"26 Pebbles" is presented by special arrangement with Samuel French, Inc.,

a Concord Theatricals Company

From the author ...

How do people of this town go on from here? Can they erase this mark? Does an incident like this shake your spiritual bedrock?

I did what we do when we feel flustered and have no control over a situation—I posted on Facebook ... incessantly. I made so much noise on social media that at times it was deafening even to me. And therein lied the inherent problem; it was all just noise. What was I actively doing to create change about something that hit me so hard? It was at that moment that the idea came to me. I had a voice. I had questions and I had the ability to go to Newtown and talk with these people and see what exactly was going on... 26 Pebbles is not a play about the death of twenty young children and six adults. Those are just the circumstances. 26 Pebbles is a story of hope and of family and of community. It is a story of the human condition.

I guess all I ask is that audiences leave the theater and continue to discuss and tell the story of Newtown. Educate them so that they tell friends and family and neighbors the incredible story of these people. I am honored to be the one to tell this story to all of you and I am humbled in knowing that you will continue to spread it further.
