School Vision & Hearing Screening Notification

The purpose of vision and hearing screening is to aid in the detection of school-age children who have or are at risk for developing vision/hearing disorders. These screenings are required by the Ohio Department of Health on an annual basis and will be administered during the school year to the following students from October- December 2019.

- All new students (with no previously documented screenings)
- All students in grades Pre-K, K, 1, 3, 5, 7, 9, and 11
- All students with undocumented follow-up from the previous school year

Why is it important to have your child's vision and hearing screened at school?

- To identify if your child has vision problems or might be at risk for vision problems.
- Hearing is important for speech, language development, reading, and learning.
- A hearing screening can detect if your child needs further hearing testing.
- Even if your child has passed a hearing screening previously, their hearing can change.
- Hearing problems can be related to medical problems.

What tests are included in my child's vision screen?

- Observation (Pre-K, K, 1, 3, 5, 7, 9, 11)
- Monocular distance acuity (Pre-K, K, 1, 3, 5, 7, 9, 11)
- Stereopsis test (Pre-K, K, 1)
- Color deficiency test (males only, in Kindergarten and/or First grade, if not done in Kindergarten)

What tests are included in my child's hearing screen?

- Audiometry: Screening of hearing acuity (Pre-K, K, 1, 3, 5, 9, 11)

How will I find out the results of my child's vision and screening results?

- If your child passes the vision and hearing screening, you may not be contacted by the school nurse.
- If your child fails the screening, you will be informed of the test results and provided with referral paperwork.

What do I need to do if my child fails the vision or hearing screening?

- Vision and hearing screening provides a snapshot of how your child performs on the day the test was administered and is not a substitute for a complete eye exam by an optometrist/ophthalmologist or audiologist/ENT.
- Follow up should be arranged with an eye specialist (optometrist/ophthalmologist) or a hearing specialist (audiologist/ENT).
- Provide the specialist with the referral paperwork and return it to the school once it has been completed.

If you should choose to opt-out of any part of the school vision and hearing screening, a written request will need to be provided to the school building's school nurse. Please contact the school building's nurse for more information regarding the exact date of the screenings and please return the written request/waiver to opt-out of the screening(s) **BEFORE** the start date of the screenings. The waiver to exclude the child needs to be renewed each school year or the child's vision and/or hearing may be screened/monitored as mandated by the Ohio Department of Health guidelines for school vision and hearing screenings.

Please contact the clinic nurse for any questions or concerns:
