WELCOME

We are thrilled to continue to provide academic experiences for our students that are rigorous, relevant, and build relationships. Everyone who steps through our doors - staff, students, and parents are excited to be here! We are proud of our rich traditions and the educational accomplishments of our students, staff, and community. We strive to ensure our students are engaged in an environment focused on high expectations reflecting academic, social, and emotional development. We are committed to helping to sustain the positive culture of kindness here at Andersen.

We offer several specialty programs including participation in the annual Battle of the Books, robotics, and math competitions.

Community is important to creating opportunity and experiences for our students both during and outside of the school day. Volunteers support students in the classroom, library and during enrichment opportunities. They work hard to make every day incredible.
