THIS CERTIFICATE IS AWARDED TO:

## Olivia Davidson

Olivia Davidson is a greatly talented student who has a natural ability to look at problems from a different perspective. For her RISE Tech research project, Olivia chose to explore better ways of providing instant shelter after hurricanes to people living in jungle regions. Her research on bamboo shelters was a creative and imaginative project that led her to further knowledge regarding natural home manufacturing. For the 2017-2018 school year, she has partnered with Eric Gustafson and is now researching drone technology for law enforcement. She is enthusiastic, admired by her friends and will be a great benefit to any college she chooses to attend.
