Covering the Ocean View School District

Volume 18, Issue 105

May 2022

Saying Goodbye and Looking Ahead

A special Demolition Ceremony was held recently to say goodbye to Park View School. Park View was a K-8 school that opened in 1969 and closed in 1989. OVSD is tearing down the school to make way for green, open space for the community to enjoy, adjacent to Murdy Park and Ocean View Little League fields. Thank you to all the dignitaries, former students and staff of Park View and members of the Ocean View Little League that attended our special event.

Dr. Carol Hansen
Superintendent

District & Schools Receive CA Pivotal Practice Awards

When California required schools to offer distance learning due to the COVID-19 pandemic, the California Department of Education (CDE) sought to recognize and celebrate schools for their innovative practices in the 2020-21 school year. The 2022 California Pivotal Practice Award Program, or CAPP, was unveiled this year in place

of the California Distinguished Schools program, which typically honors high-performing campuses. We are proud to announce that Mesa View, Oak View, Star View, Vista View, Westmont, and the District have been recognized as California Pivotal Practice (CAPP) Award winners!

Mesa View was recognized for their focus on attendance activities that included a postcard campaign with handwritten notes mailed home and their "Traveling Eagle of the Week" recognition which involved the Eagle mascot (aka the Principal and Assistant Principal) driving to a student's home to hand deliver an award for being responsible, respectful, or reflective.

Oak View and Westmont stood out for their innovative approach to providing additional in-person instruction to targeted students who would normally have been at home completing work independently.

Star View was lauded for their approach to combining parent education and teacher professional development to ensure adults had a toolkit of strategies to support the social emotional development and well-being of each student.

Vista View was recognized for their commitment to include students at home via Zoom with students present in person to provide direct instruction and to mitigate students working independently at home.

The District was honored for its social emotional continuum and mental wellness supports provided. This included access to specialized staff and training for teachers on ways to provide welcoming, inclusive classrooms and supports for students online or in person.

Congratulations to the 2022 CAPP Award winners!

OVSD Providing Green Space in Huntington Beach

By Gina Clayton-Tarvin, President, Board of Trustees

The Ocean View School District (OVSD) strives to be a good neighbor and to help improve the quality of life for our residents whenever possible. Recently, we have had two opportunities to do just that.

OVSD is proud to be the largest provider of green space in Huntington Beach and we have partnered with the City of Huntington Beach to provide seven pocket parks throughout the community. In April, the new and improved Glen View Park reopened with upgraded playground equipment, active play areas, and beautiful, open green space.

In March, we bid farewell to Park View School, which had been closed since 1989. We are not selling the property to make way for high density development. Instead, we are removing old school buildings to provide expansive green space, which will be a nice compliment to Murdy Park and the Ocean View Little League fields next door.

The District is so pleased to be able to expand and/or enhance these parks for residents to enjoy for years to come. Thank you to my fellow Board Members for looking at the big picture and for making decisions in the best interest of our greater community.

Celebrating the new and improved Glen View Park are OVSD Board President Gina Clayton-Tarvin, Huntington Beach City Council Member Kim Carr, OVSD Superintendent Dr. Hansen, OVSD Board Vice President Patricia Singer.

Barbara Delgleize
Mayor

Hello everyone!

This year is already moving quickly and we're excited in Surf City for all the great amenities we've added lately.

The City has added more Mobi Mats at the beach and at Dog Park in Central Park. These mats make it easier for our older residents and visitors, as well as those with disabilities, to safely access the sand and get closer to the water's edge.

In addition, we have new park improvements including, new playground and restrooms at Central Park, as well as a new elevated path to walk along the edge of the lake with ease! Other improvements have been made to Glen View, Sun View and Lake parks.

If you've driven or walked on the path along Pacific Coast Highway, construction continues at Bluff Top Park. Installation of wooden lodge pole fencing is complete. Installation of concrete sidewalk adjacent to PCH will be done this month. Widening of the asphalt path and landscape improvements will begin soon, and we anticipate project completion prior to the Memorial Day holiday.

We continue to keep our residents in the know! Visit www.surfcitybreak.com for the latest and greatest information about Huntington Beach!

Lots of Activity Choices

By Melissa Ronning, Senior Youth Services Librarian

While May is a programming break month for the Children's Dept., we still have a few things on our calendar! Check out the following activities that will be fun for the whole family.

Did you know that Huntington Beach is home to five library branches? Throughout the month of May, we invite you to visit all of our locations and learn more about our history. Stop by any of our branches and literacy offices to pick up a prize along with a Travelogue and get it stamped! Complete the entire Travelogue by visiting all the locations, and be entered into a raffle for one grand prize! Turn in your completed Travelogue by May 31st. Grand prize winners will be announced June 5.

We also invite you to explore the heritage of Asian American and Pacific Island cultures through our first-ever kits celebrating this cultural recognition month! Asian/Pacific American Heritage Craft Kits for Kids are designed to encourage exploration, hands-on activity, and promote tinkering and intentional interaction between children

ages 6-10 and their caregivers. Kits are available on a first-come-first served basis from the Central Library Children's Desk and at HBPL Branch Libraries during [library open hours](#), starting on Saturday, May 14, 2022.

Do you like to play games? Stop by the Central Library on May 14th or 15th and play a life sized version of the game Tsuro. Tsuro is a simple game of laying a tile before your own token to continue its path on each turn. The goal is to keep your token on the board longer than anyone else's, but as the board fills up this becomes harder because there are fewer empty spaces left. This game is easy to introduce to new players, lasts about 15 minutes, and works for any number from 2 to 8.

Explore the heritage of
Asian American and Pacific Island
cultures... kits are
available starting on
Saturday, May 14, 2022.

Does Your Child have Allergies... Or is it a Cold? Here's How to Find Out.

Inderpal Randhawa, M.D.,
medical director,
Children's
Pulmonary
Institute,
MemorialCare
Miller Children's &
Women's Hospital
Long Beach

May is National Asthma and Allergy Awareness Month and it's around the time you start seeing running noses and itchy eyes. But is it a cold or allergies? Here are some tips to figure it out:

- Check the mucus, allergies tend to be thin and clear. Colds tend to be yellow or green and thick.
- Allergies tend to come on suddenly when your child is exposed to a trigger and lasts a while. Cold symptoms often start gradually and are done within two weeks.
- Typically, a fever won't be present in allergies, but colds come with a low-grade fever.
- If your child has watery or itchy eyes, it might be an allergic reaction. Watery and itchy eyes aren't usually a cold symptom.

The symptoms and severity of allergies varies in children. Ranging from minor irritation to anaphylaxis, a potentially life-threatening allergic reaction.

The [Allergy Program](#) at the [Children's Pulmonary Institute](#) at [MemorialCare Miller Children's & Women's Hospital Long Beach](#) pediatric allergists use allergy tests to identify allergens that may be causing your child's allergies. The allergy tests performed are:

- Skin Prick Testing
- Intradermal Allergy Testing
- Patch Allergy Testing
- Serum Allergy Testing (Blood Testing)

From the results of these tests our pediatric allergists can decide what type of medications or treatments, if any, may be needed. While allergies can't be cured, treatments can help relieve allergy symptoms and induce tolerance.

By identifying the allergen, changes can be made in the child's home and living space to potentially improve their health.

To learn more visit millerchildrens.org/allergy.

2801 Atlantic Ave., Long Beach, CA 90806

800-MEMORIAL (636-6742) • millerchildrens.org/allergy

We're on Kevin's level at the highest level.

Many children's illnesses are rarely seen in adults or affect kids differently, which is why a children's hospital is so important. And you are fortunate enough to live close to one. Since every child is unique, we offer more than 600 board-certified pediatric physicians, covering 40 specialties in locations from the South Bay to Orange County. This means Kevin can get precisely the specialized care he needs.

Access to elite care. When you need it.

Its Hatching Season

This month our preschool program is learning about nature and life cycles. Teachers have reviewed the life cycles of frogs, butterflies, and chickens. This past week Ms. Kathy's classroom at Oak View Preschool welcomed Sunny, a very energetic and joyful baby chick. Students were so excited as they got to see the entire life cycle develop before them from egg, chick

and soon be a chicken and then taken back to Golden View Elementary School farm where they began. Students are also excitedly awaiting the arrival of some ducks, more chicks, and pheasants. By getting these hands on, in person experiences students are able to learn through various modalities as well as life skills on taking care of other living things around them. This will be sure to leave a lasting impression in their lives. We are so grateful students have the opportunity to learn through exploration here in the Ocean View School District Preschool Programs.

Learning through Exploration is Fun!

Outdoor Learning!

Our 5th graders recently returned from their overnight field trip to AstroCamp! They spent three days and two nights in beautiful Idyllwild. AstroCamp's outdoor science program definitely gave our students an experience that will stay with them for the rest of their lives. The camp has students explore the sciences of physics and astronomy, develop as individuals, and

fosters their sense of wonder. Students learned about atmosphere and gases, lights and lasers, electricity and magnetism, and more. There were also STEM activities, hikes, a sky coaster, and so much fun. Our 5th grade teachers organize and prepare our 5th graders for this fantastic experience, and we are so grateful to our AstroCamp Parent Committee for all their fundraising efforts. It takes a big team to bring our students to AstroCamp and we are so happy to be able to return this year!

First Graders are Animal Researchers!

By Jill Schulten, First Grade Teacher

Do you know the difference between a turtle and a tortoise? Do flamingo's knees really bend backwards? How do pandas hold their bamboo when eating? Well, the first graders at College View know the answers to these questions and more! In their literacy groups, they did an in-depth study of tortoises, panda bears, flamingos, and hippopotamuses. They learned about each

animal's habitat, special features, adaptations, and physical characteristics. The students had deep discussions about how the animals' special adaptations help them survive in nature. They created several different Thinking Maps to organize their information. Upon finishing their research, they used their findings to write about their animal. They completed their research by making a fun animal art craft. The students loved sharing what they learned about their animal with the rest of the class. The first graders are looking forward to next learning about outer space. Way to go Fabulous Firsties at College View School!

Golden View Celebrates Culture and Diversity

Families at Golden View had the opportunity to share all about the cultures around the world!

While families prepared beautiful displays that

were celebrating the food, clothing, and traditions, students and their families had the opportunity to learn interesting facts and engage in meaningful conversations about the countries represented. There were a total of 18 countries represented around the campus. In addition to the knowledge and food shared, dancers performed the traditional dances of the Hawaiian Islands for the crowd and Brazilian Jiu Jitsu was modeled for others to enjoy. It was a wonderful night highlighting the beautiful diversity of our school and community!

Principal

Fifth Grade Mock Trial

Learning the judicial system at any age is a complicated topic. Fifth grade teacher, Mrs. Goldbach, took this challenge on! Her students were broken into teams, researched and made a claim on a very relevant issue facing our world today – Gas or Electric Vehicles? The teams developed their arguments, opening statements, created witnesses with appropriate credentials presenting facts and evidence to support

their stand on the issue. The long-term environmental impact along with economic ramifications were addressed and scrutinized by our future law-abiding citizens. The students saw that there are two sides to every issue and finding a solution is challenging. A jury made-up of the students' previous teachers heard the prosecution and defense then deliberated reaching a verdict. Mrs. Goldbach was the presiding judge and the students dressed up for the mock trial. The motivation and investment of the students was astounding; an experience 5th graders will never forget.

Community Caring Events

Over the course of the school year at Hope View we have monthly community of caring events. Hope View's most recent Community of Caring project had another successful run over the month of April. Our Hawks have been collecting gently used clothes and housewares to support a local philanthropy. After three deliveries and one to go, our

community has been outstanding supporting our goals. The students pictured here, from Mrs. Sjogren's 5th grade class, are all smiles as they collect the second round of donated items. As we continue to build on our community events, we are thankful for the support of our families as they help us build in a level of giving back. Next up we have a beach clean up to close out the school year and further help our community. Way to go Hawks for all of your efforts on making this another successful monthly event!

Mrs. Sjogren's students collecting our April Community of Caring supplies for a local Philanthropy.

Every Day's Earth Day

Lake View is a STEAM school that stresses improving the environment. To recognize and celebrate Earth Day, Lake View had many activities that focused on being responsible global citizens.

One activity was an upcycle/recycle event. Students rotated between six different stations, upcycling items such as paper towel rolls, corks, egg cartons and water bottles. They made some decorative items that they took home to use in a new way. In another rotation, students went in groups collecting trash on the school campus. Students could not stop talking about how they had so much fun while helping Earth be healthier. Our TK/kinders had a "garden party." Students planted seeds to grow veggies in an aboveground planter and then celebrated in their classroom with a feast of berries, grapes, carrots and apple juice. In a fourth-grade classroom, students participated in a livestream event sponsored by the California Academy of Sciences. During this event, students became "planet heroes" and designed solutions and an action plan involving food choices and reducing food waste.

Throughout all of these activities, students were empowered through learning about challenges Earth is encountering and being active parts of the solutions we need.

Marine View *Middle School (6-8)*

Kindness Week

May brings our annual celebration of Kindness Week for Marine View Middle School. The week started with each student and staff member adding a leaf to our kindness tree. The leaves were filled with kindness quotes, affirmations, and acts of kindness. The week continued with events such as “take what you need”

where students were able to take notes filled with kindness quotes, sayings, and phrases. The campus was decorated by our leadership class with positive affirmations and kindness quotes. Throughout the week, students were given kindness challenges each day which included checking in on friends, loving the earth, sharing compliments and gratitude for others, helping at home, and practicing self-care. The campus radiated kindness!

Mesa View *Middle School (6–8)*

17601 Avila Ln., Huntington Beach, CA 92647 • 714/842-6608 • www.ovsd.org/mesa

Jady Grunbaum
Principal

Archery!

Mesa View has been thrilled to introduce archery as an after-school competitive club for students this year! With the support of our assistant principal, Mr. Ortiz, and one of our teachers, Adrian Polizu, Mesa View has been supporting about 20 students in learning about archery.

Students work hard after school two to three days a week, honing their skills with the goal of competing against other local middle schools in the area, including Westminster at Stacey and Johnson

middle schools. Our PTSO has been supportive in helping with start-up supplies, and Mrs. Ortiz also worked hard to secure grants.

These modern-day Robin Hoods—or maybe Merida is more this generation's style!—are doing an amazing job building a unique skill that supports discipline, concentration, and physical and emotional stamina. Students learn to care for the equipment, focus on a singular task, and work as a team.

We hope to expand the program next year to include more students and possibly more schools in OVSD, as the skills involved in archery go well beyond the physical.

Oak View *Elementary (K-5)*

Jenna Landero
Principal

OV Book Club

High School Junior, Jessica Chan had a vision of a new club for Ocean View High School this year. Based upon her love of reading that was fostered since she was in elementary school, she dreamed of passing that love on to our Mighty Owls. Starting in October of 2021, a core group of over 15 high schoolers came to Oak View every Monday afternoon to read James and the Giant Peach together with a group of over 30 4th and 5th grade students. Each week our students, led by

Mrs. Reichenthaler and Mr. Pate, meet in the gym and read together, engage in fun activities, and just hang out. It has been a magical experience! On April 30th, the OV Book Club along with some parents got on a bus and headed to Downtown Los Angeles for a culminating field trip together! They visited the Last Bookstore, rode the Angel's Flight historic trolley, and ate lunch at the Grand Central Market. It was a beautiful day in LA! Both Oak View Elementary and Ocean View High School look forward to reading and exploring more of our world through books and immersive field trips in the future!

**The more that you read, the more things you will know.
The more that you learn, the more places you'll go.**

Students working during Spring View's Lead Day

Students LEAD Day lesson was about being kind to each other. Stories of caring for one another as students, as a community was shared. The impact of caring or being kind to each other has on us as humans. Students enjoyed writing "Kind" words and shared with each other.

The message "Be kind"
Students wrote notes and posters for students and staff to be kind to each other.

Students had an opportunity to share why they selected the words of kindness. Students shared how this can impact the lives of a classmate or another student on campus. Students had an opportunity to select classmates and practice being kind. Students stated that they felt good when someone said something nice to them. Students are encouraged to continue sharing kindness words and acts for the remainder of the school year and to make this a common practice.

Reading Goal

Star View School Welcomed in the spring with many engaging learning opportunities and exciting events including a school-wide celebration in March when the school reached our reading goal of 1 million minutes read. The Entire School enjoyed a pizza lunch on the grass and the students painted the principal's hair pink!

Kindergarten and transitional kindergartners capped off their learning

about animals with a visit to a real farm. 1st graders studied animal and instinct life cycles and observed the process of metamorphosis. 2nd graders enjoyed an enriching field trip to Segerstrom Center to see the play the Secrets of Space. Third graders were busy with their novel study of Charlotte's Web.

The 4th grade hockey team is preparing for their tournament as part of the Anaheim Ducks SCORE program. Finally, 5th grade students have been busy doing hands-on science learning about soil and erosion, water on Earth, and our solar system.

Star View students painted Principal Kraft's hair pink.

EUREKA!

The Gold Rush landed at Village View on April 22nd as 49ers flooded the campus dressed in western attire. Three lucky upper grade classrooms rotated through 10 different hands-on learning stations including: panning for gold, making arrowheads, assembling pioneer toys, beading necklaces, braiding reed headbands,

grinding oats, hand washing clothes and shaving. Authentic Native American instructors and more than 20 parent volunteers assisted the students as they experienced the multiple learning stations. This memory-making event brought the Gold Rush to life for everyone involved and will be treasured for a lifetime.

Learning by Doing

One of the many things that we pride ourselves on as a Falcon Family is the ability to offer our students many real-world experiences. For example, our science department offers multiple opportunities for the students to interact with

the world around them, and with a specific focus on how we can help to sustain life on our planet.

This school year, the marine biology students in Ms. Morrissey's class have focused on learning about life and sustainability. Numerous field trips have allowed them to dissect mackerel fish, take boat rides on the ocean, study plankton, clean up our coast, and learn about the impact they can have on the planet itself.

Some of the most meaningful moments in the class were based upon the excitement that the students felt about being able to take these trips to the actual places they had studied. Many students were inspired by what they had learned on these trips, because the pathway through the field of science in high school and college can be made much clearer through hands-on experience.

Testing PH in Ocean Water

One of the biggest highlights for our students was when they took boat rides to study the fish in their native habitat, and placed probes into the ocean for added visibility. Testing its pH and chemistry taught them first hand about what was happening to the water on our planet. The students feel that this class and its lessons were so engaging, and so much fun, that it didn't feel like they were actually completing coursework! The moments on these trips to the Pacific Coast definitely helped to form core memories for our Falcons.

We are excited to be offering such a robust program under the lead of our school's science teacher, Ms. Morrissey. The Vista Falcons soar!

Sharon Ahlman
Interim Principal

Westmont 2nd Graders “Measure Up!”

Westmont 2nd graders have been learning about measurement during the month of April. Whether it be measuring in non-standard units, centimeters, or inches, students practiced making estimates and checking their predictions. The students in Ms. Charnitski’s class took to the playground and used a variety of different measuring tools to see how high, long, and wide

different school playground structures were. Students formed teams and collaborated in using rulers, yardsticks, and tape measures to check their estimations. They measured the height of the swingset, the slide, the lunch benches, the balance beams, and even their teacher and principal’s heights were measured. You could hear the exchange of math language as students shouted out, “1 foot is 12 inches so if it is 3 feet or a yard, it must measure 36 inches!” Measure on, 2nd grade!

Students used many yardsticks to measure the length of the parallel bars.

Best Friends Forever?

Title: *Pea, Bee, & Jay: Farm Feud*

Author: Brian "Smitty" Smith

Best friends

Pea (a pea), Bee (a bee), and Jay (a bird) are back in this fourth book of the Pea, Bee, & Jay

series! Pea and Bee are arguing so Jay decides to go find new best friends. Then Pea and Bee try to find new best friends too. At the same time, there is a hungry snake who wants to eat them all! I really liked this funny book with cute characters who are silly and have good hearts. Read this book to find out what happens to them and also to learn the lesson that you should never forget about the friends you have.

Daniel is in second grade and he likes to spend time with his family playing board games, reading, and playing sports like tennis, soccer, and basketball.

David's Review

David H.

A Tortoise and Love

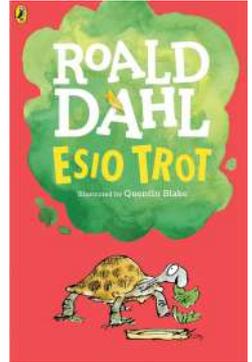

Title: *Esio Trot*

Author: Roald Dahl

Esio Trot is about

a very shy man named Mr. Hoppy and the woman he likes, Mrs. Silver.

Mrs. Silver loves her beloved pet tortoise Alfie and will do anything to make him grow. Mr. Hoppy comes up with a clever plan to make Alfie bigger and have Mrs. Silver fall in love with him. Read this book to find out what happens and if his plan works. I liked this story so much that I've read it multiple times! If you like tortoises and a little bit of love, you should definitely read this book.

David is in fourth grade and he loves to read and play piano. He likes math and outdoor activities such as rock climbing, tennis, and basketball.

Curious George Goes to the Zoo—Word Search Contest

Rules! One word in the list is NOT in the word search.

When you have completed the word search, one word will be left and that word you email to: Kay@schoolnewsrollcall.com (Please put Ocean View in the subject line)

Entries must be received by July 15, 2022

From the correct entries one name will be drawn to win a \$20 gift certificate redeemable at Barnes & Noble.

Thank you **Barkate Orthodontics** for sponsoring our games.
