- Spring Break - March 25-29
- End of Quarter - April 11
- No School - April 12, May 22
- Memorial Day - May 27

SHAVE-A-THON

The challenge? For each tier of funds raised by students for Communicare a staff member or student had to undergo a full shave! The whole school gathered to celebrate and join in on the fun. This is just one creative way that Creekside gives back to the surrounding community.

SUSTAINABLE AGRICULTURE

Students in Creekside's agriculture program are busy at work year round tending the flock of hens that supply our culinary program with eggs , caring for the production farm and keeping the campus landscape beautiful.

CREEKSIDE CAFE

On Fridays from 9-11 AM, Creekside Cafe serves a delicious assortment of fresh-baked goods, signature drinks (such as this blueberry lime spritzer) and breakfast sandwiches, courtesy of our amazing culinary program.

CASCADE EDUCATION CORPS

For the last 7 years, Cascade Education Corps (CEC) has led planting projects with Fowler Middle School students, with the support of Friends of Trees. Creekside students trained middle schoolers on tree planting techniques. This school year alone, CEC students have planted over 3000 plants!

U.S. HISTORY

This fall, U.S. History students led illustrated talks and Q&A based on research they did on a change maker of their choice at their Project Showcase.

ACTION SQUAD

This Creekside team is decorating cupcakes for Family Promise of Tualatin Valley. Families in shelter will have good cheer to celebrate special events and birthdays thanks to the work of this group. Each Creekside student participates in a Community Action Squad, a team of collaborators who work together to define, plan and carry out meaningful work that contributes to our community. This unique youth-driven model gives students opportunities for project-based learning and the development of meaningful connections.

MANUFACTURING

Students in our manufacturing program get hands-on opportunities to design, plan and build a large variety of unique products in a workplace type environment.
