Keep food and drinks away from your device.

## Something not working? Try these tips.

### Sign Out and Sign Back In

- At the bottom right, Click on the time.
- Click Sign out.

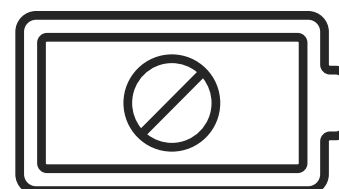

### Run Updates

- At the bottom right of the screen, select the time. Select Settings ⚙️
- Click About ChromeOS  
→ [Check for updates](#)
- If your Chromebook finds a software update it will start automatically

### Restart the Chromebook

- At the bottom right of the screen, select the time. Select Power ⏻
- OR**
- Press and hold the Power button until you see a menu to Power off
  - Then press the power button to start the Chromebook

### Not Charging?

- Try both charging ports
- Let charge for 24 hours
- Try a different charger

### Website not Working?

- In Chrome, click on ⋮
- Click on Privacy and Security
- Clear browsing history

### Still Having Issues?

- Ask a classmate or friend
- Seek help from a teacher
