February 13, 2024

Presentation Topics

1. Board Policy
2. Operational Criteria
3. Timeline
4. Boundary Options
5. Boundary Recommendation

Board Policy 5116

Consider the following factors:

1. School enrollment data, including declining enrollment patterns
2. Facility capacity and design
3. School feeder patterns, including maintaining, to the extent practical, continuity of student attendance
4. Federal, state, or county mandates
5. Community input
6. Student safety

Board Policy 5116

Consider the following factors (*continued*):

7. Transportation capacity
8. Community and neighborhood identity
9. Geographic features of the District, including traffic patterns
10. Educational programs, such as magnet school
11. Consistency between municipal boundaries and high school boundaries
12. Other factors - Operational Criteria

Operational Criteria

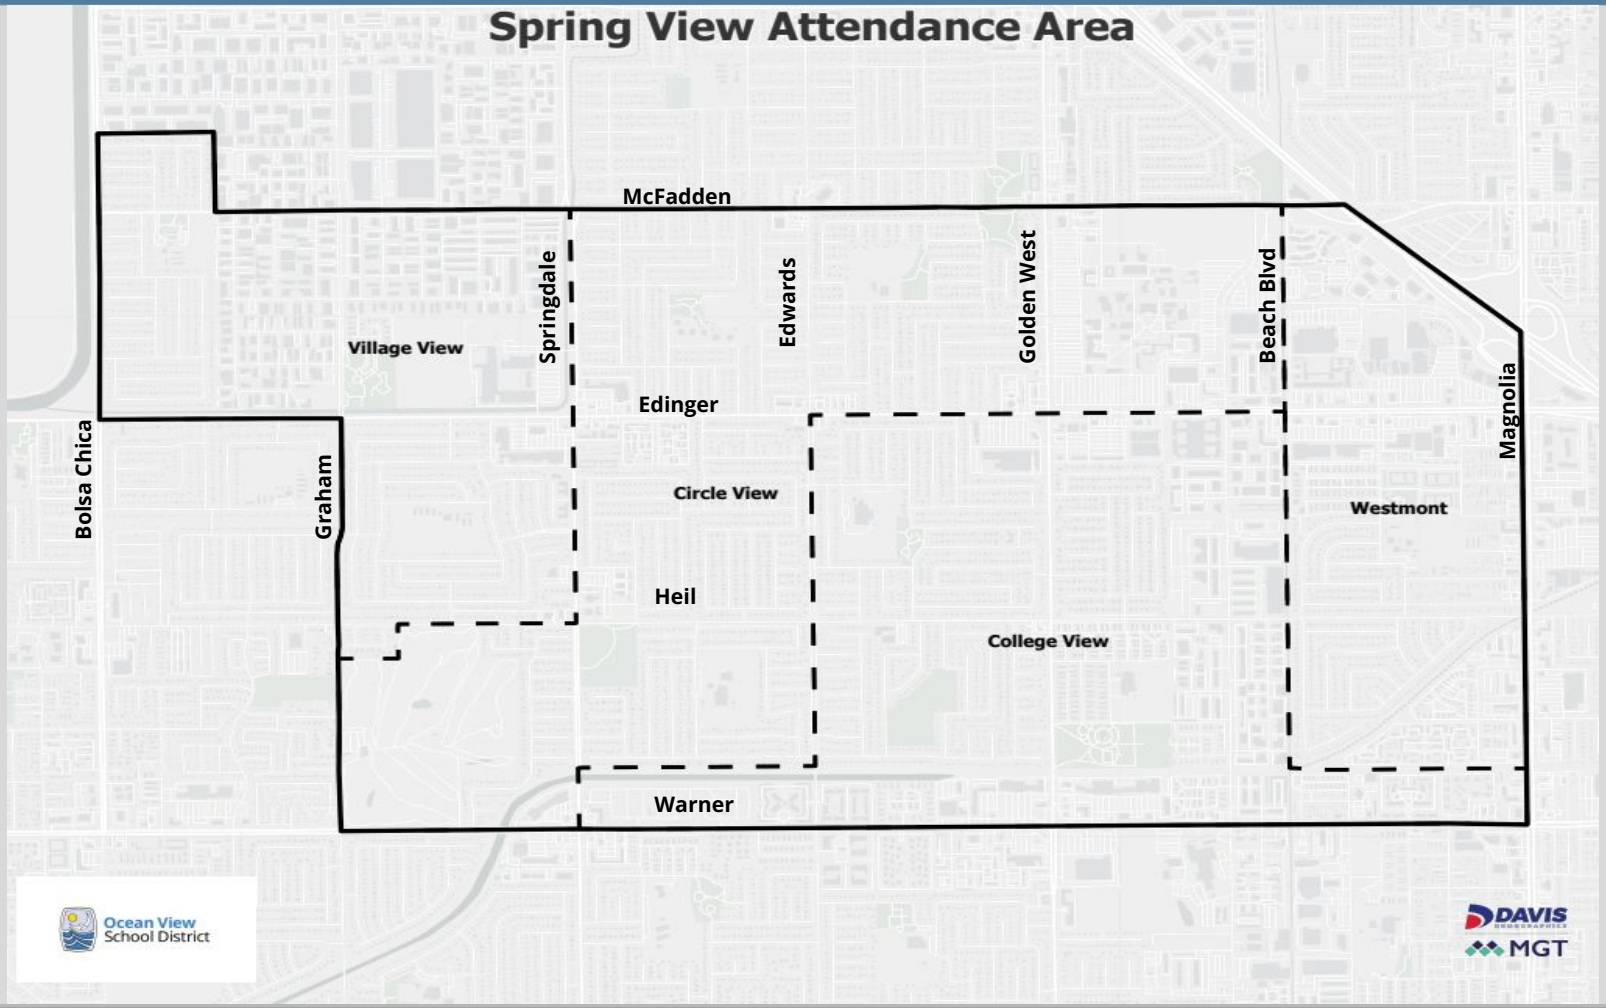

Consider the following factors:

1. Use major thoroughfares for boundaries
2. Keep neighborhood/tracts together
3. Utilization thresholds - School enrollment should be balanced to school capacity
4. Transportation routes - Students can easily and safely travel to assigned schools
5. Build upon existing attendance areas
6. Minimize the number of intra-district transfer submissions
7. Program flow - elementary programs that transition well to middle school
