# Connecting a Chromebook to Home Internet Service

Purpose

This document will provide steps to connect a Chromebook to a home Internet (Wi-Fi) service. <u>A working Internet connection is required to log into a Chromebook</u>.

Procedure

1. Turn on the JPS Chromebook. When the login screen appears, **do not attempt to log in**.
2. At the bottom right of the screen, <u>click on the time</u>.

3. Select *Not connected*. The Chromebook Internet will turn on automatically if it is turned off.

4. The Chromebook will show a list of available internet networks. Select your home Internet (Wi-Fi) network from list (example list below).
