Are you interested in taking Dual Enrollment Courses (If applicable) for that Program: Yes No

Career Goal: _____

Auto Services- This program is growing rapidly as people continue to keep their vehicles in operation longer than ever before. It is designed for students to gain knowledge and credentials for entry level employment in a shop setting or continuation into a college program. This program is NATEF accredited and students are eligible to receive ASE credentials. ****Dual Enrollment opportunities available, 2.0 gpa.**

Business Management- This program is for students who are interested in pursuing careers in business administration and management. Courses provide an overview of career opportunities, which are available in every sector of the economy and requires specific skills in organization, time management, customer service, communication, and effective use of technology.

Carpentry- This program is for students who are interested in constructing, installing, and repairing structures and fixtures made from wood and other materials. Utilizing NCCER's curriculum, this program covers content such as Building Materials (Commercial & Residential Construction) and Advanced Wall Systems.

Collision Repair- This program is designed to train students to successfully repair accidental damage and to refinish vehicles. Emphasis is placed on safety, plasma arc cutting and oxyacetylene cutting, resistance type spot welding, and metal inert gas (MIG) welding. The program is NATEF accredited and students are eligible to receive ICAR curriculum and credentials and/or ASE credentials.

Culinary- This program begins with the fundamentals and principles of the art of cooking, management and production skills, and techniques. Within this pathway, students can pursue a national sanitation certification, and industry certification.

Drafting Design Technology- This program is for students who have an interest in an architectural, engineering, or industrial field. Students learn technical, mechanical drafting, and computer aided drafting. ****Dual Enrollment opportunities available, 2.0 gpa.**

Early Childhood Development- This program is for students who are interested in pursuing careers with young children. Courses provide an overview of safe and healthy learning environments; children's physical, intellectual, and emotional development; building productive relationships with families; managing an effective childcare program; professionalism; techniques for observing and recording children's behavior; and principles of child development. ****Dual Enrollment & work-based learning required, 2.5 gpa.**

Emergency Medical Services/Fire Science- This program is for students who are interested in pursuing careers in emergency and fire management services. Courses provide an overview of careers in firefighting, emergency medical profession, and specialized public service jobs. ****Dual Enrollment opportunities available, 2.5 gpa.**

HVAC- This program is growing rapidly as an increase in development of HVAC (heating and air-conditioning systems) technology causes employers to recognize the importance of continuous education to keep up to date with the latest equipment and skills. This program utilizes NCCER's curriculum.

Health Science- This program incorporates project and problem-based healthcare practices and procedures to demonstrate knowledge and skills fundamental to a variety of healthcare careers. Knowledge and skills are reinforced and enhanced through participation in HOSA. ****Human Body Structures counts as a 3rd Science Credit.**

Information Technology- This program prepares students with essential knowledge and skills for pursuing careers in the following three pathways: Database Design; Network Systems and Computer Services; and Programming and Software Development.

JROTC- This program prepares Cadets for leadership roles while making them aware of their rights, responsibilities, and privileges as American citizens. The program provides instruction and opportunities to benefit the student, community, and nation.

Plant Systems- This program is designed to provide students with an understanding of greenhouse, horticulture and landscape industries. ****Agrbiology & Plant Biotechnology count as 3rd & 4th Science credit.**

Welding- This program is for students with an interest in the welding industry. Welders impact virtually every industry. Technology is creating more uses for welding in the workplace. This program utilizes NCCER's four-level curriculum covering topics such as Oxyfuel cutting, Welding Symbols, and Stainless-Steel Groove Welds. ****Dual Enrollment opportunities available, 2.5 gpa.**
