

Sunrise Drive Elementary

Core Values

Value and Worth

We believe that everyone should feel welcomed, respected, safe, seen, heard, and valued.

Growth Mindset

We believe mistakes help us to learn. Children need a growth mindset and confidence to work towards goals. Through perseverance and resilience, they will have courage to overcome obstacles when things get challenging.

Educational Experiences

We believe in providing experiences that foster both academic and real-life skills; such as independence, teamwork, and responsibility so our students may become better problem solvers in an ever-changing world.

Joy and Engagement

We believe students should love coming to school, be actively engaged in their learning process, and take ownership and find pride in their accomplishments.
