

We Launch for Our Community!

Sponsor a Rocket

\$5.00 (requested)

All Money Raised will go to our H.O.P.E. Club to be Given Directly to a Member(s) of our School Community in Need of Support!

Each year Mr. McLoughlin's Technology classes build rockets and launch them at the Middle School as part of their 7th Grade Technology Curriculum. As a way to raise money and raise awareness for those in our community in need, you have an opportunity to sponsor a rocket. Rocket Sponsorships start at \$5.00 and can be launched in support of someone in need. All monies raised will go to **The Hope Club** which stands for **Helping Other People Everywhere**. Their purpose is to make a difference in our local community and money raised will help them in their mission. So, if you wish to show support to someone in our school community for any reason (mental, physical or other needs) sponsor a rocket today!

**All Sponsored Rocket Launches will be recorded and uploaded to the district website.
Checks can be made out to the Sayville Middle School.**

Fill out the form below and return to Mr. McLoughlin at the Middle School.
