Spring View Student Presentation

Spring View Principal Isis Ortiz and ASB representatives Candence Lee and Abraam Youssef spoke about the variety of activities which the school provides to promote positive messages and help students stay connected. Some of these activities include Sparty Parties, dances, skits, games, videos, and philanthropic events. Principal Ortiz also spoke about the *Popsicles with the Principal* program that she and Assistant Principal Jared deLachica launched over the summer to connect with parents and get their feedback on what's working and what needs work at the school.

Construction Update

Mr. Jim Choate, Executive Director of Facilities, provided Measure R modernization updates on Vista View, Star View, and Mesa View. Vista View looks fantastic; students and staff are delighted with the new school environment. The Vista View Grand Reopening Ceremony is November 3, and final preparations for the ceremony are underway. Star View modernization is progressing nicely, with sitework and construction in full progress, including the reorientation of the new school office facing Newland Street. Mesa View is in the development and design phase, and we will be submitting plans to the Division of State Architect soon.
