District operates eleven elementary and four middle schools.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Ocean View School District, this includes general operations, child care operations, food service, and student related activities of the District.

Component Units

Component units are legally separate organizations for which the District is financially accountable. Component units may include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. For financial reporting purposes, the component unit has a financial and operational relationship which meets the reporting entity definition criteria of the Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and thus is included in the financial statements of the District. The component unit, although a legally separate entity, is reported in the financial statements using the blended presentation method as if it were part of the District's operations because the governing board of the component unit is essentially the same as the governing board of the District and because its purpose is to finance the construction of facilities to be used for the benefit of the District.

The District and the Ocean View School District Facilities Corporation (the Corporation), as represented by the Refunding Certificates of Participation (COP), have a financial and operational relationship which meets the reporting entity definition criteria of GASB Statement No. 14, *The Financial Reporting Entity*, for inclusion of the Corporation as a component unit of the District. Accordingly, the financial activity of the Corporation is presented in the financial statements as the Debt Service Fund. The COP issued by the Corporation is included as long-term obligations in the government-wide financial statements. Individually-prepared financial statements are not prepared for the Corporation.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into three broad fund categories: governmental, proprietary, and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

Major Governmental Funds

General Fund The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

One fund currently defined as a special revenue fund in the California State Accounting Manual (CSAM) does not meet the GASB Statement No. 54 special revenue fund definition. Specifically, Fund 17, Special Reserve Fund for Other Than Capital Outlay Projects is not substantially composed of restricted or committed revenue sources. While this fund is authorized by statute and will remain open for internal reporting purposes, this fund functions effectively as an extension of the General Fund, and accordingly has been combined with the General Fund for presentation in these audited financial statements.

In addition, under the flexibility provisions of current statute that allow certain formerly restricted revenues to be used for any educational purpose, Fund 14, Deferred Maintenance Fund does not currently meet the definition of special revenue funds as this fund is no longer primarily composed of restricted or committed revenue sources.

As the District has not taken formal action to commit the flexed revenue formerly restricted to this program to the continued operation of the original program, the revenue within this fund would be considered to be available for general educational purposes, resulting in Fund 14, Deferred Maintenance Fund being combined with the General Fund for presentation in these audited financial statements.

As a result, the General Fund reflects an increase in assets, fund balance, revenues and expenditures of $1,347,952, $1,347,868, $8,482, and $1,316, respectively.

Capital Facilities Fund The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approving a development (*Education Code* Sections 17620-17626). Expenditures are restricted to the purposes specified in *Government Code* Sections 65970-65981 or to the items specified in agreements with the developer (*Government Code* Section 66006).

Special Reserve Capital Outlay Fund The Special Reserve Capital Outlay Fund exists primarily to provide for the accumulation of General Fund monies for capital outlay purposes (*Education Code* Section 42840).

Non-Major Governmental Funds

Special Revenue Funds The Special Revenue funds are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities and that compose a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

Cafeteria Fund The Cafeteria Fund is used to account separately for Federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

Capital Project Funds The Capital Project funds are used to account for and report financial resources that are restricted, committed, or assigned to the acquisition or construction of capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

County School Facilities Fund The County School Facilities Fund is established pursuant to *Education Code* Section 17070.43 to receive apportionments from the 1998 State School Facilities Fund (Proposition lA), the 2002 State School Facilities Fund (Proposition 47), or the 2004 State School Facilities Fund (Proposition 55) authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*Education Code* Section 17070 et seq.).

Debt Service Funds The Debt Service funds are used to account for the accumulation of restricted, committed, or assigned resources for and the payment of principal and interest on general long-term obligations.

Debt Service Fund This fund is used for the accumulation of resources for and the retirement of principal and interest on general long-term debt.

Proprietary Funds Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position, and cash flows. The District applies all GASB pronouncements, as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. Proprietary funds are classified as enterprise or internal service. The District has the following proprietary fund:

Enterprise Fund Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The only enterprise fund of the District accounts for the financial transactions related to the child care program of the District.

Fiduciary Funds Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the District's own programs. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. The District's agency fund accounts for student body activities (ASB).

Basis of Accounting - Measurement Focus

Government-Wide Financial Statements The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each governmental program, and excludes fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the Statement of Activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net assets should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net assets restricted for other activities result from special revenue funds and the restrictions on their net asset use.

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The enterprise fund is presented in a single column on the face of the proprietary fund statements.

Governmental Funds All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for the governmental funds on a modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Proprietary Funds Proprietary funds are accounted for using a flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net assets. The statement of changes in fund net assets presents increases (revenues) and decreases (expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting.

Revenues – Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 90 days. However, to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to state-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose requirements. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Deferred Revenue Deferred revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

Certain grants received before the eligibility requirements are met are recorded as deferred revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as deferred revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the entity-wide statements.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Investments

Investments held at June 30, 2012, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at the lower of cost or market, on the weighted average basis. The costs of inventory items are recorded as expenditures in the governmental type funds and expenses in the proprietary type funds when used.

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the District. The District maintains a capitalization threshold of $5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred. Interest incurred during the construction of capital assets utilized by the enterprise fund is also capitalized.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide financial statement of net assets. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at estimated fair market value on the date donated.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets are the same as those used for the capital assets of governmental funds.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: land improvements, 20 to 50 years; buildings and improvements, 20 to 50 years; equipment, 5 to 15 years.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Compensated Absences

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide statement of net assets. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Certificates of participation, capital leases, and compensated absences are recognized as liabilities in the governmental fund financial statements when due.

Fund Balances - Governmental Funds

As of June 30, 2012, fund balances of the governmental funds are classified as follows:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board or chief business officer/assistant superintendent of business services may assign amounts for specific purposes.

Unassigned - all other spendable amounts.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of assigned funds, and then unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Minimum Fund Balance Policy

The governing board adopted a minimum fund balance policy for the General Fund in order to protect the district against revenue shortfalls or unpredicted one-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than three percent of General Fund expenditures and other financing uses.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available. The government-wide financial statements report $7,336,007 of restricted net assets, which is restricted by enabling legislation.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are childcare fees. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Interfund transfers are eliminated in the governmental and business-type activities columns of the statement of activities, except for the net residual amounts transferred between governmental and business-type activities.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

The budgetary process is prescribed by provisions of the California Education Code and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1 of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For budget purposes, on behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

Property Tax

Secured property taxes attach as an enforceable lien on property as of March 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31 and become delinquent after November 1. The County of Orange bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

New Accounting Pronouncements

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus-an amendment of GASB Statements No. 14 and No. 34*. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The requirements of GASB Statement No. 14, *The Financial Reporting Entity*, and the related financial reporting requirements of GASB Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments,* were amended to better meet user needs and to address reporting entity issues that have arisen since the issuance of those Statements.

This Statement modifies certain requirements for inclusion of component units in the financial reporting entity. For organizations that previously were required to be included as component units by meeting the fiscal dependency criterion, a financial benefit or burden relationship also would need to be present between the primary government and that organization for it to be included in the reporting entity as a component unit. Further, for organizations that do not meet the financial accountability criteria for inclusion as component units but that, nevertheless, should be included because the primary government's management determines that it would be misleading to exclude them, this Statement clarifies the manner in which that determination should be made and the types of relationships that generally should be considered in making the determination.

This Statement also amends the criteria for reporting component units as if they were part of the primary government (that is, blending) in certain circumstances. For component units that currently are blended based on the "substantively the same governing body" criterion, it additionally requires that (1) the primary government and the component unit have a financial benefit or burden relationship or (2) management (below the level of the elected officials) of the primary government have operational responsibility (as defined in paragraph 8a) for the activities of the component unit. New criteria also are added to require blending of component units whose total debt outstanding is expected to be repaid entirely or almost entirely with resources of the primary government. The blending provisions are amended to clarify that funds of a blended component unit have the same financial reporting requirements as a fund of the primary government. Lastly, additional reporting guidance is provided for blending a component unit if the primary government is a business-type activity that uses a single column presentation for financial reporting.

This Statement also clarifies the reporting of equity interests in legally separate organizations. It requires a primary government to report its equity interest in a component unit as an asset. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2012. Early implementation is encouraged.

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions*—an amendment of Statement No. 27. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by State and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers,* as well as the requirements of Statement No. 50, *Pension Disclosures,* as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements No. 27 and No. 50 remain applicable for pensions that are not covered by the scope of this Statement.

Statement No. 67, *Financial Reporting for Pension Plans,* revises existing standards of financial reporting for most pension plans. This Statement and Statement No. 67 establish a definition of a pension plan that reflects the primary activities associated with the pension arrangement - determining pensions, accumulating and managing assets dedicated for pensions, and paying benefits to plan members as they come due.

The scope of this Statement addresses accounting and financial reporting for pensions that are provided to the employees of State and local governmental employers through pension plans that are administered through trusts that have the following characteristics:

Contributions from employers and nonemployer contributing entities to the pension plan and earnings on those contributions are irrevocable.

Pension plan assets are dedicated to providing pensions to plan members in accordance with the benefit terms.

Pension plan assets are legally protected from the creditors of employers, nonemployer contributing entities, and the pension plan administrator. If the plan is a defined benefit pension plan, plan assets also are legally protected from creditors of the plan members.

This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service.

This Statement is effective for fiscal years beginning after June 15, 2014. Earlier implementation is encouraged.

NOTE 2 - DEPOSITS AND INVESTMENTS

Summary of Deposits and Investments

Deposits and investments as of June 30, 2012, are classified in the accompanying financial statements as follows:

Governmental activities	$	13,370,559
Business-type activities		871,418
Fiduciary funds		204,330
Total Deposits and Investments	$	14,446,307

Deposits and investments as of June 30, 2012, consist of the following:

Cash on hand and in banks	$	291,250
Cash in revolving		52,000
Investments		14,103,057
Total Deposits and Investments	$	14,446,307

Policies and Practices

The District is authorized under California Government Code and the District's investment policy to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements (if such transactions are matched to maturity); medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

Authorized Investment Type	Maximum Remaining Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None

Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by primarily investing in the county pool.

Specific Identification

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investment by maturity:

Investment Type	Carrying Value	Fair Value	Average Maturity in Days
County Pool	$ 14,103,057	$ 14,120,137	347 days

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in the Orange County Treasury Investment Pool are rated Aaa by Moody's Investor Service.

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does have a policy for custodial credit risk for deposits. The District's policy requires that all monies deposited in a bank account outside of the County Treasury be fully insured or collateralized. The California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. Accounts at each institution are insured by the Federal Deposit Insurance Corporation (FDIC). As of June 30, 2012, the District's bank balances were within the Federally insured limits.

NOTE 3 - RECEIVABLES

Receivables at June 30, 2012, consisted of intergovernmental grants, entitlements, interest and other local sources. All receivables are considered collectible in full.

NOTE 5 - INTERFUND TRANSACTIONS

Interfund Receivables/Payables (Due To/Due From)

Interfund receivable and payable balances arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. Interfund receivable and payable balances at June 30, 2012, between major and non-major governmental funds, and non-major enterprise funds are as follows:

	Due From			
Due To	General Fund	Non-Major Governmental Funds	Child Care Enterprise Fund	Total
General Fund	$ -	$ 120,261	$ 159,618	$ 279,879
Capital Facilities Fund	231,665	-	-	231,665
Special Reserve Capital Outlay Fund	3,000,000	-	-	3,000,000
Non-Major Governmental Funds	3,670	-	-	3,670

Total	$ 3,243,480	$ 120,261	$ 159,618	$ 3,523,359

The balance of $3,000,000 due to the Special Reserve Capital Outlay Fund from the General Fund resulted from a temporary loan for cash flow purposes.

The balance of $120,261 due to the General Fund from the Cafeteria Non-Major Governmental Fund resulted from indirect and payroll related costs paid by the General Fund but incurred by the Cafeteria Fund. The balance of $159,618 due to the General Fund from the Child Care Enterprise Fund resulted from indirect and payroll related costs paid by the General Fund but incurred by the Child Care Enterprise. All remaining balances are for the reimbursement of operating costs/program expenditures.

Operating Transfers

Interfund transfers for the year ended June 30, 2012, consisted of the following:

Transfer To	Transfer From Special Reserve Capital Outlay Fund
General Fund	$ 422,000
Non-Major Governmental Funds	791,998
Total	$ 1,213,998

The Special Reserve Capital Outlay Fund transferred to the General Fund for deferred maintenance.	$ 422,000
The Special Reserve Capital Outlay Fund transferred to the COP Debt Service Fund for the debt service payments.	791,998
Total	$ 1,213,998

Interfund transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 6 - ACCOUNTS PAYABLE

Accounts payable at June 30, 2012, consisted of the following:

	General Fund	Capital Facilities Fund	Special Reserve Capital Outlay Fund	Non-Major Governmental Funds	Total Governmental Activities	Child Care Enterprise Fund	Fiduciary Funds
Salaries and benefits	$ 3,420,139	$ -	$ -	$ 140,066	$ 3,560,205	$ 232,825	$ -

NOTE 7 - CURRENT LOAN

On March 20, 2012, in accordance with California Constitution Article XVI, Section 6 and *Education Code* Section 42620, the District entered into a Bridge Transfer Agreement with the County of Orange, whereby the District borrowed $1,429,721 from the County Treasurer to meet current maintenance expenses of the District. Repayment terms require installments to be paid with interest as follows: 14.6 percent due in May 2012, 50.2 percent due in July 2012, and 35.2 percent due August 2012. Interest on the loan will accrue and be payable by the District at a rate equal to the gross rate the Orange County Investment Pool is earning for the same period from the date of the Bridge Transfer plus five basis points until the entire loan and applicable interest is repaid. At June 30, 2012, the District had an outstanding loan balance in the amount of $1,220,981.

NOTE 8 - DEFERRED REVENUE

Deferred revenue at June 30, 2012, consists of the following:

	General Fund	Special Reserve Capital Outlay Fund	Non-Major Governmental Funds	Total Governmental Activities	Child Care Enterprise Fund
Federal financial assistance	$ 70,836	$ -	$ -	$ 70,836	$ -

Business-Type Activities					
Capital leases	$ 112,000	$ -	$ 14,000	$ 98,000	$ 14,000

Payments for the Certificates of Participation are made by the Debt Service Fund. Capital leases for District equipment and portable buildings are paid by the General Fund, and capital leases for portable buildings used in the Child Care Program are paid by the Child Care Enterprise Fund. The accrued vacation will be paid by the fund for which the employee worked. Postemployment benefits are paid by the General Fund.

2010 Refunding Certificates of Participation

On February 26, 2010, the District issued 2010 Refunding Certificates of Participation in the amount of $6,875,000 with interest rates ranging from 3.0 to 4.25 percent. Proceeds from the sale of the certificates were used to refund the outstanding portion of the 2002 Certificates of Participation and pay the costs associated with the execution and delivery of the certificates. As of June 30, 2012, the outstanding balance on the 2010 Refunding Certificates of Participation was $6,120,000. As of June 30, 2012, the unamortized premium received on issuance and deferred costs of issuance amounted to $247,637 and $234,254, respectively.

The certificates mature through March 1, 2022, as follows:

Year Ending June 30,	Principal	Interest	Total
2013	$ 550,000	$ 246,088	$ 796,088
2014	570,000	226,838	796,838

2018-2022	3,160,000	390,324	3,550,324
Total	$ 6,120,000	$ 1,416,600	$ 7,536,600

Compensated Absences

The long-term portion of compensated absences (accumulated unpaid employee vacation) for the District at June 30, 2012, amounted to $727,170.

Capital Leases

The District has entered into agreements to lease various facilities and equipment. Such agreements are, in substance, purchases (capital leases) and are reported as capital lease obligations. The District's liability on lease agreements with options to purchase is summarized below:

Governmental Activities

	Equipment
Balance, Beginning of Year	$ 128,777
Payments	(40,667)
Balance, End of Year	$ 88,110

Business-Type Activities

	Modulars

2018-2019	28,000
Total	$ 98,000

Other Postemployment Benefits (OPEB) Obligation

The District's annual required contribution for the year ended June 30, 2012, was $2,696,602, and contributions made by the District during the year were $1,284,292. Interest on the net OPEB obligation and adjustments to the annual required contribution were $240,432 and $(297,913), respectively, which resulted in an increase to the net OPEB obligation of $1,354,829. As of June 30, 2012, the net OPEB obligation was $6,163,460. See Note 12 for additional information regarding the OPEB obligation and the postemployment benefits plan.

NOTE 11 - LEASE REVENUES

Lease agreements have been entered into with various lessees for terms that exceed one year. None of the agreements contain purchase options. All of the agreements contain a termination clause providing for cancellation after a specified number of days written notice to lessees, but is unlikely that the District will cancel any of the agreements prior to their expiration date. The future minimum lease payments expected to be received under these agreements are as follows:

Year Ending June 30,	Lease Revenue
2013	$ 1,218,080
2014	1,075,503
2015	978,738

Thereafter	17,996,875
Total	$ 40,790,770

NOTE 12 - POSTEMPLOYMENT HEALTH CARE PLAN AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION

Plan Description

The Postemployment Benefits Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the Ocean View School District. The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Membership of the Plan consists of 259 retirees and beneficiaries currently receiving benefits, ten terminated Plan members entitled to but not yet receiving benefits, and 659 active Plan members.

Contribution Information

The contribution requirements of Plan members and the District are established and may be amended by the District and the Teachers Association (OVTA), the local California Service Employees Association (CSEA), and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2011-2012, the District contributed $1,284,292 to the Plan, all of which was used for current premiums (approximately 71 percent of total premiums). Plan members receiving benefits contributed $530,210, or approximately 29 percent of the total premiums.

Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (UAAL) (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the District's net OPEB obligation to the Plan:

Annual required contribution	$ 2,696,602
Interest on net OPEB obligation	240,432
Adjustment to annual required contribution	(297,913)
Annual OPEB cost (expense)	2,639,121
Contributions made	(1,284,292)
Increase in net OPEB obligation	1,354,829
Net OPEB obligation, beginning of year	4,808,631
Net OPEB obligation, end of year	$ 6,163,460

Trend Information

Trend information for annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation is as follows:

Year Ended June 30,	Annual OPEB Cost	Actual Contribution	Percentage Contributed	Net OPEB Obligation
2010	$ 2,675,288	$ 1,094,539	41%	$ 3,363,799
2011	2,656,392	1,211,560	46%	4,808,631
2012	2,639,121	1,284,292	49%	6,163,460

Funded Status and Funding Progress

A schedule of funding progress as of the most recent actuarial valuation is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) - Unprojected Unit Credit (b)	Unfunded AAL (UAAL) (b - a)	Funded Ratio (a / b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ([b - a] / c)
July 1, 2008	$ -	$ 22,538,957	$ 22,538,957	0%	$ 53,316,864	42%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, investment returns, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2008 actuarial valuation, the unprojected unit credit method was used. The actuarial assumptions included a five percent investment rate of return (net of administrative expenses), based on the plan being funded in an irrevocable employee benefit trust invested in a combined equity and fixed income portfolio. Healthcare cost trend rates ranged from an initial five percent to an ultimate rate of 11 percent. The cost trend rate used for the Dental and Vision programs was five percent. The UAAL is being amortized at a level dollar method. The remaining amortization period at June 30, 2012, was 27 years. The actuarial value of assets was not determined in this actuarial valuation.

The District has not established a plan or equivalent arrangement that contains an irrevocable transfer of assets dedicated to providing benefits to retirees.

NOTE 13 - RISK MANAGEMENT

Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year ending June 30, 2012, the District contracted with Southern Orange County Property/Liability Joint Powers Authority for property and liability insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Worker's Compensation

For fiscal year 2012, the District participated in the Western Orange County Self-Funded Workers' Compensation Insurance Agency (the Agency), a joint powers authority. The intent of the Agency is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the Agency. The workers' compensation experience of the participating districts is calculated as one experience and a common premium rate is applied to all districts in the Agency. Each participant pays its workers' compensation premium based on its individual rate. Participation in the Agency is limited to districts that can meet the Agency's selection criteria.

Employee Medical Benefits

The District has contracted with South Counties Employer Employee Trust (SCEET) to provide employee health and welfare benefits. The District has also contracted with Alliance of Schools for Cooperative Insurance Programs (ASCIP), a joint powers authority, to provide employee health and welfare benefits, specifically for dental benefits. SCEET and ASCIP are shared risk pools comprised of several local education agencies. Rates are set through an annual calculation process. The District pays a monthly contribution, which is placed in a common fund from which claim payments are made for all participating districts. Claims are paid for all participants regardless of claims flow. The Board of Directors has a right to return monies to a district subsequent to the settlement of all expenses and claims if a district withdraws from the pool.

NOTE 14 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer retirement plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

CalSTRS

Plan Description

The District contributes to CalSTRS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and survivor benefits to beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, 7919 Folsom Blvd., Sacramento, California 95826.

Funding Policy

Active plan members are required to contribute 8.0 percent of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by CalSTRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2011-2012 was 8.25 percent of annual payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to CalSTRS for the fiscal years ending June 30, 2012, 2011, and 2010, were $3,167,580, $3,119,783, and $3,211,263, respectively, and equal 100 percent of the required contributions for each year.

CalPERS

Plan Description

The District contributes to the School Employer Pool under CalPERS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and survivor benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95811.

Funding Policy

Active plan members are required to contribute 7.0 percent of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2011-2012 was 10.923 percent of covered payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to CalPERS for the fiscal years ending June 30, 2012, 2011, and 2010 were $1,622,758, $1,511,412, and $1,450,571, respectively, and equal 100 percent of the required contributions for each year.

Tax Deferred Annuity/Social Security

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use Social Security.

On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS in the amount of $1,867,008 (4.855 percent of annual payroll). Contributions are no longer appropriated in the annual *Budget Act* for the legislatively mandated benefits to CalPERS. Therefore, there is no on-behalf contribution rate for CalPERS. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements. On behalf payments have been excluded from the calculation of available reserves, and have not been included in the budgeted amounts reported in the *General Fund - Budgetary Comparison Schedule*.

NOTE 15 - COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2012.

Litigation

The District is involved in various litigations arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2012.

NOTE 16 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS

The District is a member of the Southern Orange County Property/Liability Joint Powers Authority, the Western Orange County Self-Funded Workers' Compensation Agency, South Counties Employer Employee Trust, and the Alliance of Schools for Cooperative Insurance Programs Joint Powers Authority public entity risk pools. The District pays an annual premium to each entity for its property/liability, workers' compensation, and health and welfare benefits coverage. The relationships between the District and the pools are such that they are not component units of the District for financial reporting purposes.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. Audited financial statements are available from the respective entities.

During the year ended June 30, 2012, the District made payments of $480,363, $702,542, $6,754,370 and $968,064 to Southern Orange County Property/Liability Joint Powers Authority, the Western Orange County Self-Funded Workers' Compensation Agency, South Counties Employer Employee Trust, and Alliance of Schools for Cooperative Insurance Programs Joint Powers Authority, respectively, for annual premium payments.

NOTE 17 - FISCAL ISSUES RELATING TO BUDGET REDUCTIONS

The State of California continues to suffer the effects of a recessionary economy. California school districts are reliant on the State of California to appropriate the funding necessary to continue the level of educational services expected by the State constituency. With the implementation of education trailer bill Senate Bill 70 (Chapter 7, Statutes of 2011), 39 percent of current year funding has now been deferred to a subsequent period, creating significant cash flow management issues for districts in addition to requiring substantial budget reductions, ultimately impacting the ability of California school districts to meet their goals for educational services.

The General Fund balance has increased by $16,321 over the past two years. The fiscal year 2012-2013 budget projects a decrease of $3,481,470 (32 percent). For a district this size, the State recommends available reserves of at least 3.0 percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating deficits in two of the past three years and anticipates incurring an operating deficit during the 2012-2013 fiscal year. Total long-term obligations have increased by $2,016,518 over the past two years.

Average daily attendance has decreased by 19 over the past two years. Additional growth of 63 ADA is anticipated during fiscal year 2012-2013.

[1] Budget 2013 is included for analytical purposes only and has not been subjected to audit.

[2] Available reserves consist of all unassigned fund balances including all amounts reserved for economic uncertainties contained with the General Fund.

[3] On behalf payments of $1,867,008, $1,611,349, and $1,796,971 have been excluded from the calculation of available reserves for the fiscal years ending June 30, 2012, 2011, and 2010, respectively.

[4] General Fund amounts do not include activity related to the consolidation of the Deferred Maintenance Fund and the Special Reserve Fund for Other Than Capital Outlay as required by GASB Statement No. 54.

NOTE TO SUPPLEMENTARY INFORMATION
JUNE 30, 2012

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the United States Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances and in Business-Type Activities, and the related expenditures reported on the Schedule of Expenditures of Federal Awards. The reconciling amounts consist primarily of ARRA - State Fiscal Stabilization Funds and Medi-Cal Billing Option Funds which were recorded in the prior period as revenues but were expended this year.

	CFDA Number	Amount
Total Federal Revenues From the Statement of Revenues, Expenditures, and Changes in Fund Balances and Business-Type Activities:		$ 6,859,193
ARRA - State Fiscal Stabilization Funds	84.394	412,844
Medi-Cal Billing Option	93.778	136,981
Total Schedule of Expenditures of Federal Awards		$ 7,409,018

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of *Education Code* Sections 46200 through 46206.

Districts must maintain their instructional minutes at either the 1982-1983 actual minutes or the 1986-1987 requirement, whichever is greater, as required by *Education Code* Section 46201.

INDEPENDENT AUDITORS' REPORTS

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Governing Board
Ocean View School District
Huntington Beach, California

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Ocean View School District as of and for the year ended June 30, 2012, which collectively comprise Ocean View School District's basic financial statements and have issued our report thereon dated December 6, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States.

As discussed in the Notes to the basic financial statements, the State of California continues to suffer the effects of a recessionary economy, which directly impacts the funding requirements of the State of California to the K-12 educational community.

Internal Control Over Financial Reporting

Management of Ocean View School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Ocean View School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Ocean View School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Ocean View School District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined previously.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Ocean View School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Ocean View School District in a separate letter dated December 6, 2012.

This report is intended solely for the information and use of the governing board, management, the California Department of Education, the State Controller's Office, and Federal awarding agencies, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Governing Board
Ocean View School District
Huntington Beach, California

Compliance

We have audited Ocean View School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Ocean View School District's major Federal programs for the year ended June 30, 2012. Ocean View School District's major Federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of Ocean View School District's management. Our responsibility is to express an opinion on Ocean View School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about Ocean View School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Ocean View School District's compliance with those requirements.

In our opinion, Ocean View School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

The management of Ocean View School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered Ocean View School District's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Ocean View School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2012

There were no audit findings reported in the prior year's schedule of financial statement findings.

Governing Board
Ocean View School District
Huntington Beach, California

In planning and performing our audit of the financial statements of Ocean View School District (the District) for the year ended June 30, 2012, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit we noted matters that are opportunities for strengthening internal controls and operating efficiency. The following items represent conditions noted by our audit that we consider important enough to bring to your attention. This letter does not affect our report dated December 6, 2012, on the financial statements of Ocean View School District.

OTHER POSTEMPLOYMENT BENEFITS

Observation

While the District has implemented GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions,* the District's application of the Statement may not be consistent with guidance related to frequency of valuations. For compliance in application of this Statement, the District must obtain a new actuarial valuation every two years. The most recent actuarial study for Ocean View School District is dated July 1, 2009, but relies on the valuation performed as of July 1, 2008.

Recommendation

In order to ensure compliance with GASB Statement No. 45, the District should ensure that a new actuarial valuation is obtained at a minimum of every two years. Any significant changes since the most recent valuation may require the District to obtain an updated actuarial valuation sooner than every two years. Significant changes include changes in benefit provisions, such as the employer enhancing or curtailing benefits; changes in the covered population, such as the employer limiting or expanding eligibility; and other factors that impact long-term assumptions.

ASSOCIATED STUDENT BODY (ASB)

Spring View Middle School

Observations

1. Deposits are not always made timely. The auditor noted two out of five weeks tested where deposits were made from ten to fourteen days after receipt. This resulted in large cash balances being maintained at the site, which decreases the safeguarding of the asset.

2. Preapproval of fundraising events was not evident through review of the student body minutes.

FRESNO • LAGUNA HILLS • PALO ALTO • PLEASANTON • RANCHO CUCAMONGA • RIVERSIDE • SACRAMENTO

Recommendations

1. It is recommended that deposits should be made weekly to minimize the amount of cash held at the site. During weeks of high cash activity there may be a need to make more than one deposit.

2. All fundraising activities should be preapproved by the student body. This is best documented through the student body meeting minutes.

We will review the status of the current year comments during our next audit engagement.
