

HAND MIDDLE

What is the Digital Learning Environment?

The Digital Learning Environment (DLE) is Richland School District One's initiative to put a digital device (laptop) in every student's hand. This device (laptop) will be used for educational purposes and will help to enhance the level of student achievement in the classroom. Each student will be required to pay a ***\$30 Insurance fee*** annually.

Students will receive devices August 23-26 if they have turned in the Parent Consent Form or Parents have consented during registration on Infosnap. \$30 Insurance fee is due on October 21, 2016. After this date, the student will receive a debt on their account if they have not paid this fee.

*****Cash or Check (Hand Middle School) can be brought to school by a parent or child, along with the Parent Consent Form*****

Mr. Williams (Assistant Principal) will be collecting funds during grade level lunches on Mondays, Wednesdays and Fridays. Funds can also be brought to the Main Office.
