Join us as the NPBS Drama Department, under the direction of Mr. Craig Duke, brings this incredible local story to life. The play is set in a variety of locations in and around Orange, NJ between 1918 and 1928.

Marie Curie's newly discovered radium is used to cure arthritis, cancer, and America's desire for a miracle tonic. When radium watches hit the market, hundreds of women are hired to paint watch dials. It's a dream come true, until they become afflicted with a strange illness. *Radium Girls* is a fast-paced play with a small ensemble playing multiple roles in this poignant and true story of the "shining women" who fought for justice in an ignorant world.

The show is appropriate for all ages and tickets are just \$10 for adults and \$8 for students and seniors. Get your tickets today!
