

**Meadowfield Elementary School**  
**School Improvement Council**  
Monthly Meeting  
April 2021

## Principal's Report

Thank you to all who helped improve and approved the 20-21 Annual Report to the People. They have been printed and will be going home with report cards Thursday. It is also on our website.

Enrollment has grown by 8 children and all eLearning children (42) have returned for the fourth nine weeks except 4. Therefore, we currently have 152 students participating in the Virtual School Program and 461 in the Phase In Program (4 of them still learning from home).

We continue to await the results of capital budget planning. I sent the email correspondence about the parking lot and the awnings to you in March correspondence.

The State will conduct SC READY and SC PASS testing this year. We will test May 18, 19, 25, 27. Scores will not count in the rating of schools and parents will have an option to opt out of testing. All state testing must be done in person. That's 80 virtual students that will need to come in to test that have not been on campus this year!

Calendar Items: Picture Day April 21/22; MOD Pizza Day April 22 - tell them you support Meadowfield and PTO gets % of the sale; May 3-7 is Teacher Appreciation Week. Looking at options for field day and promotion ceremonies.

The only other line item from my perspective is nominations for next year. The following elected members have served two years of service: Myers, Jeffcoat, MMoore, Enzor. I thank you for your service and welcome you to fill out a nomination form for more years of service if you are still interested in serving. Community members: I thank you for your service and I request you communicate with me about your willingness to continue serving. The following members will begin their second year of service in August: Tester, Adams, Grice, AMoore, Reese.

I have attached the nomination form and look forward to hearing from you about your future with the SIC if any details above have changed!
